Easy Living Home Elevators is an Australian owned company, operating since 1998 and during this time has grown steadily. Today we have over 100 employees and showrooms across Australia!

Easy Living Home Elevators has achieved an outstanding reputation with over 5000 lifts in our maintenance system around Australia, mostly in private residential homes.

Our success over the past 13 years has been based on our commitment to provide an exceptional level of service, pride in the finished product and most importantly, the quality of the relationship established and maintained throughout our clients association within all areas of the company. In fact, most of our clients are repeat customers or are recommended through word of mouth, which is a testament to the level of quality we place on every project we undertake.

Easy Living Home Elevators draws on the knowledge and expertise of our team of experienced technical sales consultants, project managers, installers, service and maintenance administrators, assisting you in every phase of your lift order and installation process. Ensuring you receive the highest level

of service, from product specification, design information and site-specific lift drawings, through to manufacture, delivery and installation.

We also pride ourselves in treating our clients as people, rather than numbers. Like you, we enjoy the satisfaction of things running smoothly and to plan within your project. Here customer service is a priority!

Today we are recognised as the NUMBER ONE residential lift company in Australia. We are the only specialist home elevator company to hold the ISO 9001 Quality System Certification.

We have the flexibility to meet all your structural, design and budgetary requirements. Our product range includes: the Italian Domus Lift range, the Spanish Avanti Elevators, Limited Mobility Lifts and Service Lifts. An extensive range to suit your application and style, involving quality materials and prestigious lift designs to meet your every need and function.

**The Easy Living Home Elevators philosophy is simple: “The things that matter to you are the things that matter to us!”**

THE ONE AND ONLY

# DOMUSLIFT®

The DomusLift is proudly designed, developed and manufactured in Italy.

Featuring swing landing doors, the DomusLift is our most popular model, with over 90 different variations including the option of a self supporting glass tower.

From a building point of view, there is no need to leave the roof off to crane in cumbersome towers, the DomusLift components fit through the landing entrance doors.

Low pit depth and headroom requirements combined with minimal footprint dimensions mean you have no wasted space, no deep excavation and no ugly shaft protruding through the roof.

Even our single phase powered, self contained control cabinets reduce the lift area requirement, optimising building space. Making the DomusLift very easy to accommodate into your new or existing project.

## Specification

Lift Code	Carrying Capacity kg	Speed (m/sec)	Max Travel (mm)	Min Pit Depth (mm)	Min Headroom (mm)	Motor Cabinet (mm)	Controls	Power
AS1735.18	300	0.25	12,000	130	Enclosed - 2450 Structure - 2500	600W x 280D x 1000H	Automatic buttons with key isolation	20amp single phase dedicated supply

**An impressive 24,000 DomusLifts sold worldwide and growing!**

Easy Living Home Elevators are committed to quality, reliability and safety. 24,000 DomusLift owners worldwide can't be wrong!

**Whisper Quiet lifts Shhh...**

The DomusLift range provides safe, ultra smooth and whisper quiet drive systems.

We invite you to come and visit our showrooms with operational lifts on display, and put us on to the test.

**The Challenge Still Continues**

Back in 2006 we challenged ANY of our competitors to having a drive system that's as smooth and whisper quiet as ours. This challenge is still continuing!

**DomusLift Awarded: Class A Energy Efficiency**

Recently the Domus range of lifts was awarded an exciting "Class A energy efficiency" under the European Union energy label, bringing innovation into the home while helping to reduce the households' environmental impact.

POWERFUL AND FLEXIBLE

# DOMUSXL LIFT®

## The more powerful DomusXL Lift is designed for performance

The powerful, hydraulically operated 1100x1400 DomusXL Lift with swing landing doors is our most popular model in both private residential and commercial (limited mobility) applications. Complying with the BCA and AS1735.18 & AS1735.15 with a lifting capacity to take 4 adults or a wheelchair occupant and a carer.

