kitchen

Westinghouse

They say the kitchen is the **heart and soul** of every home.

At Westinghouse, we want to make every day easy. Our latest range makes practical look stylish, with exciting innovations and clever designs to make cooking a pleasure for everyone. We're introducing AirFry to selected ovens, for healthier, delicious meals without taking up extra benchspace. BoilProtect* is new to our induction cooktops, so no more over-boiling if you get interrupted in the kitchen. And, if you've ever forgotten to turn on the rangehood until it's too late, you'll love our new Hob2Hood technology. When you turn on your cooktop, it automatically turns on the rangehood and adjusts to your cooking. Discover all these innovations and more in our latest range. You'll feel right at home with Westinghouse.

OVENS

make every mealtime easy

—

Whether you're cooking up a tasty roast for the family or putting your favourite recipe to the test, you'll be pleased you chose Westinghouse. Our 60cm, 90cm and duo oven range give you all the room and all the features to make every mealtime easy.

Model shown: WVEP618DSC

AirFry

AirFry for that perfect, healthy crunch

When a food craving hits, make healthier and delicious food right in your oven. Deliver all the flavour and none of the guilt. AirFry allows you to make healthier, tasty meals for the entire family – right in your oven. The only oven range with AirFry*.

*Selected models.

Steam, our secret for delicious effortless cooking

Bring out natural flavours and goodness
with our versatile steam functions.
Steam Assist Cooking is ideal for meat, poultry and fish,
ensuring an even cook from centre to surface with a
crisp golden finish.

steam assist
cooking

easybake +steam

Tastier baking starts with steam

Take your baking to the next level with our EasyBake +Steam function. Steam helps you get a better rise, crispier crust, a fluffier centre and tastier textures for all your bread, pastries, cakes, and puddings.

OVEN

features

1 just a touch for total control

Simple to operate with a sleek design, our full-touch electric control panel with a fully programmable timer ticks all the right boxes.
With just a touch or two on the easy clean surface you'll have total control over your cooking temperatures, times and functions.
(Selected models)

2 cleaning's a breeze with steam

A 30-minute light oven cleaning that's chemical free. Just add water and vinegar, turn on the steam cycle and wait until grime is softened and loosened. Grab a cloth, some detergent and wipe. Your oven is clean again. Easy. (Selected models)

3 ovens that clean up after themselves

Even cleaning up is easier with Westinghouse. Choose a PyroClean oven and with the press of a button you can keep your oven shiny and clean.
The oven turns on to an extremely high temperature, turning grease and grime into ash.
All you need to do is simply wipe the residue away.
No nasty chemicals, no greasy mess – just a sparkling clean oven with minimal effort.
(Selected models)

4 designed for ease and safety

Telescopic runners are another piece of thoughtful design that makes it easy to draw racks out and safely check on your dishes during cooking.
(Selected models)

5 get dinner on the table sooner

Why wait longer? Our fast oven heat up means you can get on with the job of getting dinner on the table sooner.

6 place your shelves in with ease

Our easy guide side racks allow you to place your oven shelves in with ease.

6 designed to use maximum capacity

Our step down shelves are designed to ensure you can use every centimetre of available height and space in your oven.

7 cooler to touch oven doors

Beautifully designed with Australian families in mind, the multi-layer glazing of our oven doors are cooler to the touch when the oven is hot.

new appliances in designer dark

Now you can design your kitchen around our sleek and sophisticated new Aspire range of ovens, beautifully coordinated to create a contemporary look without compromise.

versatile cooking with gas

Our range of gas cooktops are designed to look good and cook great with practical design features to make every meal a winner. Our Dual Valve technology provides precision flame control so you can go from boil to simmer in no time at all, while our powerful wok burner will help you keep your meals nutritious and delicious with fast and healthy cooking. Sturdy flat cast trivets help you cook with confidence, control and peace of mind.

