Blinds + Glass

Transforming Your Windows
with Modern Innovation

What is Blinds + Glass?

Discover a revolutionary window treatment that seamlessly integrates blinds with the glass in your windows. Blinds + Glass reimagines window coverings, transforming the way homeowners experience their living spaces. This innovative system integrates blinds within a sealed glass unit, enhancing both the visual appeal and practicality of your windows.

Effortlessly managed through user-friendly controls, these blinds provide adjustable light and privacy settings. By tilting, raising, or lowering the blinds within the space between the glass panes, you have complete control over the ambience and privacy of your space. This transformative concept offers an array of benefits for modern living.

Clean + Low Maintenance

A Simpler Approach to Cleaning

Are you a homeowner searching for a more straightforward method of maintaining your window blinds? Look no further than Blinds + Glass. We offer an innovative solution that removes the need to clean your blinds, just clean the glass.

Streamlined Cleaning Process

Traditional blinds frequently require thorough cleaning of each individual slat, a laborious task that is very demanding. Blinds + Glass, conversely, feature a sealed glass unit that simplifies the entire process. Never worry about dust, your blinds are sealed and all that is required is a straightforward wipe-down of the glass.

Enhanced Durability and Cleanliness

Our system offers more than just convenience. The sealed design not only minimises dust accumulation but also serves as a protective shield against stains and grime, ensuring that your blinds stay in impeccable condition throughout their lifetime.

Allergy-Friendly Living with Blinds + Glass

Blinds + Glass not only enhance the aesthetics of your living spaces but also promote a healthier environment. By minimising dust accumulation and allergen buildup, they significantly reduce potential triggers for allergies. With cleaner air and a healthier atmosphere, you and your family can breathe easier, ensuring a more comfortable and allergy-friendly home.

Sustainability and Financial Benefits

Blinds + Glass aren't just about energy savings; they're also environmentally friendly and financially savvy. By reducing your energy consumption and increasing your property's value, you're making a sustainable and cost-effective choice when you choose Blinds + Glass.

Redefining Energy Efficiency

Introducing the future of energy-efficient living with Blinds + Glass. Our innovative system takes window treatments to the next level, setting new standards for energy efficiency in your home.

Future-Proof Your Home

Stay ahead of evolving energy standards. Blinds + Glass technology future-proofs your living space, ensuring it meets and exceeds the strictest energy efficiency regulations for years to come.

You think Double Glazing is Good?

You've heard about the benefits of double glazing, but here's the upgrade: Blinds + Glass. When you add blinds to double glazing, you boost your home's insulation to a whole new level. Enjoy improved energy efficiency, reduced temperature fluctuations, and enhanced comfort with Blinds + Glass. It's the smarter choice for your home.

	Glass Configuration	Angle of Blade	U-Value W/m ² k	Solar heat gain coefficient (SHGC)	Visible Light Transmittance
Clear Glass	5	NA	5.9	0.83	89
	5+12+5	NA	2.7	0.83	79
	5+Blinds+5	0 °	3.26	0.72	78
		45 °	2.57	0.31	17
		90 °	1.92	0.13	0

Remove the risk

*Prevent Tragic accidents

Every year, window blind cord incidents cause family tragedies

Cordless Operation for Ultimate Safety

Safety is paramount when it comes to window coverings. Blinds + Glass feature cordless operation as a standard feature, eliminating any potential hazards associated with dangling cords. Rest easy knowing your home is a safer place for your loved ones, free from the risk of accidents or entanglement.

Designed to Withstand Active Pets

We understand that pets can be playful and sometimes a bit rough. Controllaview Blinds + Glass are engineered to endure the activities of active pets. Our robust design ensures your blinds stay in excellent condition, even with the most energetic companions.

Safe for Kids + Pets

Blinds + Glass: Your Trusted Choice for Child and Pet-Friendly Window Solutions

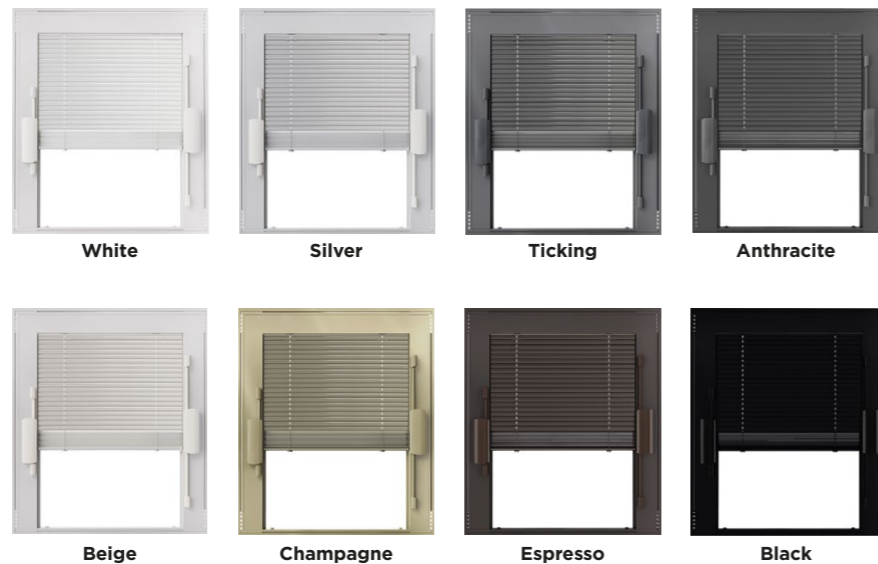

At Controllaview, we understand that your family's safety, including children and pets, is a top priority. That's why we've designed our Blinds + Glass product with their well-being in mind.

Blinds + Glass - Manually Operated

Experience the future of window coverings with Blinds + Glass, where smooth and stylish manual operation meets innovative design. These innovative window solutions combine the elegance of blinds with the practicality of manual operation, offering a seamless and stylish way to control light, privacy, and aesthetics in your living spaces.