Every DomusXL Lift is custom designed to fit in any location, both indoors and outdoors with minimum architectural impact and builder's works. Available with the option of a specially designed structural self supporting aluminium/steel and glass tower, designed to fit into small spaces as well as save money in shaft construction. The DomusXL Lift has the flexibility to satisfy the most demanding specifications and is very easily incorporated into any new or existing project.

### Specification

Lift Code	Carrying Capacity (kg)	Speed (m/sec)	Max Travel (mm)	Min Pit Depth (mm)	Min Headroom (mm)	Motor Cabinet (mm)	Controls	Power
AS1735.18	400 600 (special)	0.25	12,000	130	2500	720W x 360D x 1500H	Automatic buttons with key isolation	20amp single phase dedicated supply for 400kg
AS1735.15	400 600 (special)	0.15	4,000	130	2500	720W x 360D x 1500H	Constant pressure brail buttons with key isolation	20amp single phase dedicated supply for 400kg

## When Quality Matters

Quality is what makes our “DomusXL Lift” different from any other lift. Designed, engineered and manufactured in Italy, the world leading “DomusXL Lift” is a promise of quality, reliability and safety, delivering the latest in innovative technology “built to last!”

## Reliability and Safety

With few moving parts to wear out and an integrated emergency battery lowering system, automatic return to lowest floor feature and a full height light ray car safety entrance protection included as standard, you have the confidence of an extremely reliable and safe drive system.

## Versatile and Space Saving

From a building point of view, there is no need to leave the roof off your home to crane in cumbersome towers, the DomusXL Lift components fit right through standard residential door ways.

Our DomusXL Lift is extremely space saving. A low 130mm pit depth, 2500mm headroom requirement and minimal footprint dimensions mean:

- NO wasted space in your home
- NO deep excavation
- NO ugly shaft protruding through the roof

Even our self contained control cabinets reduce the lift area requirements making the DomusXL Lift very easy to accommodate into your new or existing project.

THE NEXT GENERATION

# DOMUSEVOLUTION®

With the perplexing number of lifts available on the market today, it is difficult to decide which one is right for you. Easy Living Home Elevators solves the puzzle for you with the introduction of the DomusEvolution.

## Take the DomusLift ....Australia's best selling home elevator!

We wondered how we could improve and evolve our "world class" Domus range of lifts. Our quest took us in a new direction; we listened to our customers who wanted an affordable lift with automatic sliding doors. The outcome was a world innovation & evolution, with a touch of a button the stainless steel doors slide open and close. Our customers will experience world innovation at its best.

### Specification

Lift Code	Carrying Capacity (kg)	Speed (m/sec)	Max Travel (mm)	Min Pit Depth (mm)	Min Headroom (mm)	Motor Cabinet (mm)	Control	Power
AS1735.18 & AS1735.16	400	0.30	12,000	150	2650	720W x 360D x 1500H	Automatic buttons	Single phase or 3 phase 32amp

Designed, engineered and manufactured in Italy to suit the requirements of the Australian market. The DomusEvolution is suitable for both residential and commercial applications.

Featuring premium luxurious finishes to the highest standards, combined with a reliable whisper quiet and smooth operation European drive system featuring the latest technological advances and performance.

Lifting load capacities of up to 400kg, optional self supporting glass tower, through car lift arrangements and still with the lowest pit and

headroom dimensions of any fully automatic home elevator available.

### **The DomusEvolution has all bases covered!**

The DomusEvolution lift only requires a minimum pit depth of 150mm and headroom of 2650mm. These low pit and headroom dimensions are very easily incorporated into into new and existing projects.

The “DomusEvolution Lift” is a promise of quality, reliability and safety, delivering the latest in innovative technology “built to last”!

