HARDIEDECK™

Looking good

ALL YEAR ROUND

Outdoor rooms are fast becoming a standout feature in Australian homes. Decks, balconies, verandahs and patios are being designed, coloured and furnished as a stylish place for entertaining all year round.

Switched-on homeowners know that building a pool against your house or designing an outdoor room deck creates a beautiful view from your living area.

PREMIUM FIBRE CEMENT

Beauty built to last

A SPA AND POOLSIDE PERFORMER*

Pools and spas can be punishing on decks. Repeated cycles of baking-hot sun and soaking from pool water makes them vulnerable to rot and fading. Just the type of damage HardieDeck™ is designed to resist.

*Additional design and maintenance considerations are required when building around pools and spas. Refer to the HardieDeck™ installation manual.

SAFE FOR BUSHFIRE ZONES, FIRE PITS AND BARBEQUES

Both timber and traditional composite decks don't stand up to bushfires or the risk of fire from BBQs and fire pits. HardieDeck™ is deemed non-combustible making it an ideal bushfire zone deck or fire pit deck.

A DIFFERENT TYPE OF COMPOSITE DECK BUILT TO LAST, COME RAIN OR SHINE

HardieDeck™ is designed to stay strong as it ages. Unlike timber, HardieDeck™ is resistant to damage from moisture and termites. And when the sun beats down, you can rely on HardieDeck™ not to warp or splinter.

SMOOTH AND SOLID UNDERFOOT

With concealed screws and solid, splinter-free boards, HardieDeck™ feels smooth and safe under bare feet. Walk, play and run in comfort with no sign of bounce, squeaks or sponginess.

HardieDeck

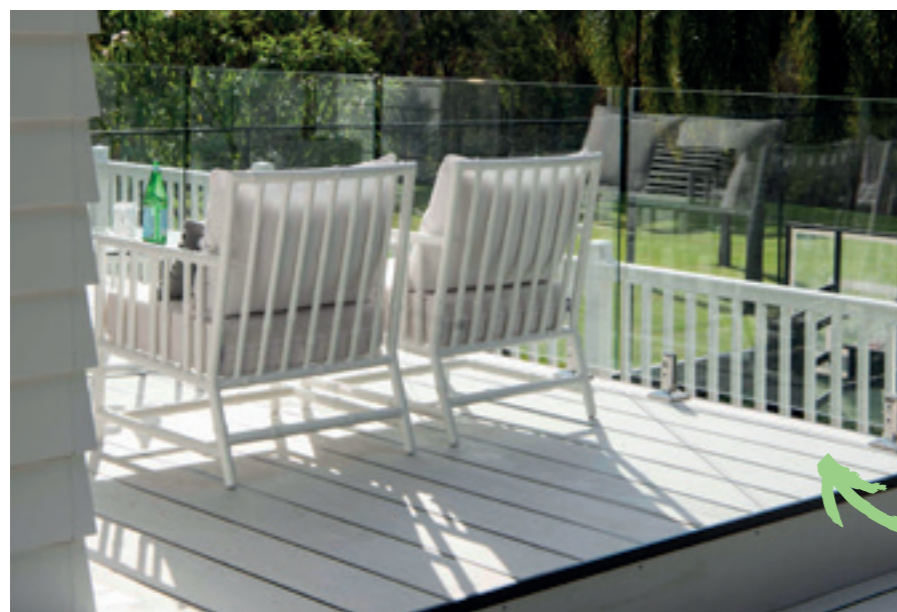

DECKING

A winning combination of durability and enduring style. HardieDeck™ is made from James Hardie's premium fibre cement. It creates a clean look to connect a stylish interior environment with the outdoors, without risking damage from the elements.

Smooth, wide gap-free boards and freedom of colour choice makes this cement decking a stunning outdoor floor.

