

BASIC

 CITTERIO®

Design:
Franco Mirenzi, Vittorio Parigi,
C.R.S. Citterio

Basic è una parete divisoria progettata per essere utilizzata in ambienti in cui la trasparenza, la luce e il design stanno alla base delle esigenze di funzionalità e di comfort ambientale.

Basic è una parete tutta vetrata senza montanti o dotata di moduli completamente ciechi da mm 60 o mm 105 di spessore. I moduli ciechi sono ispezionabili: al loro interno si possono collocare i cavi elettrici, telefonici, interruttori e impianti compatibili con le dimensioni dell'intercapedine.

Basic is a wall partitioning system design-engineered for surroundings where transparency, light and aesthetics are fundamental to functionality and comfort.

Basic wall panels are provided in entirely glazed - devoid of upright units - as well as entirely solid surface options and come in 60 mm or 105 mm widths. The blind modules are internally accessible. They can house electric wiring, telephone wires, switches and any other facility that can be fitted into the available interspacing.

Basic est une cloison conçue pour être utilisée dans des milieux où la transparence, la lumière et le design sont les éléments qui déterminent les exigences de fonctionnalité et de confort environnemental.

Basic est une cloison entièrement vitrée sans montants ou équipée de modules complètement aveugles de 60 ou 105 mm d'épaisseur. Les modules aveugles sont visitables ; on peut placer à l'intérieur des fils électriques, de téléphone, des interrupteurs et des équipements compatibles avec les dimensions de l'espace vide.

Basic es una pared divisoria proyectada para su uso en lugares donde la transparencia, la luz y el diseño son la base de las exigencias de funcionalidad y de comodidad ambiental.

Basic es una pared realizada completamente de vidrio sin montantes o dotada de módulos completamente ciegos de 60 ó 105 mm de espesor. Los módulos ciegos se pueden inspeccionar: En su interior se pueden colocar los cables eléctricos, telefónicos, los interruptores y las instalaciones compatibles con las dimensiones de la cruzía.

