Applied to Life.™

**A 3M™ LICENSED INSTALLER.**  
NOW THAT'S AN ADVANTAGE.

# **INNOVATIVE** & PASSIONATE

**Sunscreen are regarded by their clients and customers as a leading supplier and installer of window films, graphics and signage. They put the customer at the heart of every project they do.**

**Established over 35 years ago, and operating largely throughout NSW, and more recently Melbourne, Sunscreen's core competencies focus around creating innovative solutions by helping to bring design ideas to life and delivering a tangible difference for their customers.**

**Sunscreen have been a prominent 3M™ customer in Australia and in more recent times, joined the WorldMark Group of Companies, the largest window film network in Australia. This latest move has enabled the Sunscreen business to not only further expand its product range and list of services but also to extend their footprint into the rest of Australia.**

**Exciting times ahead!**

**CREATIVITY**  
IS CONTAGIOUS  
**PASSION**

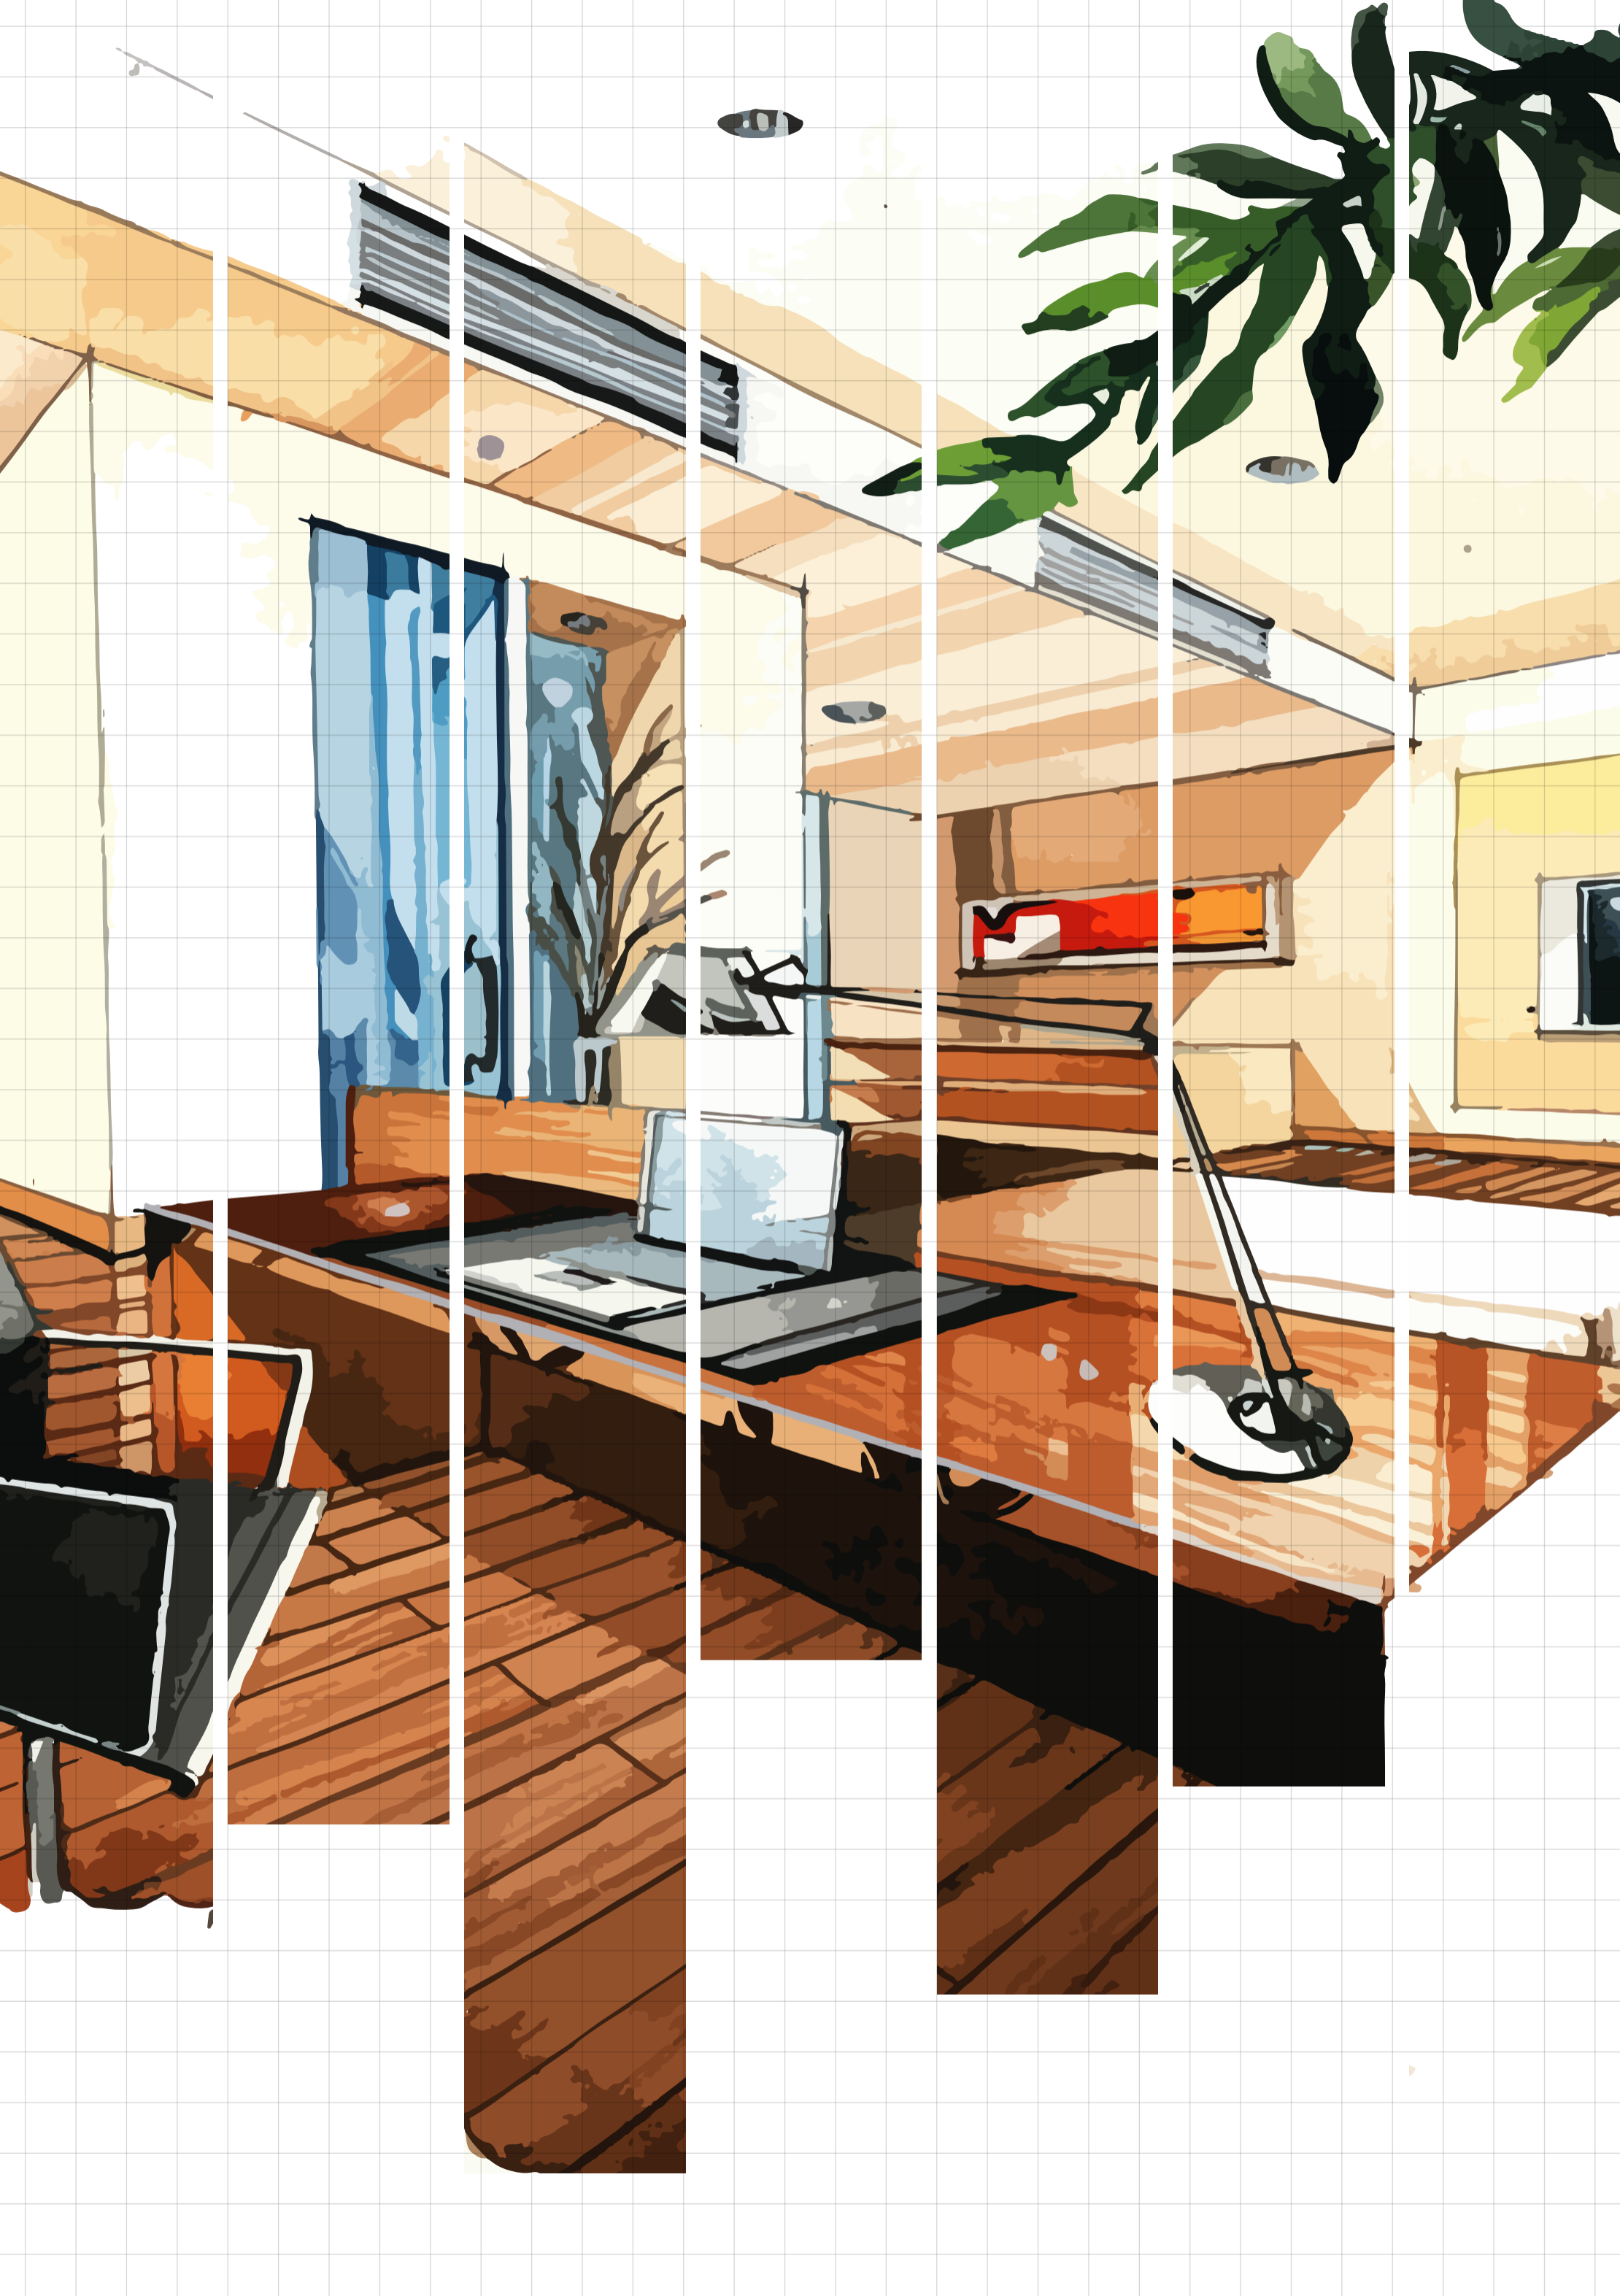

