

Create a mark of *distinction* with Alchemy by Astor

Innovation · Quality · Brilliance

“Alchemy:  
The magical  
power of  
transmuting any  
base metal into  
glistening *gold*.”

At Astor we are modern-day Alchemists and while we don't claim have the ability to create gold, our “magical power” lies in our electroplating expertise. We have the exceptional ability to transform the appearance of any metal surface including aluminium into something of high decorative appeal and durability, thereby increasing the value and desirability of any metal object.

*innovation*  
*quality*  
*brilliance*

Astor offers the widest range of finishes of any electroplating company in Australia. Our brilliance lies in our ability to electroplate, polish and paint the widest range of metals with an even wider range of finishes including:

-  **Brass<sup>1</sup>**
-  **Copper<sup>2</sup>**
- Bronze<sup>3</sup>**
- Chrome**
- Nickel and Black Nickel**
- Silver and Gold<sup>4</sup>**
  
-  **Mirror** (highly polished finish)
- Matt**
- Satin**
- Antique**
- Brushed**
-  **Satellite** (extremely smooth, dull finish)

Examples of polished and electroplated finishes supplied to Planet Lighting and Ogis Engineering for the Hilton Sydney .

## Practical *innovation*

A perfect blend of innovative vision and practical application!

Astor's vision encompasses both practicality and innovation. Our ground breaking technology gives us the unique ability to extend the practical applications of aluminum for both indoor and outdoor purposes. Our amazing array of finishes can be made suitable for harsh corrosive environments. Astor's Superchrome process employs a Nickel Coating with an all over chrome plated finish for durability, strength and lustre.

## Timely *quality*

Quality on time, every time!

Astor's commitment to delivering a prompt, reliable and efficient service ensures speed of delivery and guaranteed quality of product and customer service. Our ability to be consistent in the high quality of our product and service offering keeps our clients satisfied and ensures that Astor retains a loyal customer base.

## Eclectic *brilliance*

Choose from a lustrous range of finishes!

Astor's brilliance lies in our ability to produce striking examples of a variety of products. We are able to electroplate, polish and paint a wide range of metals in over 45 different finishes. Our chrome plating ensures that brilliance endures. Astor's alchemy turns any base metal into gold...or silver, bronze, copper, brass, nickel, in fact any metal finish you desire.

## Our business

Astor has successfully applied these finishes to a diverse range of products from bathroom ware, architectural hardware, signage, furniture, antiques, automotive parts.

Astor has developed a reputation for providing excellence in electroplating and polishing since 1954. Our satisfied clients include architects, interior designers, landscape designers, industrial designers, artists, antique dealers and restorers, lighting and bathroom ware specialists, car, motorcycle and boat restorers.

At Astor, we meet our clients' requirements cost effectively and reliably.

Astor's proven expertise is as unique as our in-depth consultative approach and is able to support the ever evolving needs of the industry and manufacturing.

Astor's integrity, high standards of workmanship and long standing track record are impeccable!

Innovation · Quality · Brilliance

## Satisfied clients

““ Astor’s high quality finishes really enhance our specialised designs. I am delighted with the results they produce over such a wide range of finishes. ””

Tyrone Dearing - Leading Designer

““ Astor’s ability to always meet our tight delivery schedules with such high quality finishes has helped our success in both domestic and export markets. I enjoy their co-operative and friendly approach. ””

Rob Lupton – Lighting Manufacturer and Exporter

““ I have been most impressed with the stunning high quality classic bronze finishes provided by Astor. Their finishes compliment our designs beautifully. ””

Ron Keir, Senior Architect – Kann Finch Group

““ Astor contribute greatly to the success of Australian Manufacturers like ourselves with competitive pricing and very quick turnaround. Ogis has worked closely with Astor for over 30 years. ””

Kevin Adler, Managing Director – Ogis Engineering Pty Ltd