30

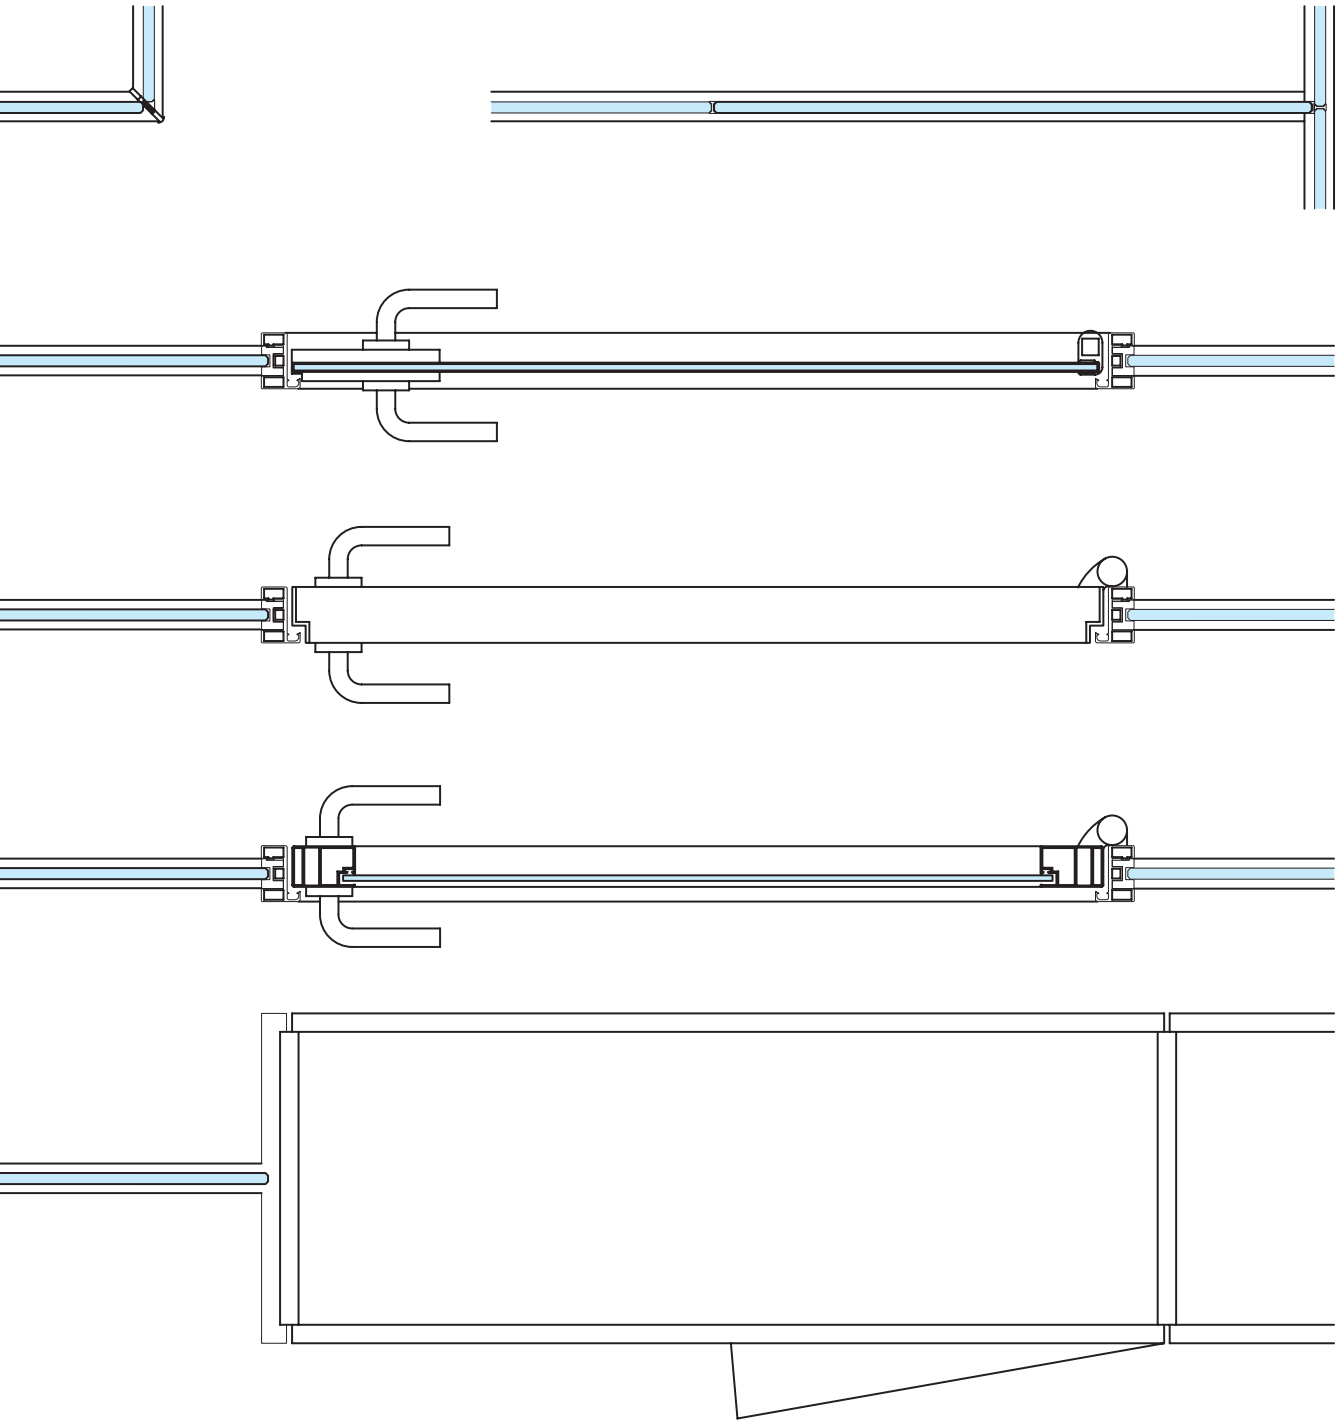

Parete divisoria vetrata completata da porte vetrate, con o senza intelaiatura in alluminio e porte cieche alte fino al soffitto.

Glazed wall partition panels complete with glass doors, with or without aluminium frame elements and solid, ceiling-high door options.

Cloison vitrée équipée de portes vitrées, avec ou sans cadre en aluminium, et portes aveugles allant jusqu'au plafond.

Pared divisoria de vidrio completada con puertas de vidrio, con o sin armazón de aluminio y puertas ciegas altas hasta el techo.