# WHY ARCHITECTS, FACILITY MANAGERS & PLANNERS HAVE SUNSCREEN ON THEIR RADAR

**Architects continually look for innovative and creative solutions, and facility managers look to blend the technical demands of building services with managerial responsibilities. This all culminates in ensuring the efficient functioning of buildings through integrating people, space, processes and technology in design.**

**Sunscreen aims to compliment this process by embracing the foundational principles and methods applicable to buildings: climate and resources, thermal environment, building services, lighting with graphics and signage. We are happy to support, sample and consult to ensure the right products are used when developing solutions.**

# THERE IS A SCIENCE TO DIGITAL, GRAPHICS & SIGNAGE

**Our work at Sunscreen has a diverse flavour and although many of our projects centre on the use of film, we now produce an array of in-house digital print signage, as well as computer cut film designs to enhance offices and small businesses.**

**Primarily these include:**

- **Compliance and statutory signage**
- **Way- finding solutions including Braille**
- **Laser cut acrylic or stainless steel lettering**
- **Reception doors and glass partitions**
- **Desking and individual signage**
- **Experiential office signage**
- **Wall and glass prints**
- **Reception signage**
- **Directory boards**

**We pride ourselves on keeping abreast of the latest products available as well as innovative design.**

**We invite you to put us to the test!**

# **WINDOW FILMS OFFER CONSIDERABLE SOLUTIONS**

**Sunscreen has a policy around 'best film for purpose'.  
Sunscreen has access to the very best films manufactured  
at world-class standards. As industry leaders, all films  
recommended and installed are backed by impressive  
Sunscreen and manufacturer's warranties.**

**ENVIRONMENTAL CONSIDERATIONS**

**ENERGY CONTROL**

**HEAT & GLARE REDUCTION**

**FADE & UV PROTECTION**

**ANTI-GRAFFITI**

**LOW INTERNAL REFLECTION**

ALL NEW 3M™  
**THINSULATE™ WINDOW FILM.**  
SMARTER WINDOWS.

