

BOSS FyreBox™

Multi-service Cable & Pipe Transit

**Guaranteed
compliance,
every time**

Why Choose BOSS FyreBox™

- Consolidates fire rating of multiple services into one simple-to-install device
- Reduces labour costs by up to 90%
- Services can be installed before or after the wall goes up, making scheduling of trades a breeze
- Simple to add/delete services after installation without disturbing the FyreBox
- Approved on the full range of apartment services
- Tested and approved to 2hrs with an FRL of -/120/120

Experience and integrity

“We tried the BOSS FyreBox in our new apartment project at Banks St, West End because it was recommended to us. To be honest, I didn’t realise how much it was going to save us. The installation time is extremely fast and our total fire stopping labour time has been slashed. It’s the simplest, most effective fire stopping method available.”
