STYLE. GRILLED TO PERFECTION

## INTRODUCTION

Everdure is an award-winning Australian company and a name synonymous with domestic heating and outdoor cooking. The company began as a producer of gas hot water systems in Perth, Western Australia in 1935. The company later expanded into the manufacture of gas and electric room heaters, followed by our first range of Australian-made barbecues. Today, Everdure is one of Australia's largest suppliers of radiant convection gas heaters, while Everdure barbecues have been transforming backyards, balconies and patios into enviable outdoor kitchens since the launch of our Classic series in 2002.

The Classic series reflects our commitment to value and quality with five models providing a choice of innovative design with consummate cooking technology. Neo, meanwhile, is a new way of looking at barbecues – smartly designed at a budget-conscious price without compromising quality. Whether you choose Classic or Neo, Everdure barbecues deliver an inspired cooking experience every time.

NEO  
GAS BARBECUE

FIGURA ARGENTO  
CURVA GROSSO

everdure

neo CURVA

**Lighting Instructions**  
Important: The lid must be open when lighting  
burners and burner cover to avoid fire.  
1. Push in and turn the control knob to 'OFF' & 'OFF'.  
2. The built-in igniter will light the burner.  
3. If burner does not light immediately, when control  
knob is in the 'OFF' position and push up to 3 times.  
4. If burner does not light, check the correct position  
of the igniter, control knob and burner cover  
before trying.

**Lighting Instructions**  
1. Push in and turn knob to 'OFF'.  
2. If it does not light, when the control knob is in the 'OFF'  
position, push up to 3 times before trying.  
3. If it still does not light, turn the control knob to  
'OFF'.

## FIGURA

The new shape of barbecuing. This sleek stainless steel and black powdercoat combination is just perfect in terms of design and functionality. The 304 grade stainless steel full roll back roasting hood has a temperature gauge that helps you keep track of the internal temperatures in the barbecue. The vitreous enamel body/chassis has four rail burners rated at 15MJ each and a warming rack to keep your barbecued food at the desired temperature. The 304 grade stainless steel fascia has ergonomic control knobs that give you better control of the heat output. A rotary electronic ignition system also means you only need to turn the control knob to turn the burners on. The Figura also comes with a 10.5MJ wok burner and a drawer on the right hand side servery. Finally, the spacious storage compartment is accentuated by two stainless steel cupboard doors.

## CURVA

The Neo Curva or the New Curve – is the all black counterpart of the Figura. It offers an alternative color scheme for the discerning barbecue enthusiast. The Curva has everything the Figura does, except for the slide out servery side drawer and some of the stainless steel componentry.

## ARGENTO

Having the exact same product features as the Figura, the Argento (Italian for Silver) is a smart color option for individuals that have a specific color scheme in mind. It also comes with a slide out side drawer on the right hand servery.

## GROSSO

Barbecues, like chefs, come in different shapes and sizes. The Grosso is a good example, being the six burner larger version of the Curva. With a vitreous enamel hood and body, powder coated trolley and cooking plates made up of a grill plate, reversible hot plate and baking dish, there's not a lot you can't do with the Grosso.

06

## NORFOLK

The Norfolk provides all the features required for professional barbecuing. The total cooking area of 800 x 475mm is divided between a cast iron hot plate and grill plate with a unique briquette-style vapouriser. All heated by four cast iron burners with a single electronic ignition. Providing even more versatility is the 16MJ triple ring brass wok burner. The easy glide roll-back vitreous enamel roasting hood opens to reveal a dual positioned removable warming rack. Finally the Norfolk's subtle charcoal colouring is enhanced by the 304 grade stainless steel fascia panel.

## NORFOLK SERIES II

The Norfolk Series II is a colour update on one of the top selling barbecues in the Australian Classic range. It has the same feature as the Norfolk, except for the stainless steel knobs and bezels and the graphite grey colour.

## DAINTREE PROFESSIONAL

All the elegance of the Ashburton in a compact 4-burner package. The Daintree offers a vitreous enamel body, 304 grade stainless steel roll-back roasting hood and fascia panel with a metallic black steel frame and two cupboard doors. A total cooking area of 800 x 475mm is divided between a matte vitreous enamel hot plate and grill plate with a unique briquette-style vapouriser. Four matte vitreous enamel burners are started by a stainless steel electronic ignition button. The triple ring brass wok burner with stainless steel lid provides additional cooking versatility. With the warming rack and heavy duty castors, this package is complete.

## KIMBERLEY PROFESSIONAL

This outstanding full 304 grade stainless steel barbecue is complimented by a cupboard sealed with two stylish frosted glass doors. Four matte vitreous enamel burners supply an ample 60MJ of cooking power. Teamed with uniquely designed heat retaining matte vitreous enamel cooking plates and vapouriser, the Kimberley offers superior gas efficiency and performance. A 16MJ triple ring brass wok burner and stainless steel lid completes this perfect barbecue combination. A 240 volt stainless steel rotisserie and weatherproof cover are available as optional accessories.

## ASHBURTON PROFESSIONAL

With a perfect combination of sleek style and cooking performance, the Ashburton suits every entertainment need. The vitreous enamel barbecue body sits on a steel frame with storage cupboards all in a stunning metallic black. This is contrasted against the 304 grade stainless steel roll-back roasting hood, fascia panel, control knobs and door handles. And then there's the fire power: two banks of three burners, totalling 90MJ of heat all started by dual electronic ignitions. Plus there's the 16MJ triple ring brass wok burner with stainless steel lid. The warming rack, matte vitreous enamel hot plate, roasting dish, grill plate and vapouriser make this barbecue a complete functional and stylish unit.