Choose the finish you like

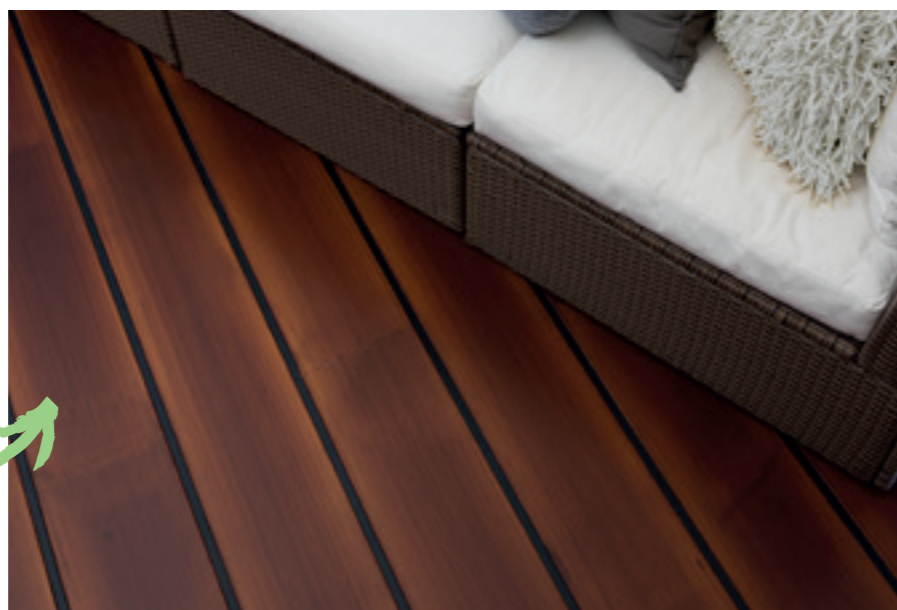

THE NATURAL CONCRETE LOOK

A clear sealed HardieDeck™ can be attractive and durable. The subtle variation in colour and pattern achieves a raw, honest finish which provides character and, to some, an industrial appeal.

THE TIMBER LOOK

A traditional timber finish can also be achieved with HardieDeck. It's more suitable for light-duty applications. Consult the sealing guide for more information.

THE COLOURED LOOK

Solid colours provide a sleek, modern look. Durable sealers can be tinted in a range of colours to suit your style and your home.

