GREEN

polytec is committed to an eco-friendly and sustainable environment. It is an intrinsic part of the way we do business daily. Our decisions are made so that they have minimum negative impact on the environment.

Our product is manufactured from managed and renewable plantation pine, and on request can be purchased as Responsible Wood chain of custody certified. All **polytec** board products are manufactured from E0 or E1 MDF.

We manage waste responsibly through numerous recycling programs including aluminium and metals, used oils and timber waste is recycled back into energy. We subscribe to local government environmental initiatives and voluntary audits as well as our own internal Energy and Carbon Management Policy (ECM), which aligns with the Australian Government's Energy Efficiency Opportunities (EEO) program.

polytec doors and benchtops are Australian Made & Owned.

CARE

STECCAWOOD products are manufactured in Australia using the highest quality materials and designed to provide years of trouble free service. Care should be taken to wipe up spills immediately, ensuring the products are not exposed to high or continuous levels of moisture, steam and humidity.

STECCAWOOD prefinished decorative battens should be cleaned by wiping down using a damp soft cloth containing warm, soapy water. For more stubborn stains, use a mild household spray to wipe down the door or panel with a soft cloth taking care not to rub too hard. Dry using a soft cloth so as not to leave any residue on the product. Always ensure that you refer to the recommendations provided by the cleaning product manufacturer before use.

Where products are installed in a kitchen environment use range hoods whenever cooking, to avoid steam and cooking oil vapours from adversely effecting surfaces. Failure to follow the above care instructions may result in damage to your Steccawood product and void your entitlement to any warranty. **polytec**'s warranty does not cover wear and tear.

By following these simple steps you should retain beautiful doors for many years to come.

Visit www.**polytec**.com.au for specific care and cleaning information. Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.

The colours and details shown in this brochure are to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample visit www.**polytec**.com.au. **polytec** swatches and samples represent a small area of the overall colour structure, to view the large colour sample, visit www.**polytec**.com.au

The use of our current colour samples gives the colour and finish that a customer would expect to receive. **polytec** does not guarantee exact colour matches across product ranges due to colour variation in each product group.