Model shown: WHG368BC
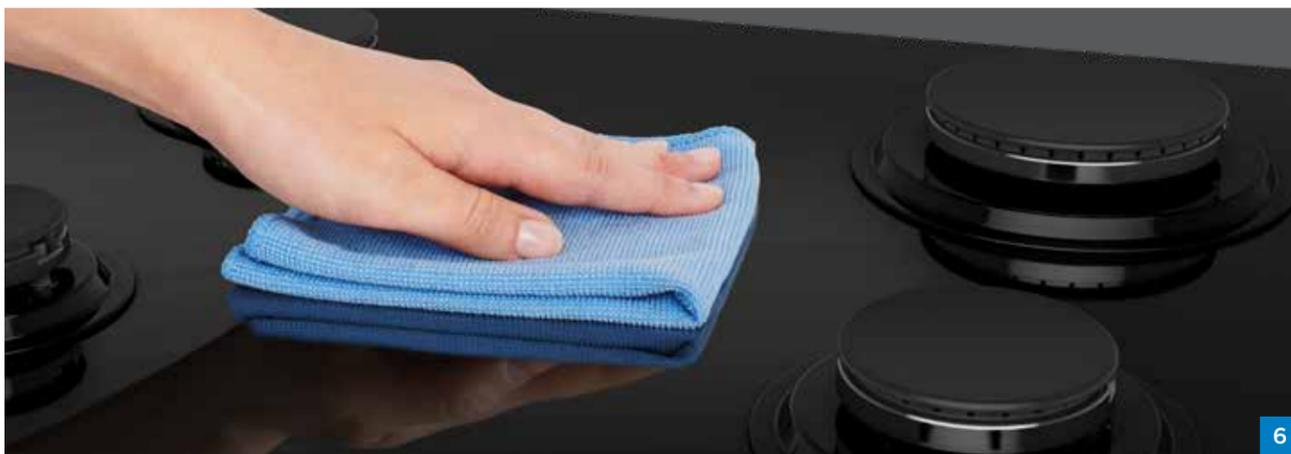

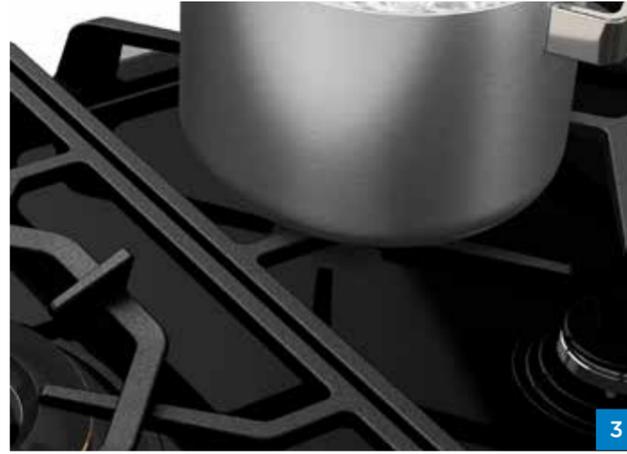

a hotter wok helps bring out the flavour

—

Use high heat to lock in the flavor of your dishes. With durable brass caps and 19 MJ/h you can bring your wok to high heat with even flame distribution. Spice up your cooking and spice up your life.

19MJ/h Intense wok burner

GAS COOKTOPS

features

---

1 boil to simmer in an instant

For precision control cooking all your favourite recipes, our smart Dual Valve flame control lets you go from boil to simmer in an instant.

2 keep your pots and pans in place

For extra peace of mind, our flat trivets are designed to cover the large flat surface area for better pot stability.

3 family safety first

Our cast iron trivets flat design ensure the base of your pots and pans are fully supported, allowing you to have a safe and stable cooking environment.

4 easy under knob ignition

Single action of pressing and turning the knob to ignite the flame and start cooking

4 laser etched control graphics

Understanding the cooktop should be easy. That's why our graphics are clear and durable, so they are always there to help you understand how to get the most out of your new cooktop and understand exactly what goes where.

5 flame out, gas off

In the kitchen, it should always be safety first. If the cooktop flame unexpectedly goes out, our Flame Failure Device will automatically shut down the gas supply so you and your family can breathe easy.

