Normal Designed to drench the body with a dense circular spray.				
Champagne A water stream with bubbling excitement for those who enjoy a new experience.				
Massage Firm pulses of water to invigorate and relieve tired muscles and increase blood flow.				
Normal/Massage Blends Normal with Massage to pamper and invigorate.				
Normal/Champagne Blends Normal and Champagne for refreshment and indulgence.				

All Dorf showers have a normal spray pattern, designed to drench the body with a dense circular spray. Select Dorf showers offer additional spray patterns detailed in the table below.

Dorf – it's Australian for quality

Dorf products are designed and manufactured for a lifetime of trouble-free operation. They are completely re-engineered through a dedicated engineering department to strict Dorf standards, and are designed to the highest Australian standards and compliance levels.

Dorf is the only Australian tapware brand that can supply you with products that are dual licensed with both StandardsMark and WaterMark Licences, your guarantee of unsurpassed quality.

Dorf Warranty

Dorf products are manufactured to the highest industry standards and offer a 10/3 year warranty†.

†Conditions apply For full terms and conditions go to www.dorf.com.au *Washing machine sets do not include Dorf Ceradiso® technology.

In 2006 Australia introduced mandatory labelling and water performance standards on a range of household water-using products, including tapware. The Water Efficiency Labelling and Standards (WELS) Scheme uses a 6-star rating scale designed to help you make informed choices about the water-using products you select. The more stars the more water efficient a product is. All Dorf basin sets and mixers are 5 star. Dorf sink sets and mixers are 4 star rated and Dorf showers are 3 star (except for two rain showers which are 2 star). Bath and washing machine sets are not included in the scheme, therefore not WELS rated.
