SKY LINE

SWITCH OFF. ENJOY RELAXING AT HOME.
Tradition meets technology to provide a sauna in your own home.

The Sky Line Sauna was created as a complete furniture piece styled to integrate seamlessly into any part of your home. The clear glass frontage reaching up to the ceiling allows natural light and a sense of openness without compromising the sauna benefits. Sky Line is manufactured in Italy by Effigibi, world leaders in the wellness sector.

A Sauna and Turkish bath (Hammam) provide very similar benefits however the way they work are very different. The benefits of a Sauna are generated by a bath of hot, dry air. The low humidity (20-30%) allows the body to enjoy temperatures of up to 100°, triggering the body's natural sweating mechanism, regenerating the body by ridding it of toxins and impurities.

LED lighting with 5 fixed colours, 4 dynamic cycles and white light provides enriched colourtherapy. While built in speakers provide audio to further enhance your senses.

The Sky Line Sauna is easy to install and will suit any room without space restrictions.

ENJOY YOUR
OWN IN HOME
SAUNA, ANYTIME
YOU WANT.