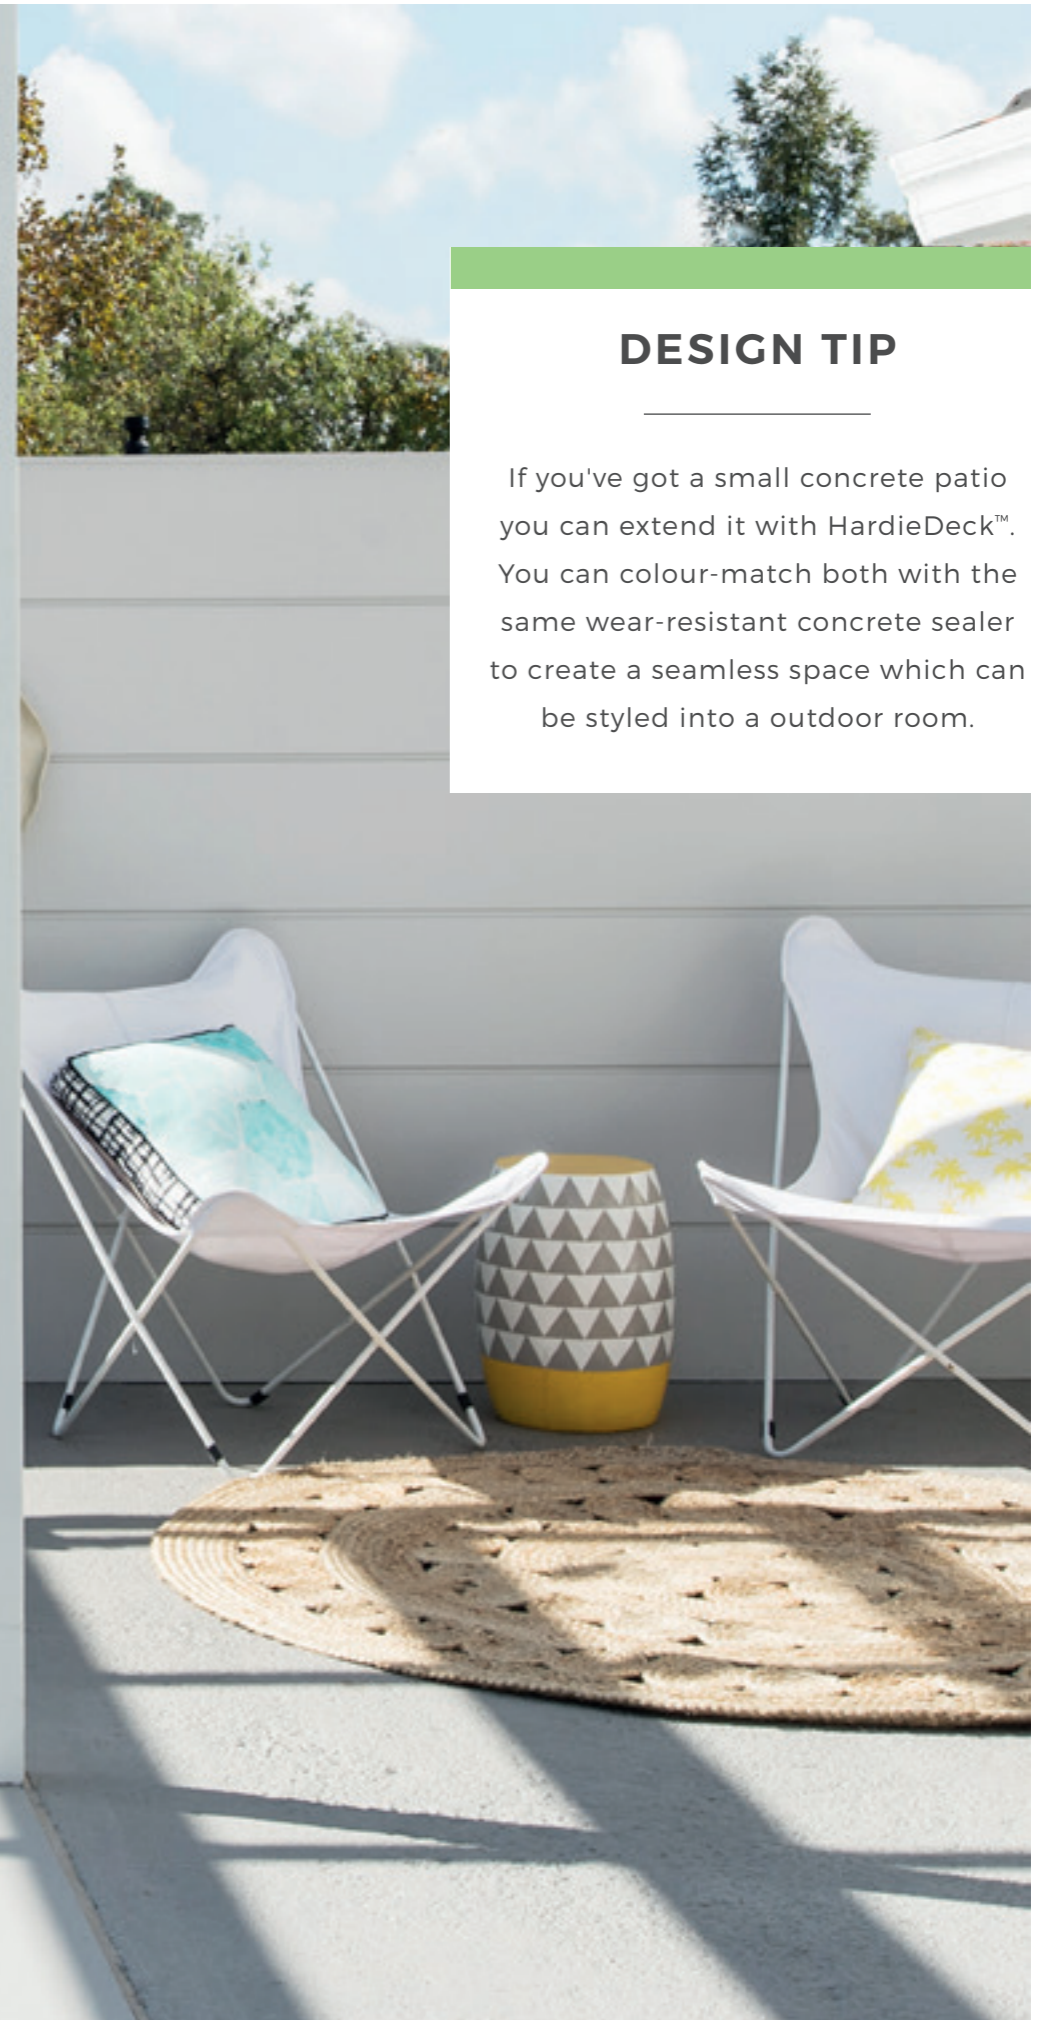

Home improvement

DESIGN TIP

A dated brick home and sloping backyard were transformed with the addition of a HardieDeck™ and spa. The owners now have more usable outdoor space and a way to relax.

