CUSTOM DESIGN

Car park storage in areas of residential apartment basements and commercial basements are often limited. **Qwik - Store Custom Storage Lockers** has a range of car park storage lockers which can be installed to maximize your available space, no matter how awkward it may seem.

Qwik - Store Custom Lockers has been specializing in storage solutions in excess of 10 years so have the experience and expertise to tailor storage lockers to suit your specific needs, whether for apartment basement storage, commercial basement storage, archive storage, general storage or customised storage.

Qwik - Store Custom designed storage lockers are made from durable Colorbond steel and are available in a range of colours to compliment your building.

Standard sizes are available in all designs but any dimensions can be customized to suit your needs without a customized price - any size, any shape.
