

From the Sink to the Kitchen Centre

Choose a fully functional sink centre

The sink today is far more than just a place for washing dishes.

That is why BLANCO created the multi-functional sink centre. Each component is well thought through, perfectly matches and compliments each other in concept, colour, material and superior quality to make your kitchen work more efficient and comfortable.

PROP-UP RIM

A specially designed rim enables to prop up items for easy and secure drainage.

GLASS CUTTING BOARD

The safety glass cutting board slides over the draining area and main bowl. This provides a large, secure cutting area and ensures that food can be easily transferred to a colander inside the main bowl or the half bowl, as needed.

COLANDER

Fitting into the main bowl and the additional bowl, this is a multifunctional, highly practical accessory that is ideal for draining cutlery, rinsing and defrosting food.

The Designer Range

BLANCO ZEROXLINE –
strong in character
and uncompromising.

ZEROXLINE by BLANCO STEELART

The elegant programme with the striking angular bowl geometry sets new standards in kitchen design. With the wide variety of possibilities for individual combination, BLANCO ZEROXLINE will fulfil any customer's wishes:

- single and double bowls in zero radius designs
- high product quality and manufacture
- flush-mount designs with special support angles for perfect, unproblematic installation.
- accessories designed specifically for BLANCOZEROX:

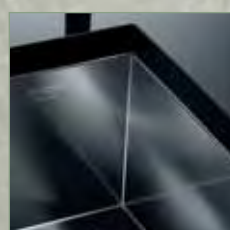

BLANCOZEROX colander and drainer with the matching BLANCOZEROX glass cutting boards for all main bowls – whether under- or flush-mount.

Pure functionality: BLANCOZEROX zero radius colander with a BLANCOZEROX glass cutting board that can also be used as a cover for the colander or drainer.

The entire family is also available in a flush-mount version.

Corner radius
0 mm

BLANCO ZEROXLINE

The appealing feature of this striking design solution is the rectangular bowl geometry of the "zero radius bowl".

The Designer Range SQUARELINE Sinks

BLANCOAXIS 6 S

features:

- stainless steel colander

BLANCOAXIS 6 S

BLANCOAXIS 6 S-M

The optimal combination of ergonomics and functionality. The new definition of working in the kitchen with the AXial concept: no superfluous handling, but efficient, smooth working along a continuous centre line. With the clever accessories as for example the sliding cutting board and the multifunctional colander, all work processes – horizontal as well as vertical – can be done from one place – draining, preparing and disposing of.

The Premium Range

Providing extra stability with its steel cage and firm grip under the hardest worktop materials. Flexibility for work top thicknesses from 28-40 mm.

The permanent water proof seal eliminates the risk of water penetrating into the cabinet below. Cost efficient installation.

All BLANCO sinks are produced in Germany, at a very high quality level according to DIN EN ISO 9001. This means a constant quality management, from buying a special extra high quality stainless steel to final quality controls before packaging.

The BlancoMaster Control has

- Precise architectural design
- High spout eases the filling of large pans and vases
- Long, easy reachable operating levels
- Complete spout revolable by 360°
- Clearly arranged tap ledge as only one tap hole is needed due to the intergrated pop-up control

Designer Tapware BLANCO Taps

The perfect combination of sink and tap provides aesthetics and optimum functionality in the kitchen. This is where the strengths of BLANCO mixer taps are. They provide attractive design and are technically approved. The great number of possibilities and materials BLANCO offers makes your choice easy.

Minimalism in its most attractive form: The eyecatching form of the BLANCORADOS is the high arc spout making the filling of large pans and vases very easy.

The extendable spray of BLANCOELIPSO-S guarantees more convenience – when filling pots and vases outside of the bowl or when cleaning the sink centre.

Designer Tapware BLANCO Taps

BLANCOPROFI

features:

- variable jet spray and splash protection
- comfortable usage of the spray as supported by stainless steel spring
- extra long levers for easy reach
- high spout eases the filling of pans and vases
- jet can be fixed in various positions
- installation into stainless steel sinks possible by special fixing kit (supplied)
- finish: chrome, polished

Cat. No. 565.68.209

BLANCOELIPSO

features:

- classical balanced design
- single lever mixer tap
- fits every kitchen design
- finish: chrome, polished

YOUR 24/7 PRODUCT INFORMATION SERVICE

All the strengths of Häfele have now been combined into a total service package.

The Häfele Online Service has received enormous patriotism from our customers, logging onto our website www.hafele.com to obtain price and stock availability information with just a click of the mouse.

Now since the release of The Complete Häfele Furniture Fittings Catalogue last year, all this information, in fact the whole Furniture Fittings catalogue is now on our website for you to view 7 days per week, 24 hours per day, from your home or office or anywhere with internet access. In addition, the Furniture Fittings catalogue was distributed into the marketplace with a CD Rom, which not only gives you access via your office computer or laptop, it also enables us to update it periodically with the latest product information.

When you combine all these features online with the product and pricing information, CD Rom and the Internet access you will always be up to date with Häfele.

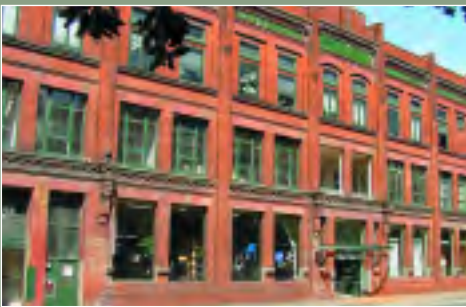

We recommend you visit our website and try some of these great features by simply clicking onto our catalogue icon, searching for your product either by SPEEDSEARCH™ (our pictorial product overview), numerical catalogue number search or by product name. When you have found the product you are after, just simply click the article number to obtain your specific pricing information and stock availability.

With the internet today, our most current information is constantly available to you. Why not click and see ...