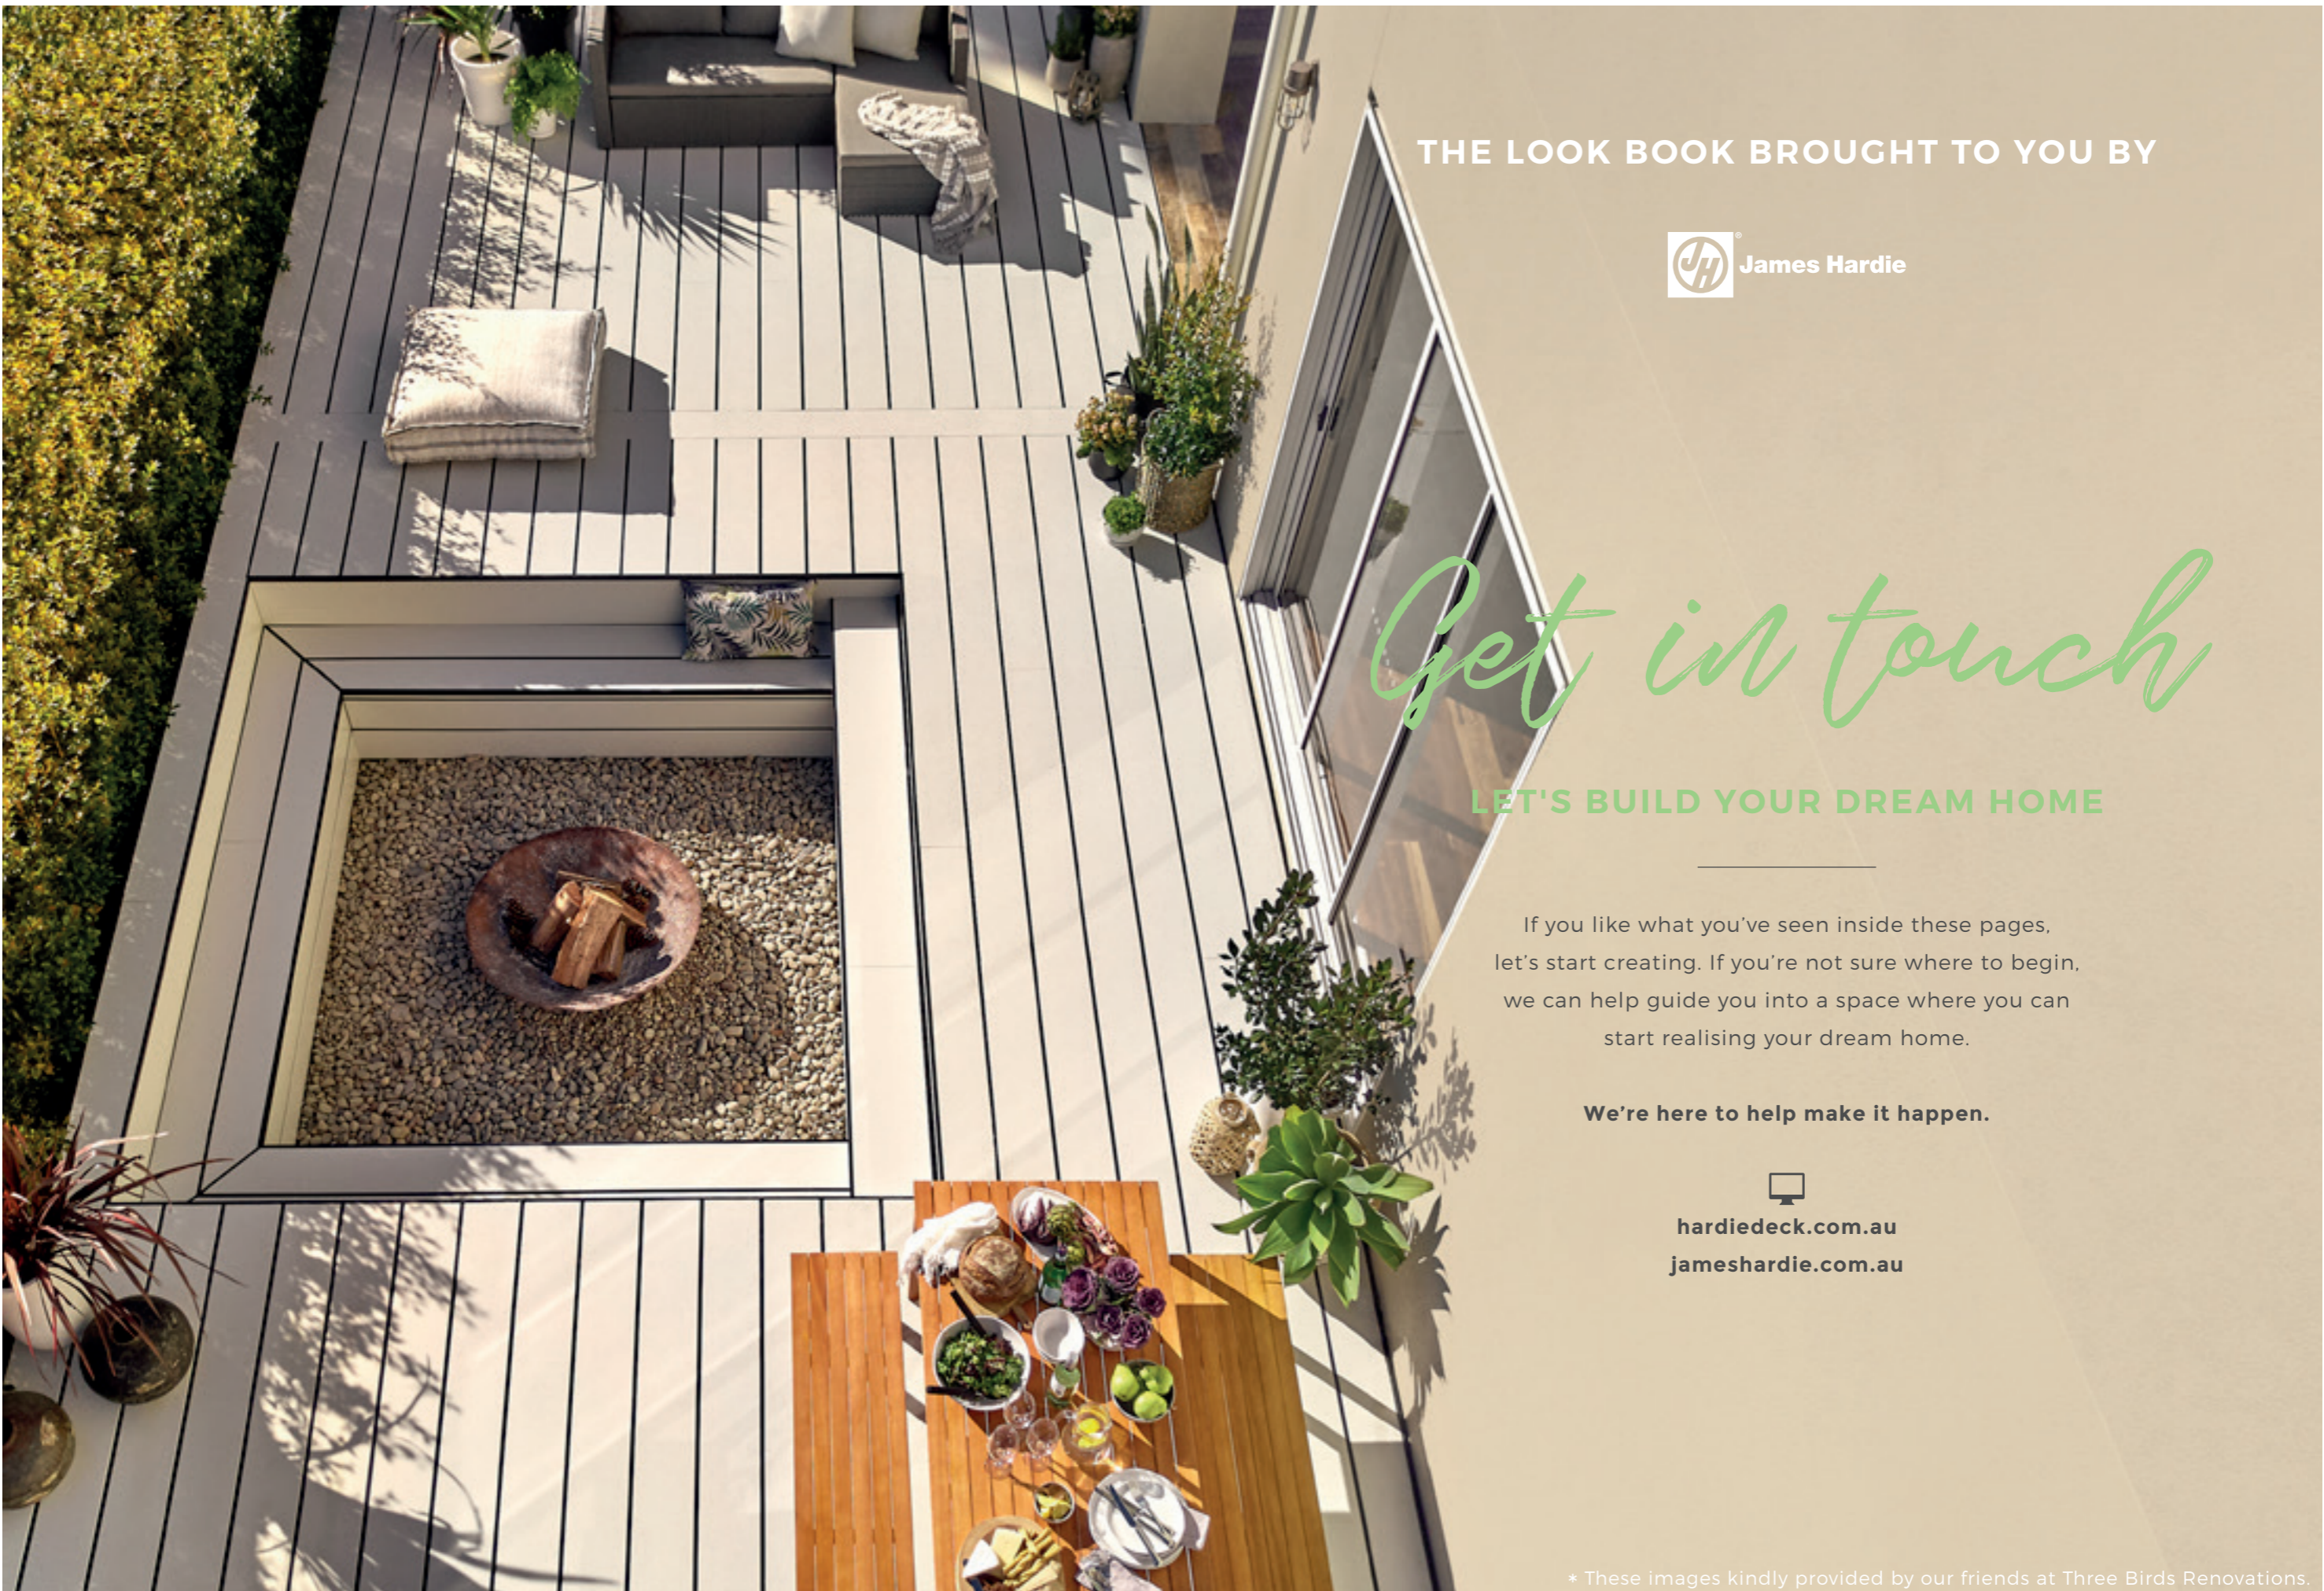

Your happy place

DESIGN TIP

If you've got a small concrete patio you can extend it with HardieDeck™. You can colour-match both with the same wear-resistant concrete sealer to create a seamless space which can be styled into a outdoor room.