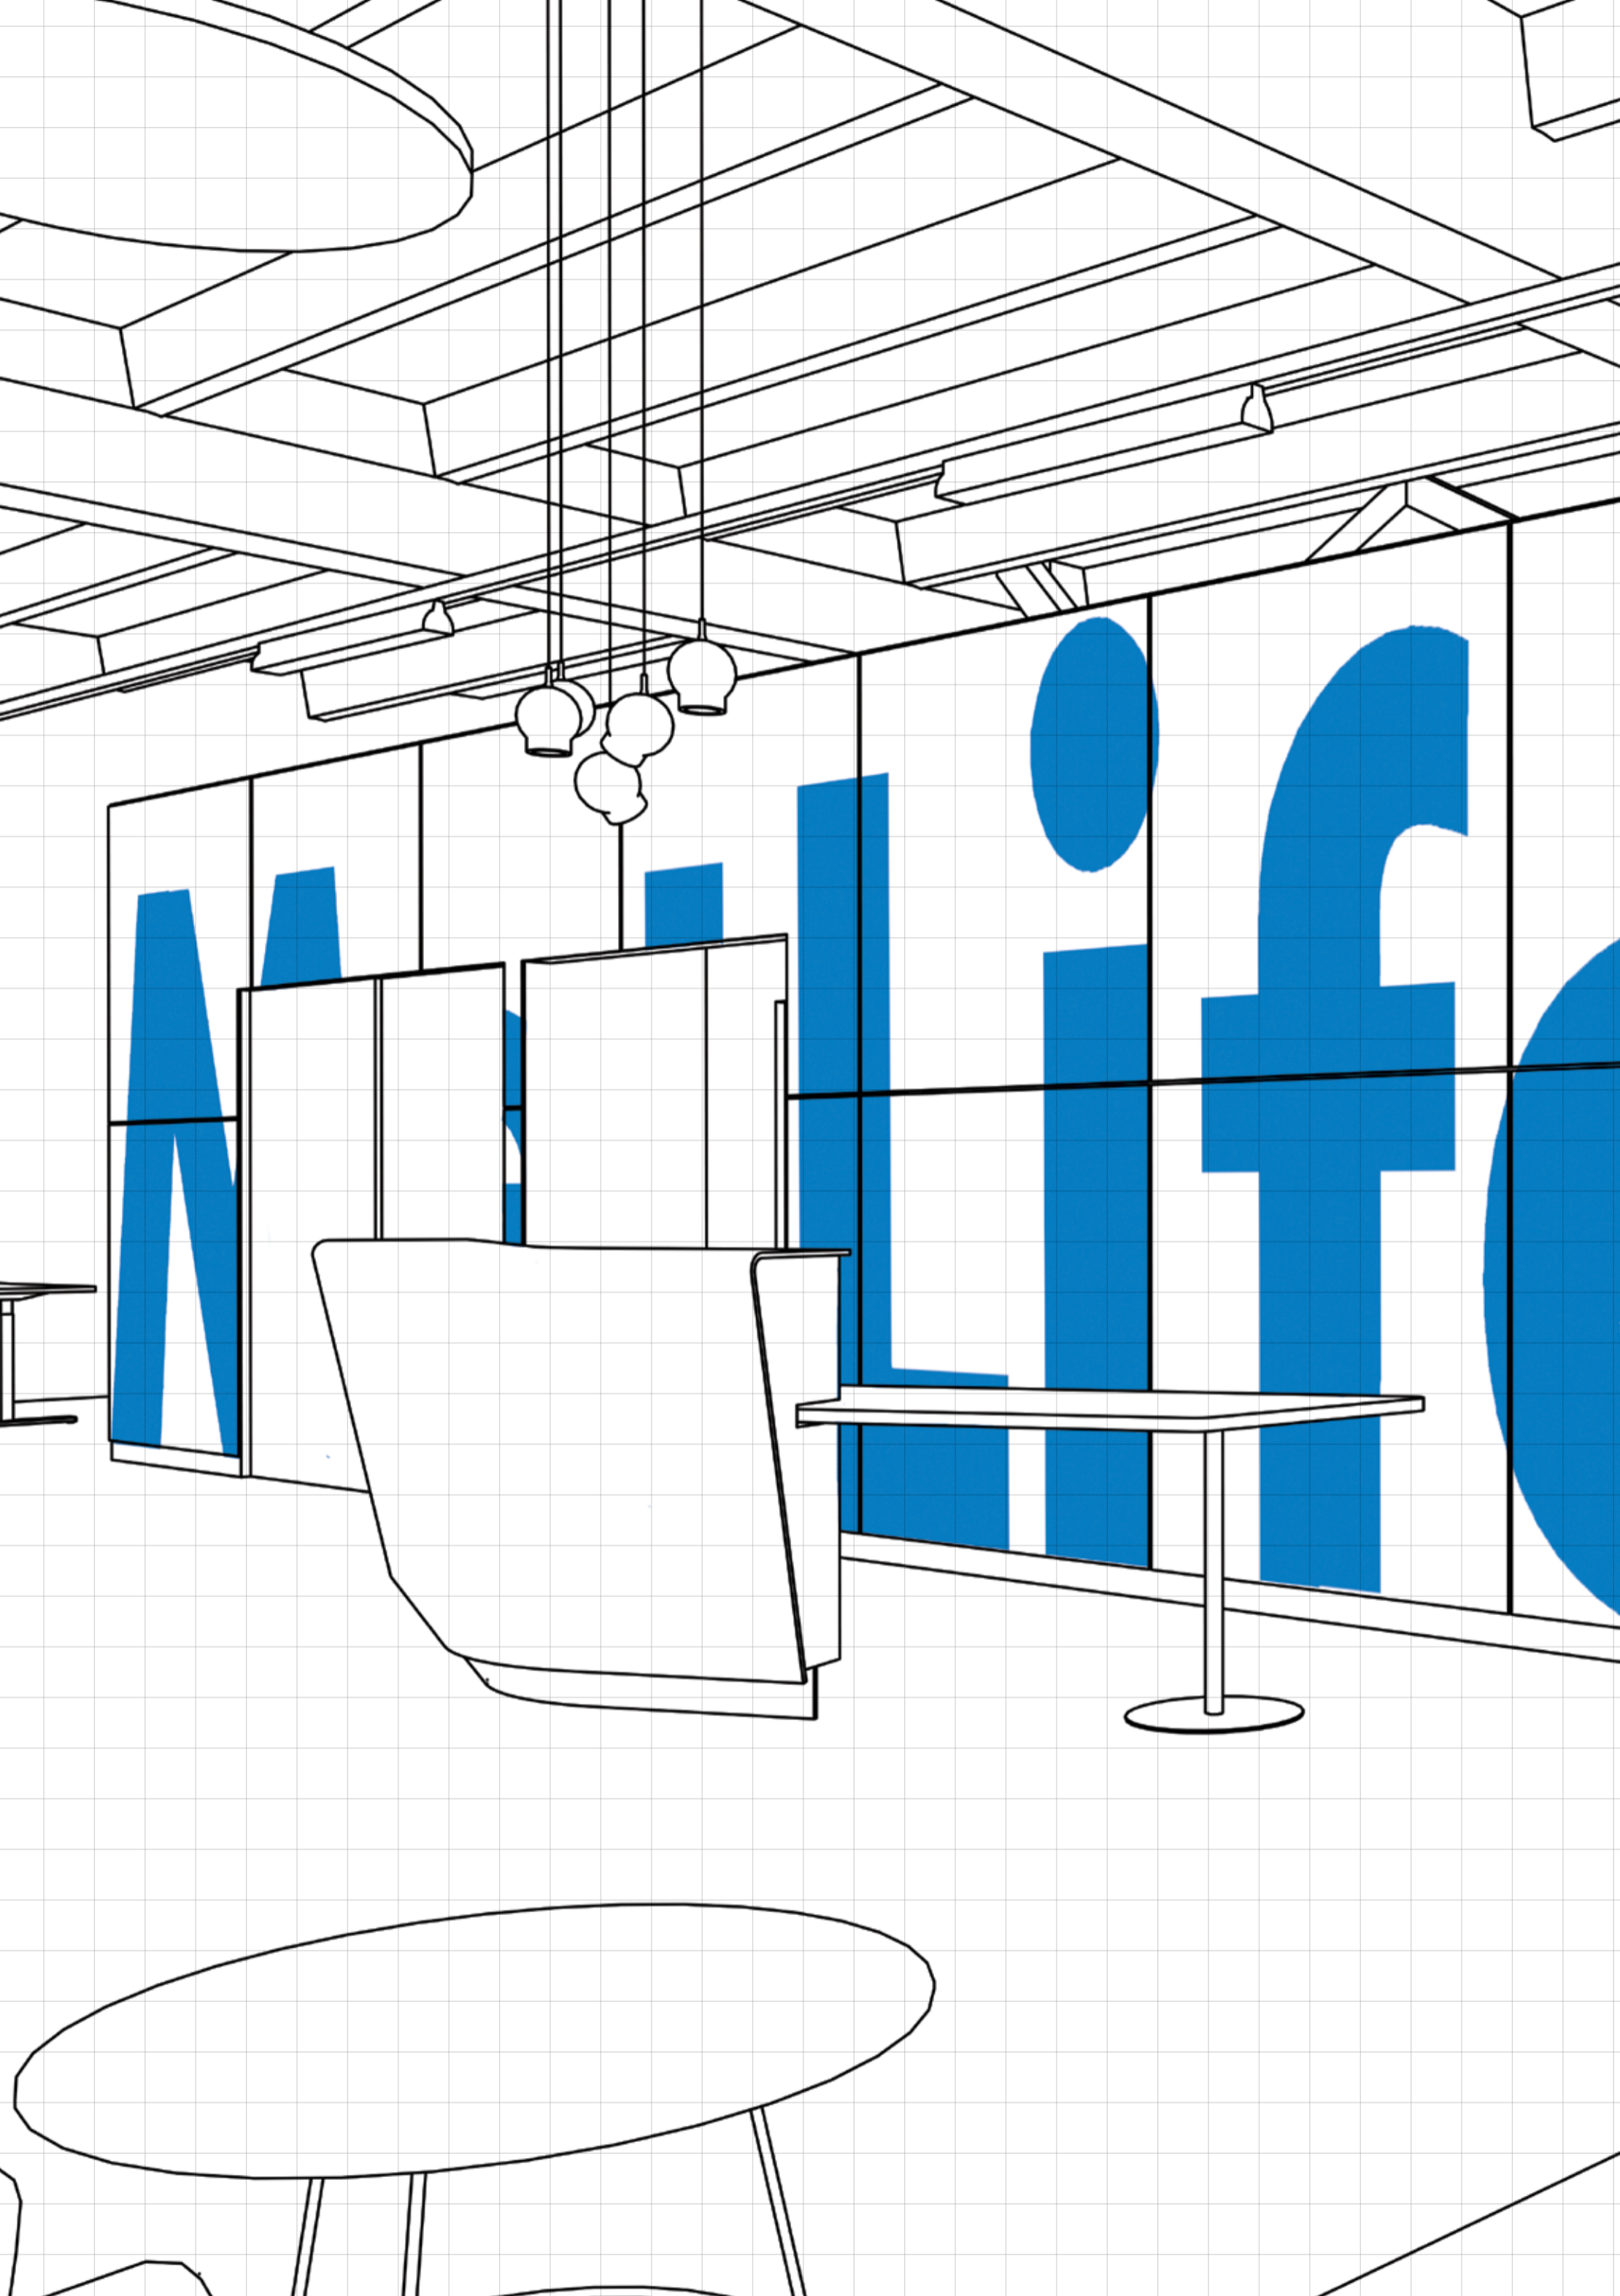

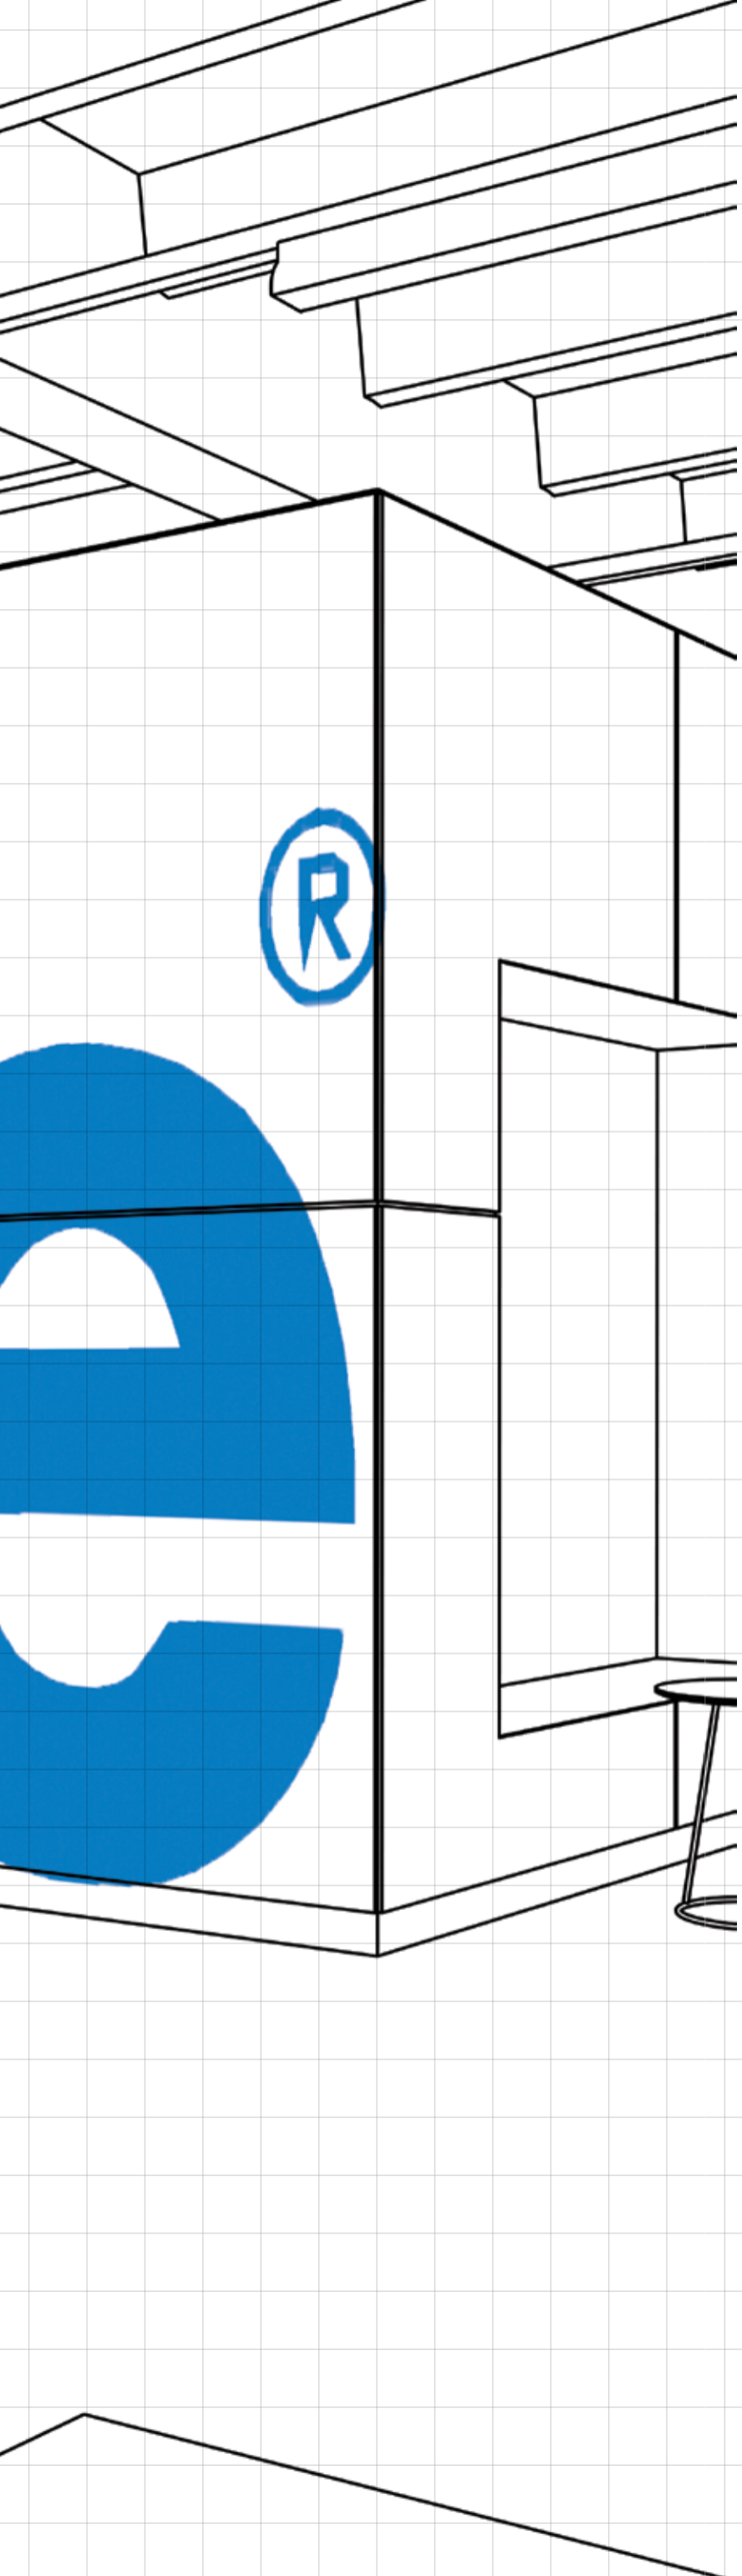

Nearly 40% of heating loss in commercial buildings is due to windows allowing heat to escape. 3M™ Thinsulate™ Climate Control Window Film is much less expensive than installing double-glazing and the year-round results rival or match the performance and appearance of new glass.

