■ Hot Pressed

Stonewood Bamboo Flooring is made up of Hot Pressed Boards which are higher in density and ultimately harder than all other timber flooring.

■ Sustainable

Bamboo is fast growing, taking only 5-6 years on average to mature. It is an eco friendly resource and a perfect renewable alternative to timber flooring .

■ Scratch Resistance Satin Finish

Full 10 layers German Treffert finish at 50% gloss make it extra durable and scratch resistant.

■ Top Quality

Strict selection from raw material to finished product. Stonewood Bamboo floor's consistent density, color and moisture content ensure your finished floor is a masterpiece.

■ Easy Installation

End Matching Licensed Drop Lock System makes the installation super easy. Stonewood Bamboo is a perfect DIY product.

■ Lifetime Structural Warranty

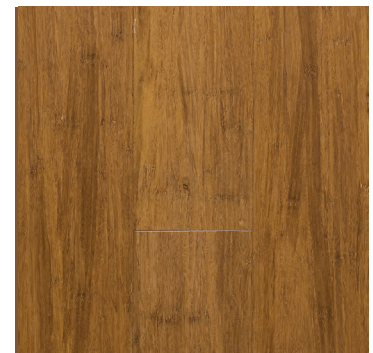

With the lifetime structural warranty you can rely on lifelong enjoyment.
