# The Sterling Series Window Accessories

Industry Leading Window Hardware for Timber Windows

# The Sterling Series Timber Window Locking Range

The Doric Sterling Series window locking range for timber windows, has been specially developed for modern joinery applications.

Combining modern styling with superior quality this range is a must have for timber joinery.

| Finishes & Colours   |   |
|--|---|
| Plated   | Powder Coat   |
|  Satin Nickel |  Black           |
|  PVD Gold     |  White           |
|  |  Mahogany Bronze |

## DT1 - Double Hung Sash Lock

The double hung sash lock includes a choice of purpose keepers specifically designed to integrate with single and double glazed windows. Incorporating a screw and bushing type pivot assembly, this design will provide years of trouble free operation.

Screw locations have been situated back towards the centre of the windows meeting rails to ensure the best possible fixing on a double hung window.

## DT2 - Sash Lifts

True to the range, the Sterling Series sash lifts reflect consistency in design. Manufactured from stainless steel, these premium sash lifts will provide years of functional use.

## DT3 - Key Casement Fastener

The Sterling Series casement fasteners are designed with both function and aesthetics in mind. Their sleek contemporary design does not overlap the glass when in the closed position, further enhancing the view.

All fixing screw locations have been positioned to compliment modern weather seal locations.

## DT4 - Sliding Window Lock

The Sterling Series sliding window lock has been designed to be surface mounted, unifying top of the range windows. This lockable latch incorporates a functional handle design and features complimentary keepers for both single slide and bi-parting windows.
