

# SUPACOUSTIC NCK

Floating Modular Noise Control Kit

Excellent Noise Control • Fire Group 1 and 2 • Easy-Install

# The complete and modular noise control system

When designers need stylish yet affordable panelling to control acoustic reverb and need it right away, they turn to SUPACOUSTIC noise control kit (NCK) system.

SUPACOUSTIC NCK is a system of floating acoustic panels for walls and ceilings that lets designers instantly create and conceal the airgap that's needed for superior acoustic performance.

NCK fixing installs rapidly over other wall or ceiling surfaces such as plasterboard and cement render mounting systems. It's ideal for retrofits.

And, because it's modular, NCK fixing provides the flexibility to allow staged installations and gradual expansions.

# Why more designers and acousticians choose

## SUPACOUSTIC NCK

### Complete System

acoustic panel, acoustic backing, framing and fixing all included

### Assured acoustic performance

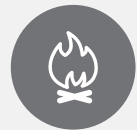

as the supplied system is precisely the same as the acoustic test

Tidy, easy-install proprietary concealed fixing system

Certified materials to maximise Green Star Credits

Fire retardant options in Fire Group 1 and 2 for SUPAFINISH

Retrofit friendly and installs over existing surfaces

A full, ten-year performance warranty

## Projects

### Lecture theatre >

SUPACOUSTIC NCK low, medium and high panels in three shades of SUPACOLOUR create an interesting 3D effect.

### < Lecture theatre

SUPACOUSTIC NCK Float panels on the ceiling of a school lecture theatre in Supafinish Hoop Pine Lined

### School Library >

School library ceiling featuring SUPACOUSTIC NCK Sawtooth in Supafinish Tasmanian Oak.

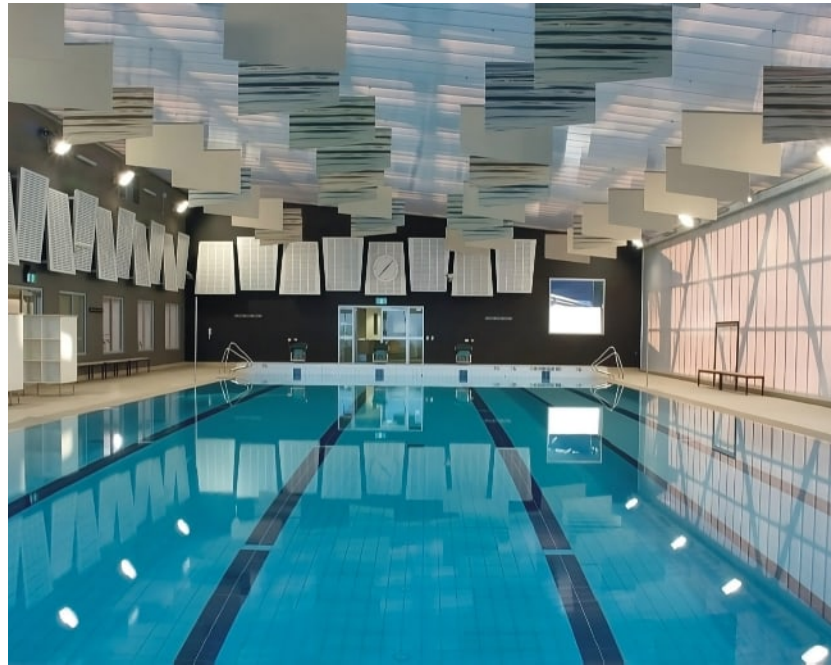

### < Student lounge

SUPACOUSTIC NCK medium panels in SUPAFINISH Matt Silver deflect sound from a brick wall in this lounge area.

### Indoor pool >

Wet sealed SUPACOUSTIC NCK panels in SUPACOLOUR white provide effective acoustics and aesthetics in an indoor pool area.

### < Multi-level corporate office

SUPACOUSTIC NCK panels in certified FSC in SUPAVENEER Plantation Oak are used to conceal services in the ceiling.

### University breakout space >

SUPACOUSTIC NCK panels in SUPAFINISH Tasmanian Oak create an interesting ceiling effect.