### The Super Luxury Domus

Want a “premium” quality lift installed within your residential or commercial application with automatic sliding doors in stainless steel, higher lifting capacities of up to 630kg, optional self supporting glass towers, through car lift arrangements and still with the lowest pit and headroom dimensions of any fully automatic home lift available? The SuperDomus lift from Easy Living Home Elevators

has all bases covered. In the SuperDomus lift range, you are not stuck with “standard” finishes and sizes, there is a vast choice of 192 different models, or we can offer a customised lift size to suit your application. Our lift finishes from the large standard range include lightweight granite flooring, various types of stainless steels, mirrors, glass and over 260 RAL colours or the lift car can be fully customised to suit your application

#### Specification

Lift Code	Carrying Capacity (kg)	Speed (m/sec)	Max Travel (m)	Min Pit Depth (mm)	Min Headroom (mm)	Motor Cabinet (mm)	Controls	Power
AS1735.18 & AS1735.16	350-630	0.3	12	230	Enclosed - 2650 Structure - 2700	950W x 450D x 1850H	Automatic buttons with key isolation	<ul style="list-style-type: none"> <li>• 3 phase 32 amp</li> <li>• single phase is available upon request</li> </ul>

## When Quality Matters

Quality is what makes our “SuperDomus Lift” different from any other lift. Designed, engineered and manufactured in Italy, the world leading “SuperDomus Lift” is a promise of quality, reliability and safety, delivering the latest in innovative technology “built to last”!

Fully customisable, both from the luxurious finishes and functional perspectives to meet even the most demanding specifications.

***“Options, space efficiency and design flexibility - the SuperDomus lift from Easy Living Home Elevators has all the features for those who demand the best!”***

# DOMUSLIFT®

Easy Living Home Elevators & SWAROVSKI ELEMENTS:

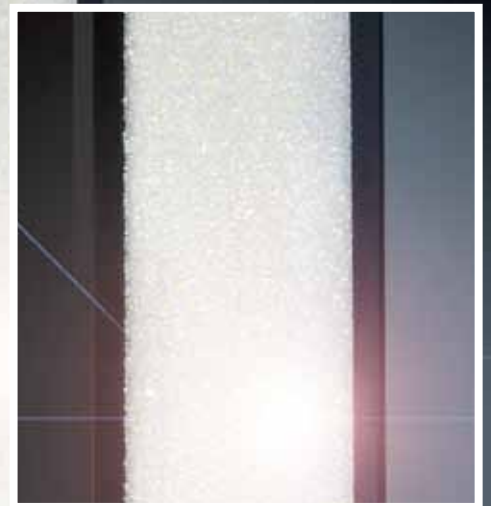

A Brilliant Collaboration in the Australian market

Now even your DomusLift can be glittered out into a remarkable designer showpiece. Swarovski Elements has teamed up with our very own DomusLift to create a lift encrusted with Swarovski crystals. Be inspired by the power and beauty of crystal elements, striving to new heights of artistic expression within your home.

Managing Director, Mr Robert Pizzie, is inspired by the collaboration. "Both brands stand for creativity, innovation, and luxurious quality. Complementing each other in the creation of a new high fashion design for a truly unique elevator experience. We are thrilled with our partnership and we're delighted to be confirming its availability exclusively at Easy Living Home Elevators"

# EASYSTEP

living made easy

the **easy**step  
is a staircase  
which converts  
to a lift at the  
push of a button

**easy living**<sup>®</sup>  
home elevators  
*designed to impress*<sup>®</sup>

## **A staircase and lift combined into just one product!**

The EasyStep, which at the push of a button cleverly transforms from a set of stairs into a platform lift, is unique, providing easy and safe access to the upper or to the lower level.

The EasyStep from Easy Living Home Elevators is a safe and economical solution, to overcome accessibility requirements in both residential and commercial buildings. This is an easy to operate platform lift solution for vertical rises up to 1000mm.