As a 3M™ Licensed Installer, Sunscreen have access to the latest technology in window film - an insulation film that outperforms all others and is virtually clear. 3M™ Thinsulate™ Climate Control Window Film helps retain warmth in winter and keep the heat out during summer by increasing your windows' insulation value. A single-glazed window with 3M™ Thinsulate™ Window Film applied has a similar insulation value as double-glazed windows, and double-glazed windows have a similar insulation value to that of triple-glazed windows. This level of insulation has not previously been achieved in a relatively clear film that does not change the look of your windows - inside or out.

**3M™ Thinsulate™ offers:**

- Incredible insulation performance, all year round
- Heat rejection for comfort and energy savings
- UV rejection of 99.9% that helps to significantly extend the life of furnishings from fading.
- Comprehensive warranty from 3M™

# THE DELIVERABLES ARE IN THE DETAIL

Sunscreen's meticulous planning, technical qualifications and strategic management principles results in happy customers and delivering on promises.

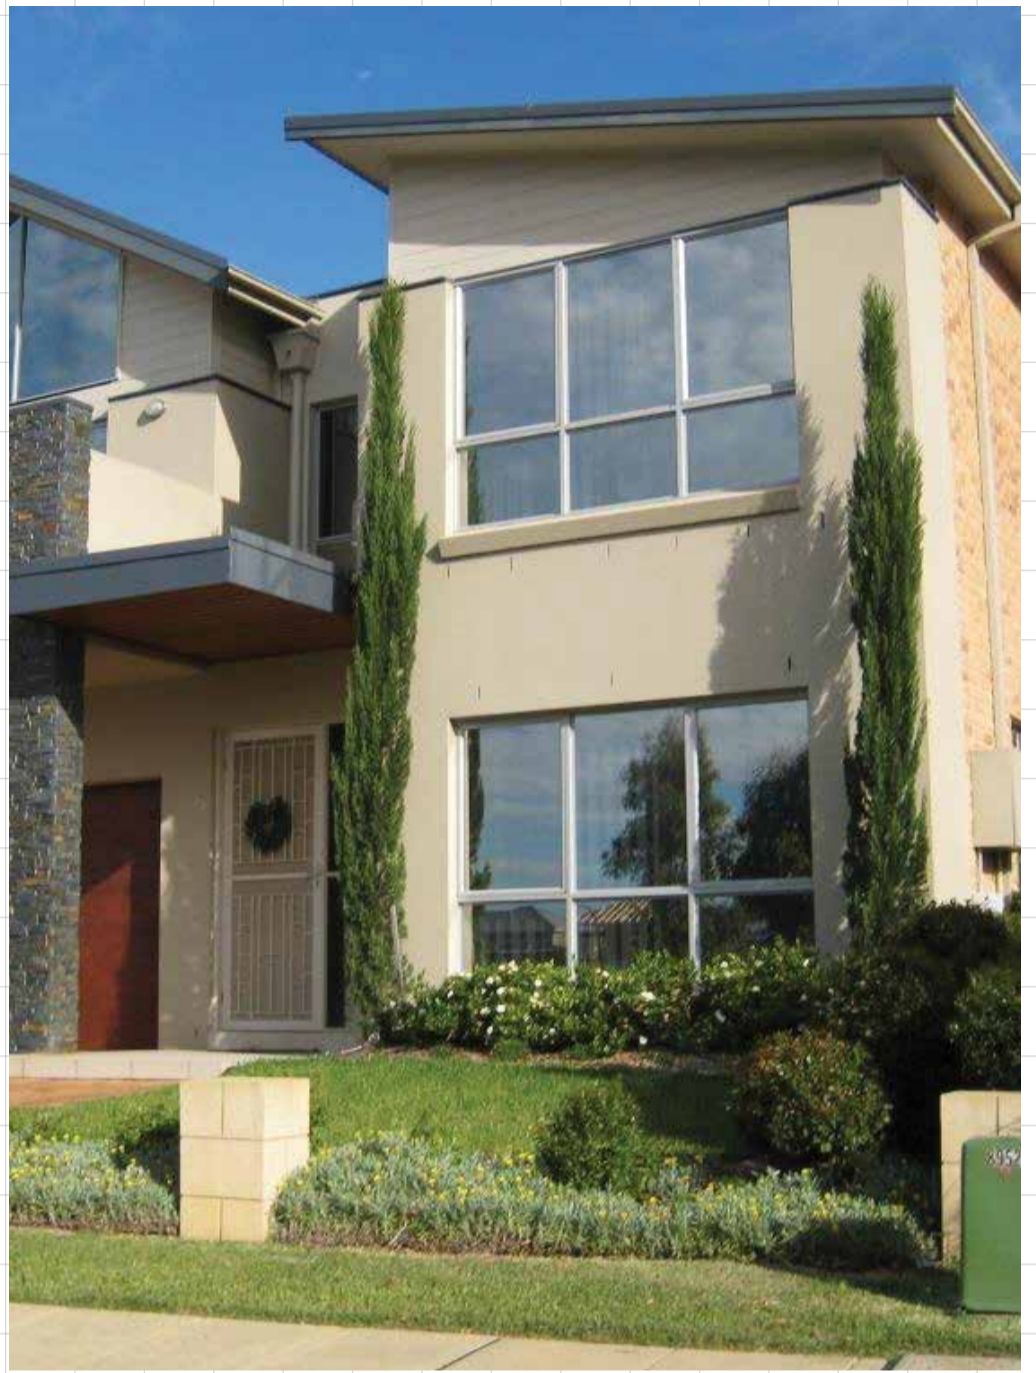

# IT'S AN INSIDE JOB

**There is a reason that we have such loyal repeat clients and that's because we take complete ownership of the entire process from start to finish without ever having to outsource externally. It keeps costs down and ensures that the whole process is a smooth one.**

