situation: A new chapel for the rapidly expanding suburb of Caroline Springs. **solution:** Building on a long relationship with project architect Henderson & Lodge, Atkar's brief was to devise a unique ceiling solution using Au.diSlot for its excellent acoustic performance. The warm finish of Au.dilimage in a stunning Tasmanian Oak finish added to the dramatic 'sunbeam' design of the ceiling. Atkar's additional project support included the provision of detailed technical drawings and collaborative installation support.

- 1_ Superb acoustic control
- 2_ Focus on the pulpit
- 3_ Majestic place of worship
