TRADITIONAL TILE SKYLIGHTING SYSTEMS

Skyspan traditional skylights fit all terra cotta and concrete tile profiles. The complete unit is manufactured from Galvabond for durability and is designed for economy, a low silhouette and easy installation. The skylight can be supplied in aluminium, stainless steel and copper. The standard dome is formed from 3.0mm acrylic and 4.5mm for larger sizes. There are no fixings through the glazing to allow for thermal cycling.
