## EVOLVE Range – in one word Innovative

The Evolve locker was designed to add a new dimension to the often uniform locker room appearance. With its unique reverse curve shape it softens the square look inherent in change room fitouts.

The Evolve range is dynamic in design with gains in functionality. The reverse curve shape allows for an overlapping of the doors, increasing hanging length by 150mm for 300mm wide units and 200mm for 400mm wide units whilst maintaining good storage capacity for shoes, bags and personal items.

The Evolve locker can be fitted with a variety of lock options, with our premium master key system being standard. With an extensive choice of colour finishes to select from we are confident of finding the right solution to your locker needs.

### EVOLVE STANDARD SPECIFICATIONS

- Available in 2 standard widths 300mm & 400mm
- Extensive choice of door colour finishes from the Laminex range
- Hanging rail fitted with anti-theft coat hanger – units vented through back
