TRADITIONAL ELECTRIC FIRES

T R A D I T I O N A L

E L E G A N C E

We want you to enjoy your new Cradle Mountain Electric Fire right from the start.

That's why we've made it easy for you to select the fire that's perfect for you and your home. Enjoy the wonderful ambience of an incredible life like fire combined with 100% efficiency, easy installation & quick to purchase units.

Our stunning range of European designed and made electric fires can be operated independently of heat, so you can indulge in the glowing flame effect any time of the year. All electric fires feature an innovative flame picture system which ingeniously captures the charm, warmth & cosiness of a traditional fuel fire.

With an efficiency of 100%, units can be run at either 1kW or 2kW.

All inset fires have rubber feet on the fender to avoid scratching expensive hearths and two alternative fixing methods to stop it being pulled over. All products have a fitted plug with two metres of cable.

The Traditional range of Cradle Mountain Fireplaces are beautiful. Truly beautiful. They will add a touch of practicality and ingenuity to provide any home with a sense of warmth and charm.

Installation Advantages.

None of our electric fires require a flue. The traditional range comes with a 'spacer kit' which closes the gap between the fire and the wall when such an installation is preferred. Alternatively, they can be mounted into a wall. The wafer thin inset depth of 75mm makes fitting anywhere a breeze! Simply plug the fire into a power point for an instant blast of 105°C air.

ADAGE

With its beautiful chrome curves and glowing coal bed, the Adage offers simple style with great value for money. This modern electric fire has been designed with a clean, contemporary brushed steel finish and is the perfect choice for any design savvy consumer.

BLENHEIM

Simple traditional styling; truly regal. The Blenheim will add a touch of warmth to any room and is available in brass, black and chrome options. 3.6 and 4.8kW units are available for the Tasmanian market.

CARMA

The Carma with its solid styling suits any room style. With its traditional solid brass cast fascia & fret and detailed corner trim, the Carma electric fire is reminiscent of Art Deco style, yet leads the way in terms of technology. The Carma can be operated independently of heat, which means you can indulge in the effect of the glowing coal bed any time of the year.

DECADENT

Bringing that warm homely feeling to any interior, the Decadent comes in a chrome or brass finish. Featuring a coal fuel bed and top control the Decadent will provide you with endless hours of guilt-free pleasure.

DREAM

Delightful

Our No. 1 selling fire, Dream is available in a choice of gold, black or chrome finishes. The Dream guarantees to be a stunning focal point in any room.

WESTMINSTER

A modern classic update of a Regency period design. Boasting a substantial fully cast fascia in pewter finish, the Westminster combines quality materials and intricate detailing to present a modern take on a traditional style.

EDEN

The distinctive electric flame effect is showcased in the Eden stove to great effect. Requiring minimal installation, these stylish electric stoves offer a simple solution to your heating requirements – virtually anywhere you choose. And as they are electric, it means you can operate the flame effect without heat for all year round enjoyment.

RICHMOND

Providing the look and feel of a traditional wood burner, the Richmond has the ease & convenience of an electric stove.

The simple plug and play feature of electric means you can place the stove anywhere you want to create a stylish feature as well as providing additional heat. The Richmond stove has a coal bed located behind fully functioning double doors and is fully remote control, enabling effortless operation.

VIENNA

Providing the look and feel of a traditional wood burner, the Vienna has the ease & convenience of an electric stove. The simple plug and play feature of electric means you can place the stove anywhere you want to create a stylish feature as well as providing additional heat. The Vienna stove has a coal bed located behind functioning single door.

ADAGE

With its beautiful chrome curves and glowing coal bed, the Adage offers simple style with great value for money.