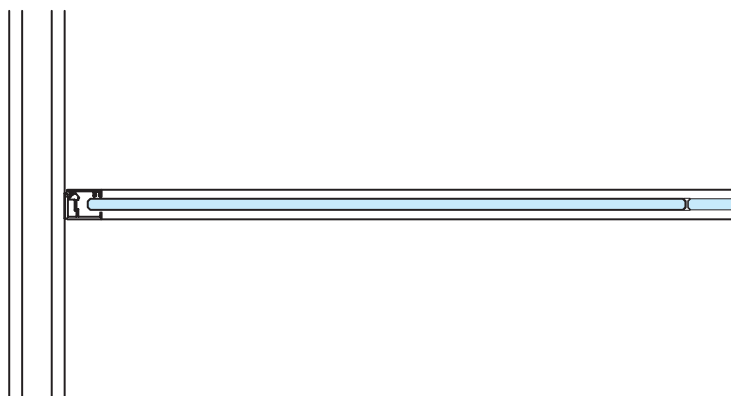

60

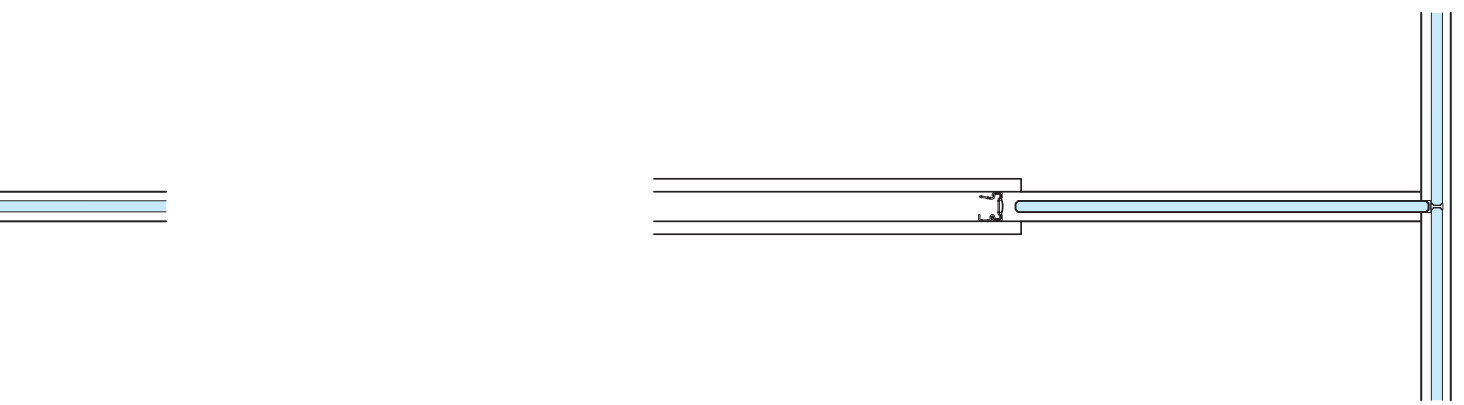

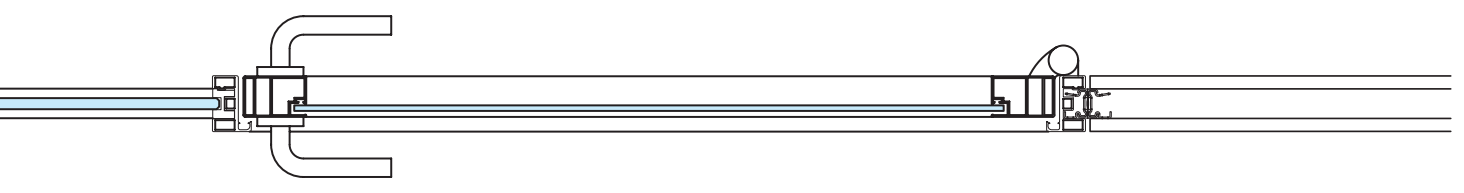

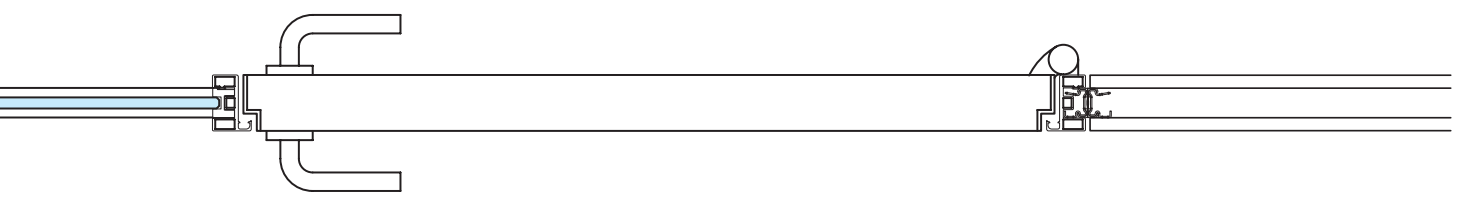

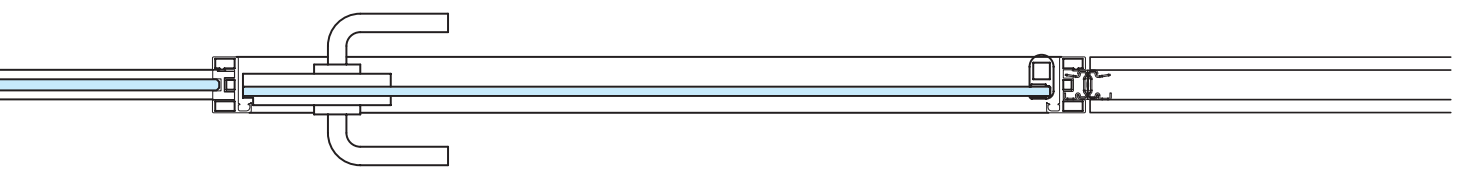

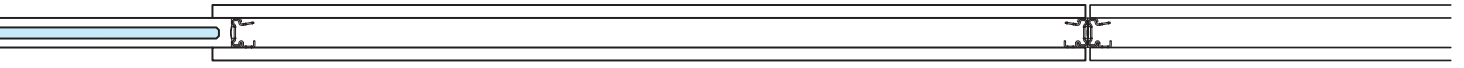

Parete divisoria vetrata con moduli ciechi spessi mm 60 e porte vetrate, con o senza intelaiatura in alluminio, e porte cieche alte fino al soffitto.

Glazed wall partition panels with solid, 60 mm thick modules and glass doors, with or without aluminium frame elements and solid, ceiling-high door options.

Cloison vitrée équipée de modules aveugles de 60 mm d'épaisseur et portes vitrées, avec ou sans cadre en aluminium, et portes aveugles allant jusqu'au plafond.

Pared divisoria de vidrio con módulos ciegos de 60 mm de espesor y puertas de vidrio, con o sin armazón de aluminio, y puertas ciegas altas hasta el techo.

