QWICKBUILD®

Outdure's QwickBuild® Deck Framing System is a durable, structural solution designed to replace inefficiencies associated with traditional deck design and construction.

QwickBuild is moisture-proof, light-weight, and is fast and easy to install.

Value-engineered to be cost-effective with minimum waste.

QWICKBUILD SUPPORTS:

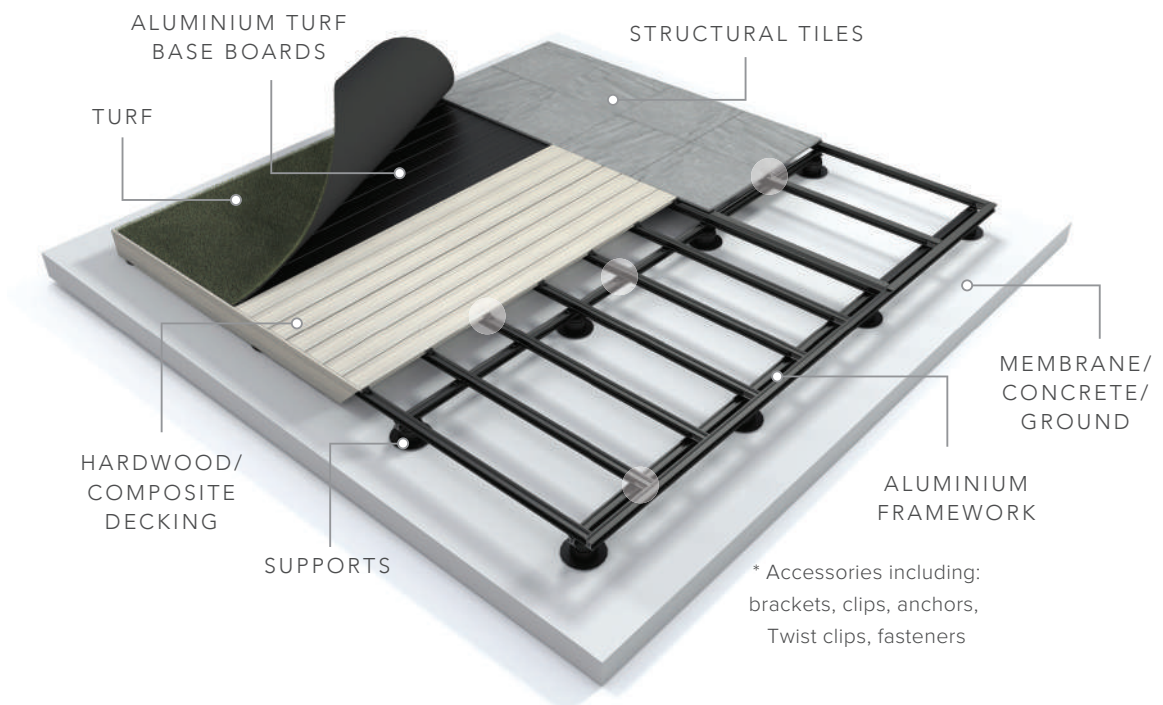

- Composite decking
- Hardwood decking
- Structural tiles
- Synthetic turf

INSTALL OVER:

- Concrete pads
- Existing tiles/pavers
- Natural ground
- Waterproofed areas

QUALITY, DURABLE MATERIALS:

- 6063-T6 structural aluminium joist & bearer framework
- Corrosion-resistant 304 & 316 Stainless steel accessories

QwickBuild has been specified internationally in new and remedial commercial and residential projects as diverse as terrace developments, resorts and hospitality, multi-residential balconies, childcare and aged care complexes, courtyards, communal education spaces, repurposing of rooftop spaces.

INSTALLATION BENEFITS:

- Fast, efficient installation, easy to handle onsite, basic tools required
- Supplied as kit-set materials, prefabricated frames or custom
- Minimal material wastage and onsite mess
- Strong, straight, easy to level, dimensionally stable
- Less work required: less digging, fewer posts/supports, fewer cuts, no concrete pads or grouting required for pavers
- Easy to install any surface
- installation guides and Youtube installation videos
- DIY friendly or utilise our network of installers

TECHNICAL BENEFITS OF QWICKBUILD:

- A range of profiles to suit all deck heights
- A comprehensive range of mix and match components
- Designed for residential and commercial projects
- Unmatched low height structural capabilities
- Compliant, low risk 'deck over waterproof membrane' solution
- A certified, engineered solution with long-span, high-load capacity
- Comprehensive commercial and residential warranties

DESIGN BENEFITS OF QWICKBUILD:

- Multi-surface integration to suit your outdoor living requirements
- Achieve a desirable indoor-outdoor flow with your interior floor and joinery level to your deck
- Easily create curves, stairs, seating, screening, planter boxes
- Beautiful straight lines and a quality finish that lasts

THE PROCESS IS EASY:

Share your plans, or we can design a solution to your requirements, to provide you with a quote it is helpful to know:

- The surface/s you would like: hardwood, composite decking, tiles, turf
- The size and shape of your deck area
- The finished height of the deck from the ground
