
Rose Door Furniture

Rose Door Furniture
Robert Watson Collection

Description

The Robert Watson Collection of door furniture consists of three lever designs and a range of complementing escutcheons, turns and emergency release sets. The roseless design of the furniture is unprecedented and the innovation and lateral thinking involved in the development of the products has led to them being patent protected and design registered.

Application

The Robert Watson range is suitable for commercial as well as residential use.

It can be fitted with:

- Lockwood Synergy 3570 Series Mortice Locks
- Lockwood 6580 Mortice Locks (38mm backset, metal doors only)
- Lockwood 531 Latches and A6208 Tubular Bolts

Features and Specifications

Dimensions
Body: 36mm diameter.
Projection from door: 62.5mm.

Materials
Furniture body: aluminium.
Mounting stock and other internal components: stainless steel, steel and brass.

Fixing
Furniture is fixed to 3570 Series Mortice Locks using a specially developed pair of steel adaptor plates that are secured through the lock case using screws.

Robert Watson furniture may also be fitted with a Lockwood 531 Latch using a steel adaptor which locates over the body of the latch.

A special adaptor for fixing Robert Watson furniture to 6580 Narrow Style Mortice Locks in hollow aluminium door sections is also available.

Door Thickness
32mm minimum for 3570 and 6580 Mortice Locks, 35mm minimum for 531 Latches. Maximum 50mm.

For doors 51mm to 62mm thick, use accessory pack RW00-42. (For use with mortice lock installations only).

Standard Finishes

Satin Anodised	SA
Powdercoat	PC

The anodised aluminium finishes are categorised as a soft finish and form part of the Lockwood Guarantee (Item 7).

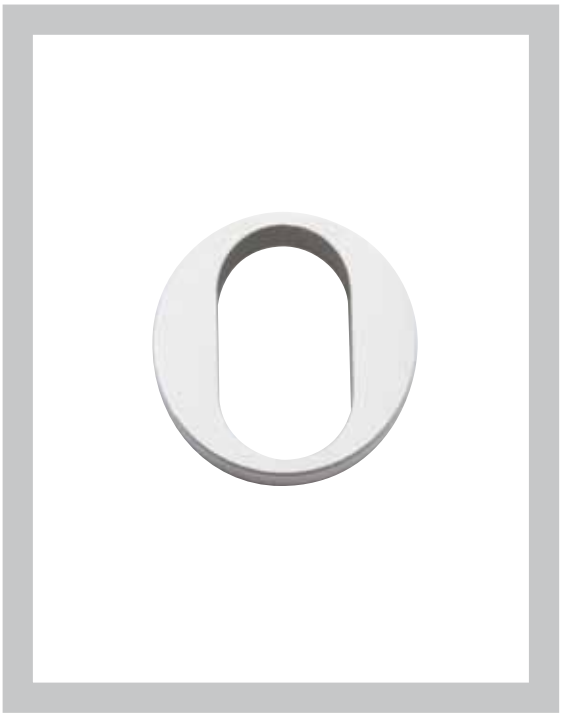
Robert Watson Collection Escutcheons



Escutcheons

These escutcheons are designed to be fitted with Lockwood oval cylinders and the Robert Watson range of turns and emergency turns. Fitted using a grub screw, they ensure that the accessories they are fitted with are aesthetically pleasing.

Use with Lockwood Mortice Locks and A6208 Bolts. The escutcheons are available in different sizes for suitability to different door thicknesses.

Note: Escutcheons must be ordered separately for use with oval cylinders, turns and emergency release turns.

Part Numbers

Part Number	Door Thickness	(A) Dimension
RW06/38	35 – 38mm thick	17mm

1220 Series Symphony® Rose Furniture

Designed for use with Lockwood 3570 Series Mortice Locks and Latches, as well as the Lockwood A5250 Tubular Latch.

May be used with Lockwood Daintree Privacy Adaptors when 1321 internal rose is selected.

Features and Specifications

Dimensions
53mm diameter x 11.6mm

Handing
A removable stop screw allows all symmetrically designed levers (e.g. Cadenza) to be handed on site. Levers of asymmetrical design (e.g. Veloce) cannot be reversed. Specify left or right handed when ordering.

Materials
All Lockwood roses and levers contained in the 1220 series are of solid brass construction.

Fixing
Fully concealed on both sides.

Door Thickness
33mm minimum for A5250 Latches and 32mm minimum for Lockwood 3570 Series Mortice Locks. Maximum door thickness 50mm. Refer to lockweb.com.au for information on fixing screw options for thicker doors.

Rose Door Furniture

Velocity® Series Overview

Velocity Door Furniture offers home owners and builders a contemporary collection of levers on rose for use within a residential environment.

Designed in Australia, the Velocity series encompasses the robust design and product quality that has become synonymous with Lockwood. An attractive yet unobtrusive rose design complemented with six modern lever designs. The Velocity Series captures the aesthetic tone of the residential market providing style whilst maintaining utilitarian desire.

With a design that transcends the basic functional and aesthetic requirements of residential hardware, the Velocity series sets a new benchmark in ease of installation.

The Velocity Series includes passage sets for connecting doors, privacy sets for bathroom and toilet doors and dummy half sets for use on cupboard and wardrobe doors where a consistent styling is desired.

Velocity levers styles are common to the Lockwood Nexion and Lockwood Palladium ranges, facilitating a uniform design aesthetic throughout the home. It is also the perfect complement to the uncompromising Paradigm 005 deadbolt.

Super Fast Installation

New PRODUCT

Align

Twist

Tighten

Through the simple twist and tighten fixing action the Velocity Series turns the rhetoric of ease of installation into reality.

The frustration of fiddling with small parts or misplacing them during installation is a thing of the past as Velocity lever sets are supplied pre-assembled so there are no loose screws or spindles.

Screws align through the rose removing the need to locate them blind through the door. A twist and a quick tighten of screws and the levers are installed.

Rose Door Furniture

Velocity® Series Door Furniture

The Velocity Series is a stylish range of door furniture suitable for use in residential dwellings. Designed to suit common door preparations in the Australian market, Velocity is ideal for both new and retrofit applications.

Features and Specifications

- All fixings are concealed beneath a removable rose trim providing a crisp and clean presentation desired by the discerning home owner
- Simple twist and tighten fixing method and lever set pre-assembly allows for super easy and super fast installation
- Available in a choice of six lever designs and two finishes
- The rose fits 50mm or 54mm diameter holes making is suitable for retrofit and common door preparations
- Designed in Australia for the specific needs of the Australian market

Materials
All Velocity levers and roses are made from solid zinc die-cast.

Latches
Passage sets are available both with and without a 60mm backset tubular latch.

Privacy sets are supplied with a 60mm backset privacy latch which includes an activating pin for the inside of the door and an external emergency release function. The latch is automatically released when the internal handle is operated and is easily adapted for both open in and open out applications.

All latches are supplied with industry standard "D" strikes.