6 easy to clean

Spend more time cooking and less time cleaning. Our flat surface gives foods and spills nowhere to hide, making cleaning a breeze.

Fast heat up and even cooking with induction

—

Did you know that induction cooking heats up twice as fast as gas? With a faster boil and complete temperature control you can bring accuracy to your cooking for delicious results every time. Innovative features include BoilProtect to help prevent water boiling over while the Pause function lets you take care of life's interruptions.

Model shown: WHI945BC

BoilProtect

no more boiling over

There are more exciting things to do than watching water boil. BoilProtect detects rising bubbles and automatically reduces to a low simmer*. No more constant monitoring so you can focus on the flavours.

*Selected models. Applies to stainless steel and enamelled pots filled with water only.

features

1 large pans are no problem

Larger pots or pans are catered for with MaxiZone. Our extra large induction zone ensures that heat will be delivered consistently to large pans to help cook your special dishes to perfection with ease.

2 clear the air with Hob2Hood

With Hob2Hood technology, compatible rangehoods work seamlessly with your induction cooktop to clear your kitchen of cooking smells and steam. As you start cooking, the rangehood will automatically turn on then intuitively adjust the fan speed and airflow to match your cooking. How's that for hands-free convenience? (Selected models)

3 FlexZone gives you room to move

Even the biggest pots and pans can be catered for with Flex Zone. Designed with busy family kitchens in mind, Flex Zone lets you use two induction zones separately or link them together when you're cooking for a crowd.

4 zero to boil in no time

With PowerBoost, you can rapidly boil a pot of water or quickly heat up a frying pan. Spend less time waiting and more time creating your favourite meals.

5 hold everything with Pause

We know that family life is full of distractions. That's why you'll appreciate our clever Pause function. Simply touch the Pause icon on your cooktop and all operating induction zones will drop to Keep Warm mode. When you're ready to go again, hit Pause again and settings will return to where you left off.

6 easy touch-on-glass control

Total control is at your fingertips with a simple touch on the easy-clean glass control panel.

7 transition to induction with ease

If switching to an induction cooktop is on your to-do list, you can upgrade with extra ease if your new induction cooktop shares the same rated input power as your old ceramic or electric cooktop. All you will need to do is get used to having instant control of your cooking.

8 simple and durable control panel graphics

Understanding the cooktop should be easy. That's why our graphics are clear and durable, so they are always there to help you understand how to get the most out of your new cooktop and understand exactly what goes where.

features

1 large pans are no problem

Larger pots or pans are catered for with MaxiZone. Our extra large induction zone ensures that heat will be delivered consistently to large pans to help cook your special dishes to perfection with ease.

2 triple zone, for pots of different sizes

Whether you're using your smallest pan or biggest pot there's an extra large cooking zone to handle them all. With the ability to adjust its diameter into three sizes, this unrivalled flexibility gives you the freedom to create your best meals yet.

3 hold everything with Pause

We know that family life is full of distractions. That's why you'll appreciate our clever Pause function. Simply touch the Pause icon on your cooktop and all operating induction zones will drop to Keep Warm mode. When you're ready to go again, hit Pause again and settings will return to where you left off.

4 timed to perfection

Never over-cook or burn dinner again. Just set the cooking time and our cooktop will automatically turn the heat off for you.

5 simple and durable control panel graphics

Understanding the cooktop should be easy. That's why our graphics are clear and durable, so they are always there to help you understand how to get the most out of your new cooktop and understand exactly what goes where.

6 safety first

Kitchen safety comes before everything else, so our heat indicators show activated hotplates as well as hotplates that are still cooling down.

Let's clear the air

—

We think rangehoods are the unsung hero of the family kitchen. Our high performance hoods are designed to get on with the job without fuss, extracting smoke, smell, steam and grease while you work your magic on the cooktop. See your cooking in the best light and look forward to low maintenance, easy cleaning and a long life from your Westinghouse rangehood. In compatible models, Hob2Hood technology starts the rangehood when you turn on the cooktop and automatically adjusts to your cooking.

