

A close-up photograph of a weathered, cracked concrete wall. The surface is light gray and shows numerous small holes, pits, and fine cracks. A dark, horizontal band is superimposed over the middle of the image, containing the word "Beton" in white, bold, serif font.

# Beton

Carpets Inter<sup>®</sup>

## Béton

Béton is inspired by the natural organic surface of freshly laid concrete. With a subtle interaction of color tone, the collection provides an undulating texture for an aesthetically neutral backdrop to compliment with any interior.

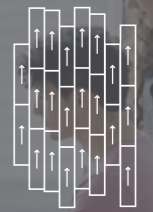

Created as a standalone pattern, the multiple tonal shades enable selective placement of plain accent colour modules to coordinate with other finishes, providing the interior a complete freedom of expression.

*Designed and engineered for performance by the CI Design and Product Development team.*

As work places become more multi-tasked, Beton with EcoSoft back provides unsurpassed acoustic suppression.

Tile Size 25 x 100 cm.

Random Vertical Brick

The subtle organic contrast of Beton provides a neutral backdrop for public spaces.
