situation: Refurbishment of an ageing existing community church in Surrey Hills. **solution:** Driven by acoustic performance for the large, open interior spaces within the Church, Crosier Scott collaborated closely with Atkar to devise a cost-effective product mix with impressive acoustic results. Atkar's design expertise in ceiling solutions delivered a custom angled design using Au.diSlat and Au.diPanel ceiling systems. Site visits and detailed documentation ensured a smooth installation program. Warm timber finishes enhance the visual harmony of the space to create a welcoming community environment.

- 1_ Integrated lighting feature
- 2_ Reformed and welcoming space
- 3_ Elegant and visually harmonious
