SECURITY  
WINDOW SCREENS  
HAVE NEVER  
LOOKED SO GOOD

# HIDDENFIX

## THE BENEFITS OF THE NEW HIDDEN FIX FRAME ARE PLAIN TO SEE

### AN ARCHITECTURAL FINISH WITH HIGH SECURITY PERFORMANCE AND CONCEALED FIXINGS

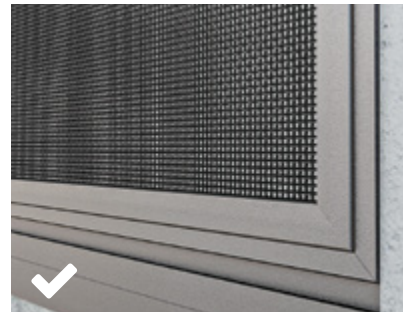

The new Amplimesh Hidden Fix frame hides unsightly screws and fixings under a metal enclosure while ensuring it is secure and unable to be pried off by potential intruders.

#### FEATURES AND BENEFITS:

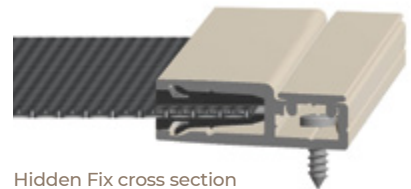

- Conceals unsightly installation screws and fixings for a streamlined and stylish finish
- Easy to measure and install, and comes with a premium finish for 'Face Fit' installed screens
- Once capped, can still be inserted in traditional flyscreen rebates up to 11mm width
- Screen challenging window types such as double-hung and side light windows
- Supplied in a powder-coated finish
- Accommodates all Amplimesh infills – SupaScreen, IntrudaGuard and Privacy Plus

Traditional face fix methods leave unsightly visible screws

The new Hidden Fix Frame has the screws concealed under the frame. Once capped, screws are concealed for a streamlined, stylish finish