16

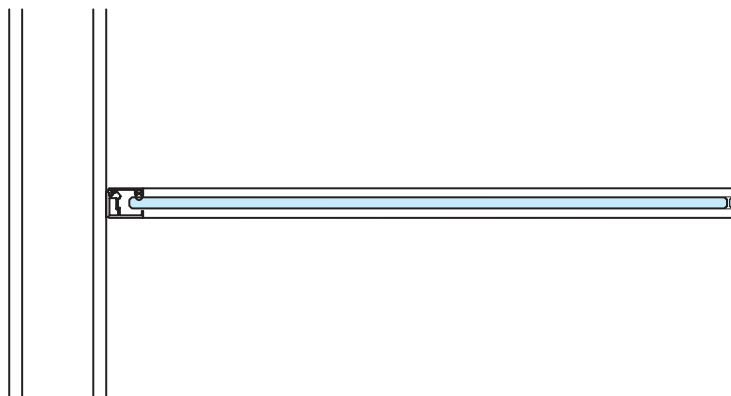

105

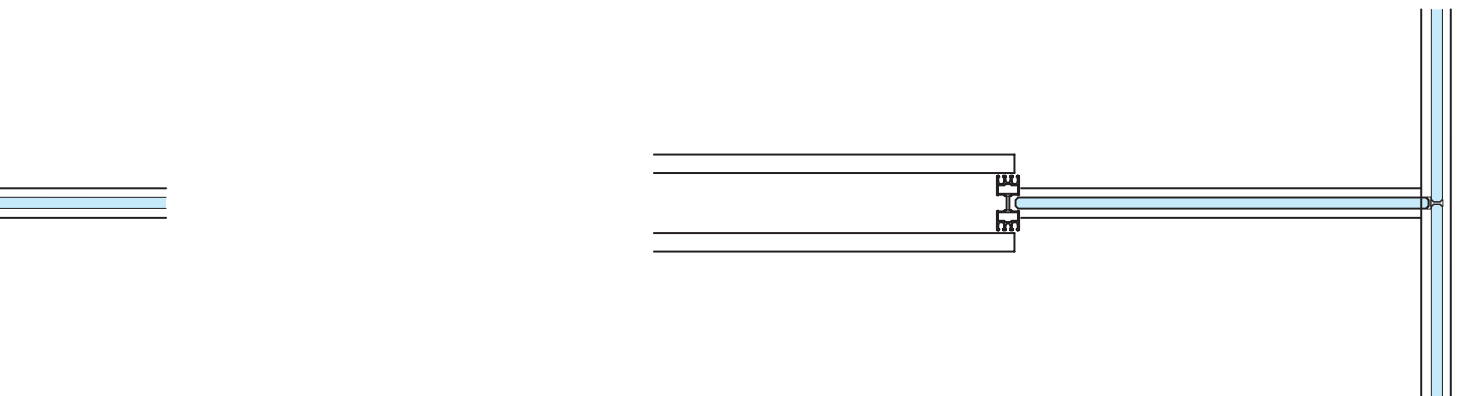

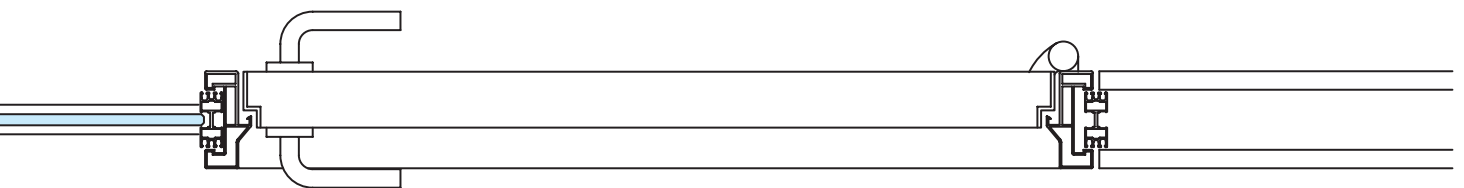

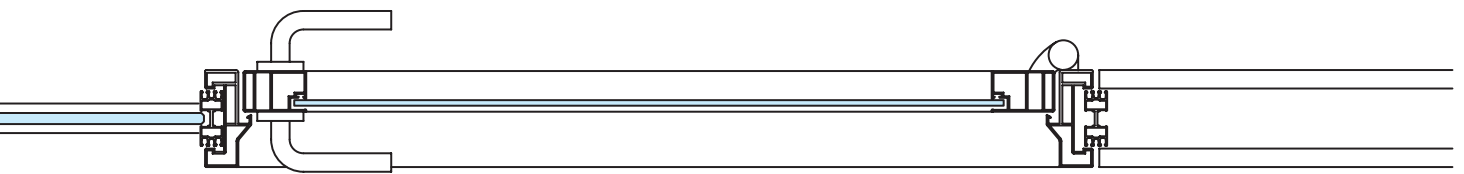

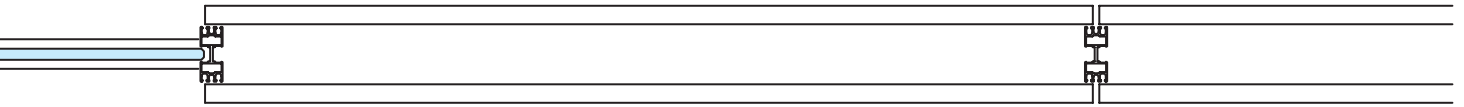

Parete divisoria vetrata con moduli ciechi spessi mm 105 e porte vetrate, con o senza intelaiatura in alluminio, e porte cieche alte cm 215 oppure fino al soffitto.

Glazed wall partition panels with solid, 105 mm thick modules and glass doors, with or without aluminium frame elements and solid, either 215 cm high or ceiling-high door options.

Cloison vitrée équipée de modules aveugles de 105 mm d'épaisseur et portes vitrées, avec ou sans cadre en aluminium, et portes aveugles de 215 mm de haut ou allant jusqu'au plafond.

Pared divisoria de vidrio con módulos ciegos de 105 mm de espesor y puertas de vidrio con o sin armazón de aluminio, y puertas ciegas de 215 cm de altura o altas hasta el techo.