# LIMITED MOBILITY LIFTS

**MEDITEK STAIRLIFT**  
For Stairs

**VIMEC WHEELCHAIR STAIRLIFT**  
For Stairs

**SILVER LOW RISE PLATFORM LIFT**  
0-1 meter travel

*Easy Living Home Elevators prides itself on delivering a full range of reliable and versatile product solutions to meet growing accessibility needs in residential and commercial applications where ramps are not possible or where access is required by wheelchair users or those less mobile along a stairway.*

**Our company supplies and installs accessibility equipment including:**

Stairchairs, wheelchair stair platform lifts, vertical wheelchair platform lifts and AS1735 part 15 and 16 elevators which comply with the requirements of the Building Code of Australia and is designed to the latest Australian Safety and Quality Standards.

Our low rise platform lifts actually use much less space than a ramp. No pit is required and there is no need for a separate machine room making the range of low rise platform lifts very easy to incorporate into new and existing projects.

# LIMITED MOBILITY LIFTS

**EASystem PLATFORM LIFT**  
0-1 meters travel

**GLAZE LOW RISE PLATFORM LIFT**  
0-2 meters travel

They are a free-standing design that does not require to be installed against a load bearing wall, allowing a wider choice in positioning the location of the lift.

Our wide product range is flexible in design and can be installed both indoors and outdoors.

With minimal pit, headroom and no machine room requirements, Easy Living Home Elevators can provide an access solution into any new or existing project, to satisfy the most demanding specifications.

*You can be assured that whatever structural, design and budgetary challenges you are faced with, Easy Living Home Elevators will be able to provide a variety of product solutions to cater for your specific needs.*

# SERVICELIFT

## Industry Lifts

Easy Living Home Elevators specialise in service lifts for vertical transport in residential, industry and trade fields. As each project is unique, with different weight, travel distance, door openings and type of door, we have over 160 variations available. We also have finishes available in Stainless Steel along with the option of a self supporting tower.

Some examples of Service Lift use include:

- Dumbwaiters - in bars, café's, restaurants and private homes
- Documents lifts - in offices and banks
- Books lifts - in libraries and bookshops
- Instruments lifts - in clinics and hospitals

Our service lifts can be used for almost any purpose and can be made according to your specification.

# IT'S ALL ABOUT THE SERVICE

## Quality and Safety are our number one priority!

With every elevator purchase comes a philosophy of engineering excellence, quality and advanced technology. Easy Living Home Elevators delivers the technical expertise, special diagnostic equipment and genuine parts required to keep your elevator in optimum condition.

There is also an advantage knowing your elevator is maintained by qualified maintenance and safety technicians, all employed and trained by Easy Living Home Elevators. What this means to you is that we have experienced, capable technicians who share our company vision for excellence in lift maintenance and customer safety.

## 24/7 Call Centre Assistance

At Easy Living Home Elevators you not only get an elevator, but a serious commitment from us, every lift installed has access to our 24 hour call centre.

## Fast response rates

The NavMan is a natural addition to our already high level of customer service. The capability of tracking every vehicle no matter where it is means that Easy Living Home Elevators is always able to dispatch the nearest technician, providing a more coordinated and efficient response service that keeps everything running smoothly. As soon as a customer call comes in, our service centre can instantly match the nearest and most appropriate technician to the job, and provide an estimated arrival time, providing immediate peace of mind for our customers.

## The future of living

Easy Living Home Elevators has grown to be the Number ONE residential lift company in Australia. With a growing demand for lifts into both residential and commercial applications, and a continuous focus on quality and service, Easy Living Home Elevators are dedicated to providing the latest and innovative lift products to the Australian market, while maintaining the traditions that has made the company what it is today.

*"The number ONE lift company Australia wide"*

## Try before you buy

By appointment, you can inspect our lifts on display and in operation within our showrooms in Brisbane, Sydney, Melbourne, Adelaide and Perth which have been set up solely as a way of demonstrating our high quality, quiet and beautifully finished lift systems to you. Fully qualified lift consultants are also available to discuss our range and your needs in greater detail.

Contact us to arrange a visit -  
of course you are welcome!
