GEN  
Z

PRESSED CERAMIC PAVERS

 AUSTRALIAN MADE

 **australbricks™**  
since 1908

AUSTRALIAN MADE

AUSTRALIA'S LARGEST SELLING CERAMIC PAVERS HAVE JUST BEEN ELEVATED TO GEN Z, REPRESENTING A NEW GENERATION OF PRESSED PAVERS OFFERING SUPERIOR STRENGTH, ABRASION AND SALT WATER RESISTANCE. UNIFORM EDGES AND CORNERS IMPROVE THE AESTHETIC FINISH WHILE SMALLER CORE HOLES ENSURE LESS SAND IS REQUIRED TO BED GEN Z PAVERS.

## RIVIERA™ GEN Z FREEDOM CERAMIC PAVERS

Riviera Freedom Ceramic Pavers are versatile, stylish and virtually maintenance-free, perfect for Australia's love of outdoor living. Riviera Freedom stain resistant pavers will create the ultimate entertaining area or private retreat in your backyard.

PAGE 4

## RIVIERA™ GEN Z CLASSIC CERAMIC PAVERS

Riviera Classics Ceramic Pavers have the sizes and colours to complement popular landscaping themes such as Australian Contemporary, Tuscan, Georgian and Mediterranean. The strong lines and formal symmetry of Riviera Classic pavers, setting off the open space of even the smallest inner-city courtyard .

YOU'VE HEARD OF MURPHY'S LAW, IF SOMETHING CAN GO WRONG IT PROBABLY WILL, SO WHY RISK IT, WITH RIVIERA FREEDOM STAIN RESISTANT CERAMIC PAVERS YOU CAN SPEND MORE TIME ENJOYING LIFE.

Riviera Freedom Ceramic Pavers are virtually maintenance-free. The Paveshield surface enhancement protects your pavers from the build up of mould and mildew and from many staining products such as food, grease, oil and drink spills. This makes cleaning easier and allows more time for relaxing and soaking up your outdoor entertainment area's new atmosphere.

Riviera Freedom Ceramic Pavers are easy to clean and maintain, due to their ability to resist common stains. No paver can be guaranteed to be 100% stain free for life, but Riviera Freedom will provide a very high level of stain resistance to ensure that the longer you own these pavers, the more you will appreciate them.

**Paveshield is a revolutionary surface treatment that resists staining.** Paveshield is bonded to the paver during manufacture, eliminating the need for on-site chemical treatments and any associated risks to family members, pets and the environment. Paveshield also inhibits the growth of mould and mildew.

“If you drop leaves on these pavers and it rains they don’t stain. Those things are important to us. We don’t want cleaning contractors scrubbing pavers constantly.”

Port of Brisbane’s Project Manager Niclas Hjertquist.

## EVERYONE DESERVES A LITTLE SPACE TO ENJOY LIFE'S PLEASURES BE IT ON YOUR OWN, WITH FAMILY OR FRIENDS.

The Riviera Classics Ceramic Pavers were designed to complement all lifestyles and decor. Rivieras' large format square pavers open up the smallest courtyard and look equally at home in large open spaces. The simple symmetry and subtle tones will remain stylish for generations to come.

Excellent slip resistance and salt safe qualities make Riviera Ceramic Pavers the ideal choice for use around salt-chlorinated pools and high traffic entertaining areas. Riviera Ceramic Pavers will add an extra dimension to turn any backyard into a creative work of art you will be proud of.

Making a statement does not need to be restricted to small courtyards. The wonderful design qualities that make a great landscaping project work can be expanded to large mundane areas like driveways. Generally these areas are the domain of concrete, but if concrete does not meet your aesthetic needs then Riviera can provide the creative and aesthetic solution.

Our ceramic pavers are made from naturally occurring minerals that are kiln fired to lock in their colour and strength for life. The composition of the raw materials as well as the firing process may cause each run to differ. The resulting colour variation is inherent in the process and part of the appeal of our natural products. The product images in our brochures give a general indication of colour for your preliminary selection. We recommend you also view current product samples before making your final selection. Printed March 2009.