**We have the designers who create the artwork, the printers and developers who put it together and the installers who apply it professionally. We work with our clients to ensure we give them more than they could have ever imagined.**

# **DRILLING DOWN** ON PRODUCTS

**Sunscreen are leading the way in commercial and high-end residential tinting, graphics and signage solutions in Australia. We have access to some of the world's most exclusive and innovative films and signage products which allows us to be frontrunners in creating incredible branding experiences.**

**Our key qualities are:**

- **Extensive range of custom and preset decorative films for glass or walls**
- **Full range of coloured opaque and translucent films**
- **Ability to tailor an image, graphic or logo onto any film or sign using a huge range of materials in 2D or 3D**
- **3M™ Window Film Licensed Installer for exclusive film products and partnership with Getty Images for exclusive access to thousands of images**
- **Ability to create signage and graphics that meet certification and safety requirements**

**A dedicated Sunscreen Project Manager can see any job through from inception to installation using any number of products to complete the process.**

# WHY OUR RELATIONSHIP WITH 3M™ IS SO IMPORTANT TO OUR CUSTOMERS

Sunscreen supply 3M™ Scotchtint™, 3M™ Scotchshield™, 3M™ Prestige™ and 3M™ Ultra Window Films™, and most recently, 3M™ Thinsulate™ Climate Control Window Films, and have been working with 3M™ for the last 35 years. 3M™ are considered one of the global leaders in film technology and give considerable support to distributors, offer an impressive manufacturer's warranty as well as the opportunity to use the global strength of the 3M™ brand across marketing materials.

As a licensed 3M™ installer, Sunscreen have exclusive access to the latest products and materials from 3M™ and their international support across all marketing channels. It's this relationship that ensures an unmatched level of quality to all Sunscreen customers.

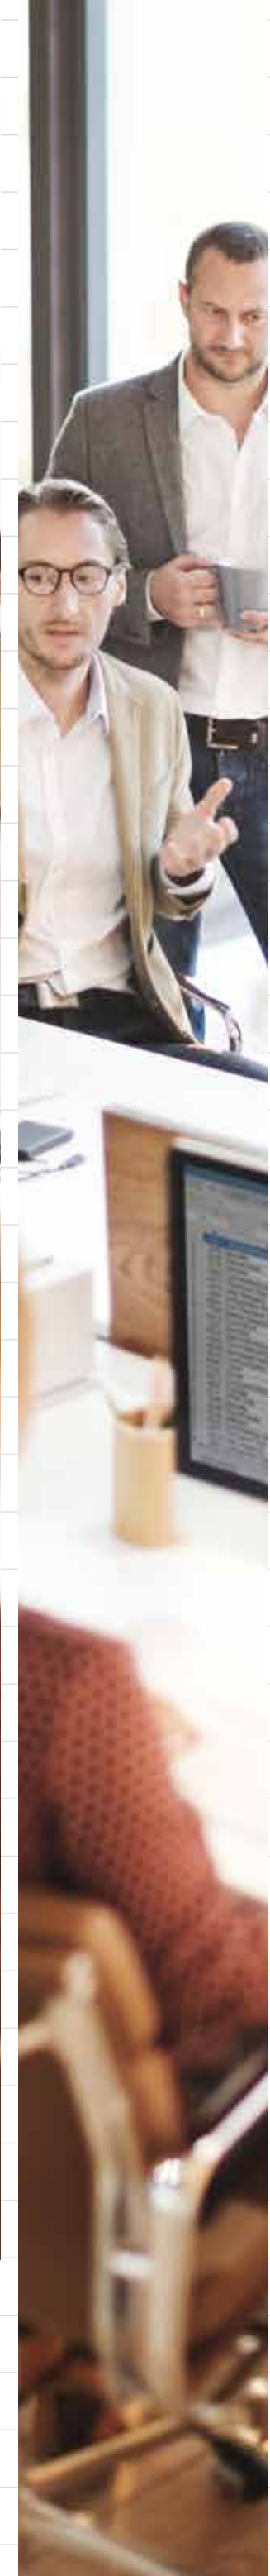

# OUR PEOPLE

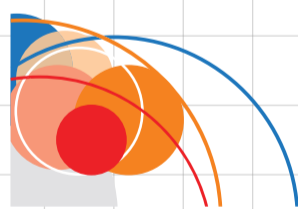

**We're a bit of everything.**

**We're part 'creative agency' types, part 'commercial solution' types, part 'design industry' and part 'regulation advisers'. We advise on everything, are experts at most things and we like our coffee strong.**

**We don't like normal.**

**We are also passionate about ensuring we deliver on all of our promises and install or apply film or signage solutions that make a difference to your business. We want you to be genuinely happy that you chose Sunscreen as your solutions team.**