Model shown: WRC924SC
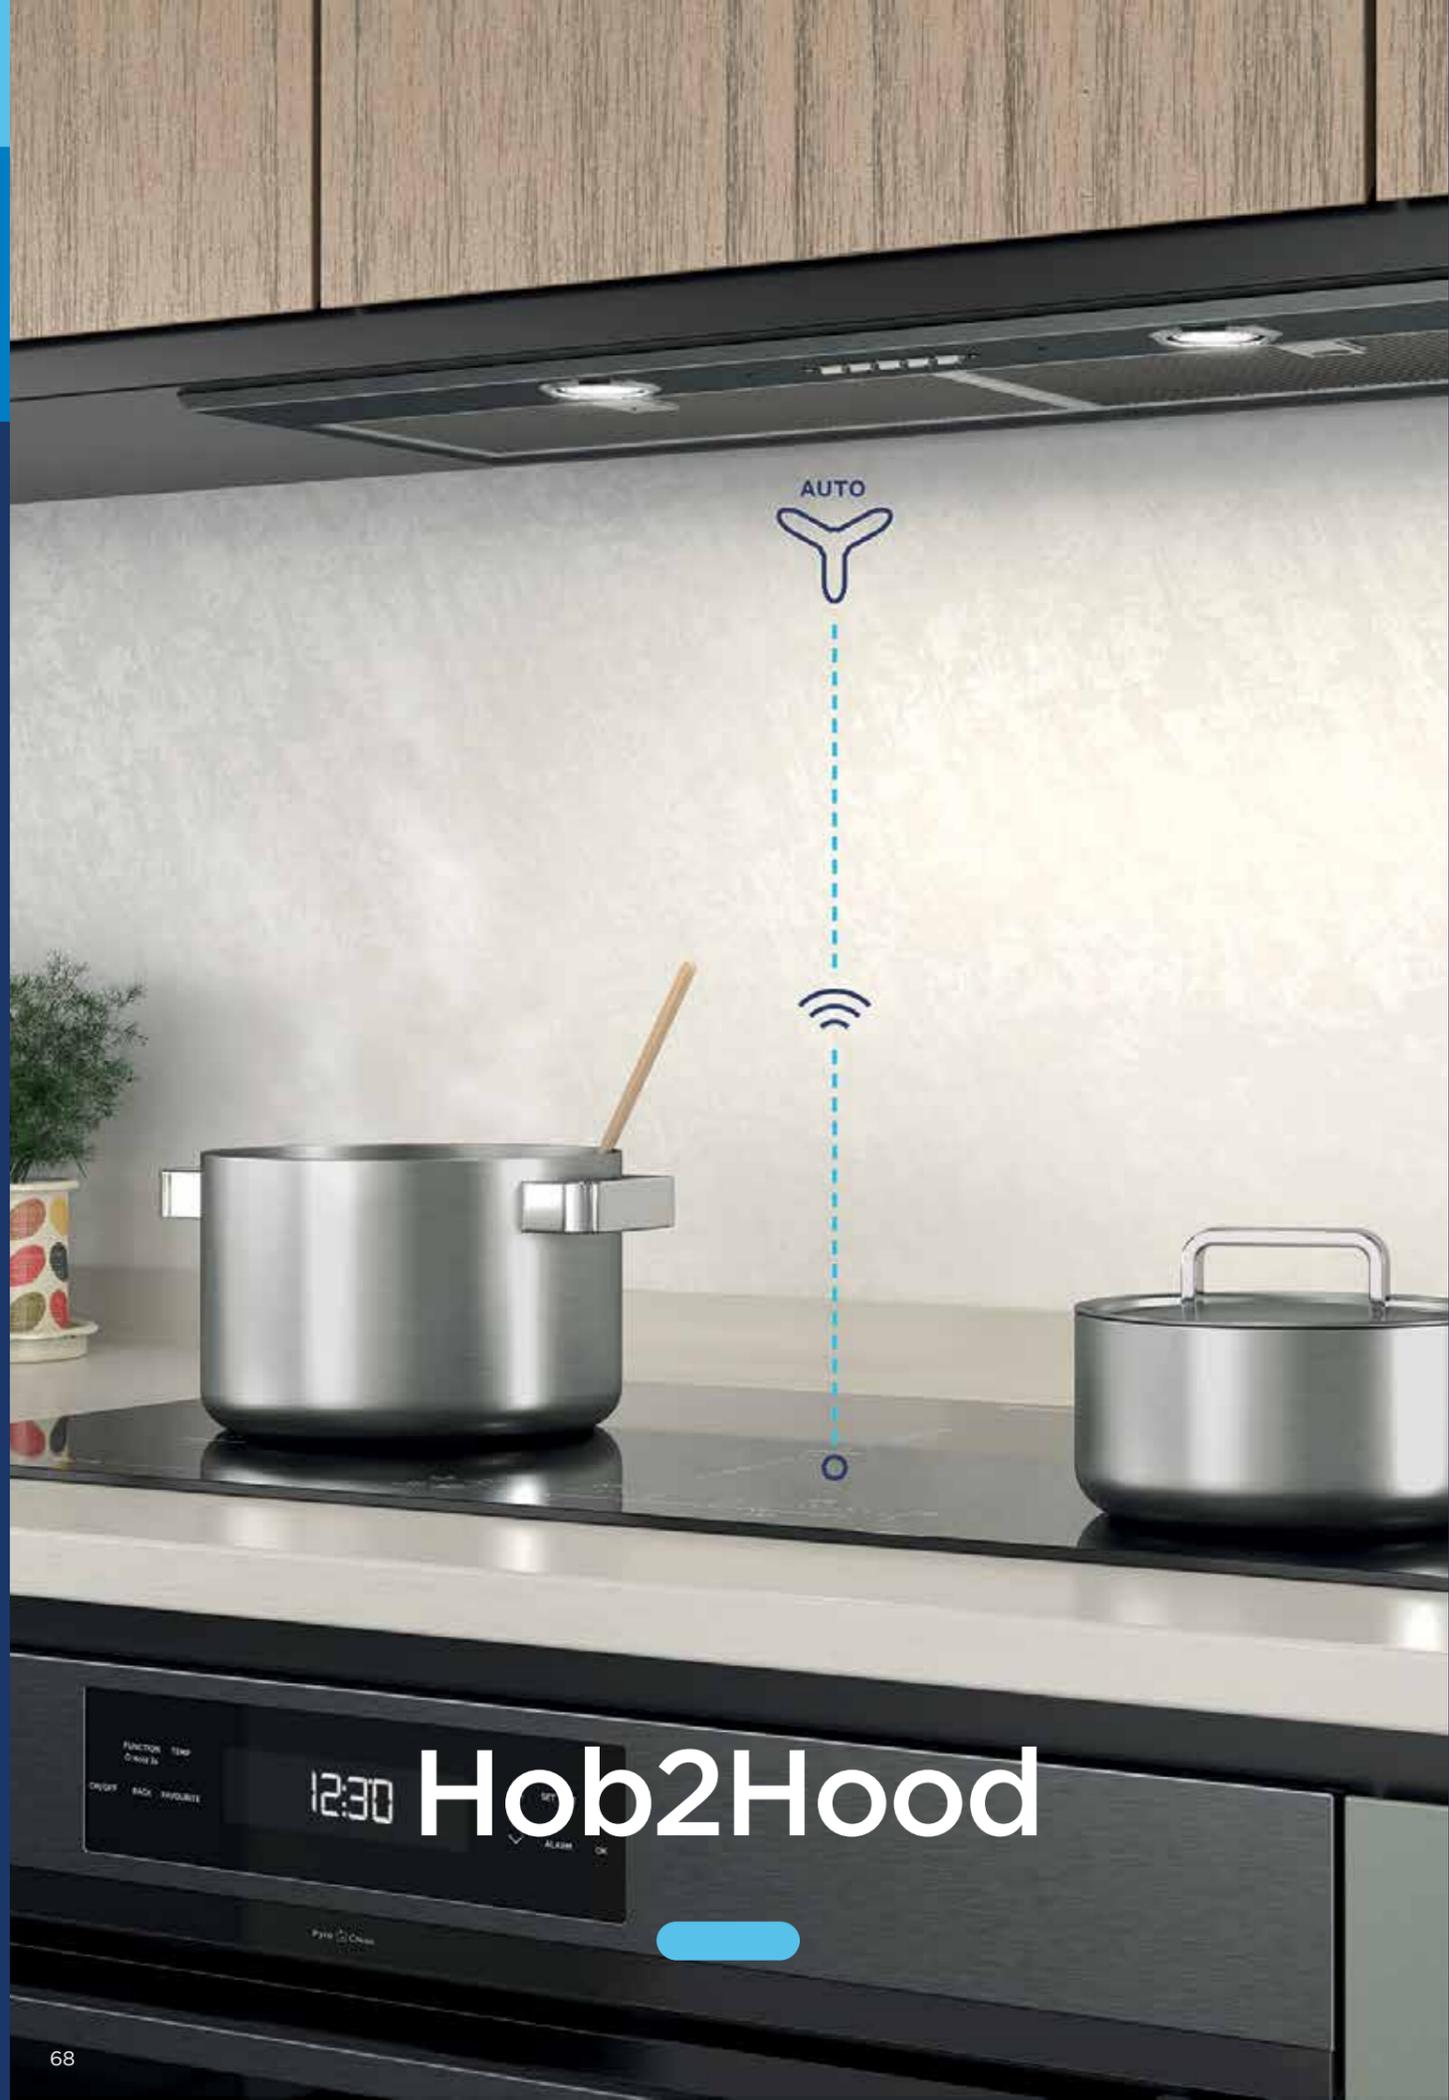

Clear the air with Hob2Hood

With Hob2Hood* technology, compatible rangehoods work seamlessly with your induction cooktop to clear your kitchen of cooking smells and steam. As you start cooking, the rangehood will automatically turn on then intuitively adjust the fan speed and airflow to match your cooking. How's that for hands-free convenience?

AUTO

Hob2Hood

2

3

