

# CasaDeck

FOR RELAXED OUTDOOR LIVING ///  
ULTRA MATTE RECYCLED COMPOSITE

As with all Outdure products, CasaDeck attributes include durability, style, and ease of maintenance. CasaDeck has a textured matte finish that looks and feels great underfoot with a commercial slip rating. The refined MixDure colour palette compliments modern and classical architectural styles.

# CasaDeck

CasaDeck is the new generation of Outdure's original composite board range EcoDecking. CasaDeck is a safe, smart, sustainable choice for your family and the environment. Made from an advanced blend of highly durable recycled wood and high-quality UV resistant recycled PVC. CasaDeck has excellent non-slip properties.

CasaDeck has a textured brushed finish and a sealed underside surface for extra moisture resistance. MixDure colour technology achieves a soft tonal variation throughout the boards to disguise daily wear and tear.

Light marks can be evened out with the use of a soft brush.

Lay in uniform with breaker boards or a staggered board which reduces waste and looks more like a natural hardwood deck layout. Outdure's patented hidden QwickClips easily hold the boards into place.

Integrate QwickGrates for ventilation and access for low height decks and AntiSlip Strip if required.

*Please refer to actual decking samples for accurate colours and texture.*

#### KEY BENEFITS:

- UV resistant
- Durable & recycled
- Moisture resistant
- Stain-resistant
- Splinter-free
- Nail-free
- Minimal fade
- High non-slip rating P5
- Hidden fasteners
- Termite & pest proof
- Easy maintenance
- Commercial warranty
- Residential warranty

#### BOARD SIZES:

138x23x2800 / 4800mm

#### SOLID 'M' PROFILE

Ideal for residential & light commercial applications

#### SOLID ENDURA PROFILE

For applications with higher load & foot track requirements

#### TRIM BOARD

180x15x2800mm

#### QWICKGRATES

138x23x2800mm

#### THE PROCESS IS EASY:

- Select a colour
- Share your plans or, measure the size and shape of your deck

INSTALL CASADECK ON A TIMBER SUB-FRAME OR,  
ON OUTDURE'S QWICKBUILD DECK FRAME SYSTEM

Composite decking is easy to install and compatible with both a timber frame or QwickBuild which provides a strong, durable, stable structure to support decking, tiles and/or turf over waterproofed areas, ground, concrete slabs and existing tiles or pavers using hidden interlocking fastenings.

The versatile system comprises of a comprehensive range of patented profiles, fastening and support components and accessories. The framework is made from lightweight marine-grade, structural aluminium. Components include brackets, clips, anchors, fasteners, access and ventilation grates, adjustable height pedestals. Installation time is significantly reduced, the profiles are value-engineered with long-span capability and minimal waste making it cost-effective.

QwickBuild also enables flush internal and external floor levels and the construction of complex decks, including stairs, seats, screens, and curves. Outdure provides a design service including technical advice, concepts and production drawings.
