Floating Panel System

A comprehensive range of floating acoustic feature panels supplied as a complete system to create and conceal the airgap required for acoustic performance.

Key Benefits

✓ Attractive Aesthetics

- ▶ Full range of high quality finishes and creative acoustic patterns.
- ▶ Durable and easy to clean for lasting good looks.
- ▶ Mix and match Kit options for a textured look.
- ▶ Use several size panels to create a random pattern.

✓ Acoustic Requirements

- ▶ 5 Kit options of varying air gaps and the option of additional bulk insulation means all requirements and frequencies are catered for. (Request our Full SUPACOUSTIC NCK test data).

✓ Affordable

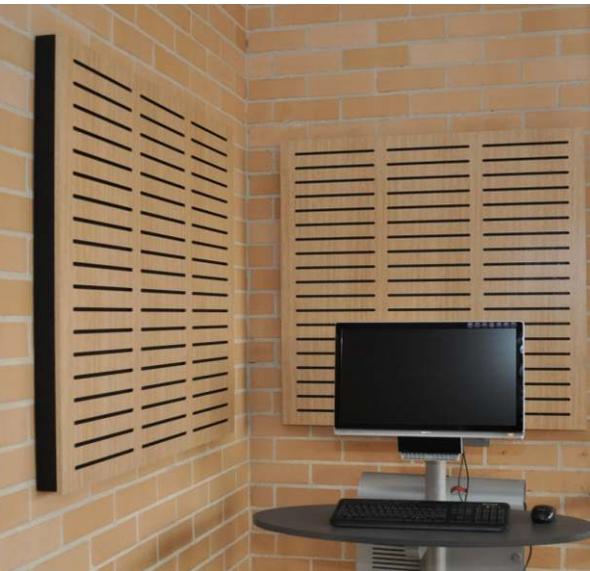

- ▶ Facilitates the use of reduced quantity of acoustic panelling.
- ▶ Match your budget – just order the quantity you can afford now.

✓ Adaptable to suit any site conditions

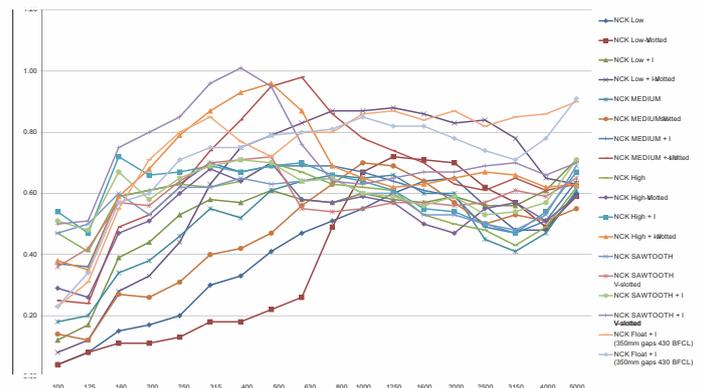

- ▶ Available in FSC or PEFC certified, wet sealed and fire retardant options.
- ▶ Suits & enhances both small & large spaces.

✓ Simple Installation

- ▶ Excellent for retrofit applications.
- ▶ Install over existing surfaces and between lights and fixtures.
- ▶ No requirement for precise site measurements.
- ▶ No sanding, cutting or fine dust generated on site.
- ▶ All framing and perimeter cover strips are included in the installation kit saving the installer's time.
- ▶ Simple 4 step installation instructions.
- ▶ Very simple to install - no specialist or approved installers required.
- ▶ Each panel is self sufficient, so installation can be staged, or completed after hours and over weekends.

Full range of Acoustic Performance

This page from top:
