MEDIUM LEVEL SECURITY

SPEEDLANE **SCULPT.**

SCULPT YOUR ENTRANCE WITH TAPERED FORM AND FUNCTION

Signature

SIGNATURE SPEEDLANE SERIES.

A series of premium speed gates designed to introduce security into areas where space is limited, but a high level of throughput is paramount.

Our new Signature Series of security lanes draws inspiration from modern architectural trends. This series offers reliable functionality and market-leading technology while providing the flexibility to create a one-of-a-kind entrance solution. Choose from three models, the Edge, the Sculpt and the Contour - available as standard or fully customised with Boon Edam's **YourWay** principle.

TAILORED TO PERFECTION

Architects, designers, and specifiers can fully customise our speed gates - from shape, size, and finish, to access control integration, connectivity, accessories and more. Handpick from a variety of design options, including:

- Cabinet length
- Cabinet height
- Cabinet colour
- Top of cabinet material
- Square, round, or tapered cabinet ends
- User indication design
- Glass height up to 1800mm

OVERVIEW - THE SCULPT

The Sculpt model in the Signature Speedlane Series provides a modern twist on the traditional speed gate, with a streamlined cabinet that creates the illusion of more space. The contemporary design of the Sculpt features a decorative strip and illuminated LED lights that provide easy user guidance.

The Sculpt speed gate from Boon Edam is a masterpiece in architectural design and engineering. This speed gate is not just a security solution but a true work of art that elevates the aesthetics of any entrance area.

The sleek and streamlined design of the Sculpt speed gate is a testament to the skill and craftsmanship of the engineers and designers who created it. With its advanced features and state-of-the-art technology, the Sculpt speed gate offers unparalleled performance and security, all while making a bold statement of style and sophistication.

SHAPE THE FUTURE OF SUSTAINABLE SECURITY

This stylish security gate is rapidly becoming a favourite of architects and security professionals alike, thanks to its sleek and versatile design that seamlessly integrates with any building.

The Sculpt is designed with sustainability in mind. Its energy-efficient technology and durable construction make it a cost-effective and environmentally-friendly choice for any organisation.

DESIGN-DRIVEN SECURITY.

The Sculpt speed gate is a perfect example of design-driven security. Its sleek, contemporary aesthetic complements modern architecture and creates a sense of openness and accessibility. And with its bespoke features and advanced security technology, the medium security entrance offers both style and substance in one complete solution.

DESIGN FEATURES

- Tapered ended cabinet
- Modern and contemporary design
- Intuitive LED user guidance
- Available in a variety of materials and colours
- Compact design helps optimise valuable floor space
- Easy integration with third-party access control systems
- Easy installation

EFFORTLESS INTEGRATION.

The Signature Speedlane Sculpt offers seamless integration with third-party access control systems, allowing maximum flexibility in your security setup. The Signature Speedlane Series of speed gates are designed to work seamlessly with leading access control providers to meet your unique security requirements.

OPTIONS

- QR Code or Barcode Scanner
- Card Reader

STAY BREAKDOWN PREPARED

Whether it is a revolving door, speed gate, or security door, all of our products require preventative care to ensure they continue to look and perform as intended. With routine services and preventative maintenance, you minimise the risk of unexpected breakdowns and costly repairs while increasing the longevity and efficiency of your entrance.

Our service specialists and engineers work together to ensure that your products are fully maintained throughout their lifecycle. With national coverage and dedicated regional experts, you can expect a more efficient yet premium service - no matter where you are in the world.

We offer a variety of system maintenance contracts, ranging from basic to ultimate care, so you can choose the level of agreement that is right for you.

COMPLIANCE

The goal of an organisation is to safeguard the valuable assets inside – both people and property. As is often the case, industries must comply with relevant local and global laws, policies, and regulations to achieve the important goal of overall safety and security. Failure to meet the appropriate measures and criteria set out in these regulations could result in catastrophic incidents and substantial fines.

Boon Edam security entrances are trusted solutions that allow organisations to meet compliance regulations related to restricting access to areas within a building. We take compliance and safety very seriously and ensure that our products are manufactured, installed, and maintained to keep up with the strict criteria required in all our countries. We are continually improving and committed to ensuring our products are compliant and certified. More information can be found on our website.

The Signature Speedlane Sculpt complies with the following European standards:

- BS EN 17352 (2022)
- Machine Directive (2006/42/EC)
- EMC Directive (2004/108/EC)
- RoHS Directive (2011/65/EU)
