# Wavelight, LED Task Light

The wavelight was designed to meet the most demanding quality and functional standards for the office environment.

Wavelight will integrate with virtually any furniture system, clamped to the surface, free standing or mounted to panels, slatwall, beam or tool rail.

Patented refractive lens technology and dimming capabilities eliminates problems with regard to illumination, light pooling, shadows, glare, light contrast ratios and more.

## Mounting Options

### Lighting Specifications

- Wavelight peak output 860 Lux with light set 380 mm above desktop
- Patented refractive lens
- 3 stage dimmer
- Non-light pooling
- Colour temperature 3800k
- Colour Rendering Index 70
- Light output 77gc at 375 mm from desktop
- Wave Light design eliminates glare
- Projected life in excess of 50,000 hours at full strength

### Functional & Quality Specifications
