SILVER POSTER DISPLAY STANDS & SNAP FRAME STANDS

Lots of options and styles for sign holders from A4 to A0 size
Modular system for maximum variety
Too many to list and picture all of them - here's just a few...

PANEL STANDS

New two-piece solution to economically stand-up sign panels of any thickness.
Place the two pieces on either side of the sign panel and attach with the (supplied) bolts and wing-nuts. Ideal for any substrate from 3mm to 10mm thickness.
For wider sign panels, use two "Panel Stand" pairs.
Powder-coated silver, the 200mm x 200mm faces provide space for you to place a small SAV graphic or logo