4
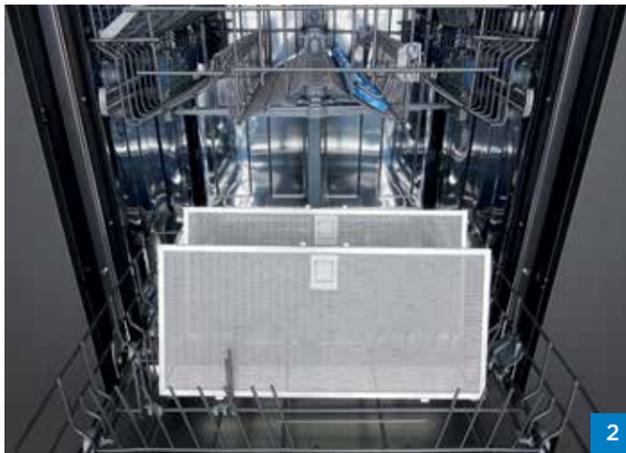

features

1 Low energy, long lasting LED

With low energy use and a high illumination performance, long-lasting LED lights make it easy to keep an eye on your delicious cooking.

2 easy-clean filters

For ease and convenience, our easily removed aluminium micro-mesh filters can simply be washed safely in your dishwasher or hand washed. Keep your rangehood looking great and performing well with next to no effort.

3 quiet please, the cook's at work

We believe you should be able to cook and hear yourself think, or even have a conversation. That's why we developed a quieter rangehood that gives you higher extraction. (Selected models)

4 Clear the air quickly

Our rangehoods offer powerful extraction rates ensuring your kitchen is clear of cooking odours, vapours and excess heat in no time at all

integrated rangehoods