## STIRLING PROFESSIONAL

The Stirling is the perfect full size, 6-burner, stainless steel barbecue. The total cooking area of 1095 x 475mm is divided into three sections: grill plate with vapouriser, hot plate, and roasting dish (all in matte vitreous enamel finish). The 16MJ triple ring brass wok burner is one of the hottest on the market. The second servery supports a stainless steel condiments rack for your herbs, spices and drinks.

The Stirling is a full 304 grade\* stainless steel model, including the barbecue body, fascia, control knobs, and even the fat drip tray and cupboard door handles. The stainless steel roll-back roasting hood with viewing window reveals a full length warming rack that can be set in a high or low position. The 304 grade stainless steel trolley has 3 cupboard doors with frosted white glass. All glass used on Everdure models is toughened, heat resistant and conforms to Australian Standards. The right hand door has shelves for storage. A stainless steel 240 volt rotisserie, extra grill plate with vapouriser and a weatherproof cover are available as individual optional accessories or as a deluxe pack. The Stirling is the true expression of style, grilled to perfection.

\*304 Grade stainless steel is an austenitic grade of stainless steel inherently tough and is typically used in industrial ovens and hospital equipment for its superior cleanability against bacteria.

BUILT-IN SERIES  
GAS BARBECUE RANGE

DAINTREE  
KIMBERLEY

ASHBURTON  
STIRLING

## BUILT-IN DAINTREE

Simply elegant is the best way to describe the Daintree built-in unit. The single electronic ignition starts up the 4 burners which supply 60MJ of heat to an ample cooking area of 800 x 475mm. There are two distinct cooking areas: a hot plate and a grill plate with a unique briquette-style vapouriser. The vitreous enamel body and stainless steel roll-back roasting hood with temperature gauge and a full length warming rack enhance your barbecuing experience. A stainless steel 240 volt rotisserie, weatherproof cover and built-in brackets are optional extras.

## BUILT-IN KIMBERLEY

The Kimberley Built-In model has the same features as the Daintree built-in, except that it has a 304 grade\* stainless steel chassis and silver pearl side panels.

\*304 Grade stainless steel is an austenitic grade of stainless steel inherently tough and is typically used in industrial ovens and hospital equipment for its superior cleanability against bacteria.

## BUILT-IN ASHBURTON

This is barbecuing in true style. The Ashburton built-in barbecue has a vitreous enamel body with stunning metallic black highlights contrasted by a stainless fascia. The stainless steel roll-back roasting hood with viewing window makes cooking a breeze. With 6 burners and 90MJ of heat all started by dual electronic ignition, this is a seriously hot barbecue. A full length warming rack, hot plate, roasting dish, grill plate and vapouriser complete the package. Like the Stirling, a stainless steel 240 volt rotisserie, weatherproof cover and built-in brackets are optional extras.

## BUILT-IN STIRLING

Perfect is the one word that truly describes the Stirling built-in barbecue. The full size, 6 burner stainless steel barbecue has a total cooking area of 1095 x 475mm and is divided into three sections: grill plate with vapouriser/flame tamer, hot plate and roasting dish. Everything is high quality stainless steel including the barbecue body, fascia, control knobs and drip tray. The stainless steel roll-back roasting hood has a viewing window that shows a full length warming rack which can be set in a high or low position. A stainless steel 240 volt rotisserie, weatherproof cover and built-in brackets are optional accessories.

## OUTDOOR MODULAR KITCHEN GAS BARBECUE RANGE

## FITZROY PROFESSIONAL

For the ultimate outdoor cooking experience in terms of freedom, flexibility and hygiene, the Fitzroy classic modular barbecue reigns supreme. In addition to the Everdure high quality features that you've come to expect such as stainless steel roll-back hood and hard wearing vitreous enamel finish, the Fitzroy features a high quality stainless steel sink, complete with a tap for clean and tidy food preparation. Above the sink, a two part marble cutting board doubles as a sink lid and an additional food preparation area. The tap simply connects to a regular hose fitting allowing the barbecue to be shifted easily without headaches. The drawer underneath the sink features a removable cooler which keeps beverages cold and food fresh right up until cooking. For easy storage two additional drawers are fitted in the separate wok module which features a triple ring brass wok burner that provides versatility for a variety of cooking styles. The wok burner can easily be concealed when not in use by a steel lid that closes flat to provide additional bench surface. Four condiment holders are found on the sides of the barbecue trolley (not shown).

ACCESSORIES  
GAS BARBECUE RANGE

COOKING PLATES  
WEATHERPROOF COVERS

ROTISSERIES

COOKING PLATES

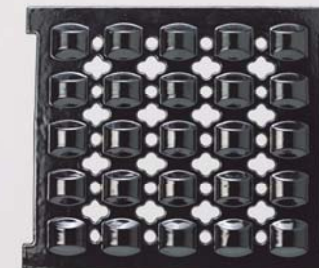

PRO GRILL PLATE

The Everdure Pro grill plate measures 400 x 483mm and is made from high quality vitreous enamel. A smaller pro grill plate is also available (320 x 483mm).

PRO HOT PLATE

The Everdure Pro hot plate measures 400 x 483mm and is made from high quality vitreous enamel and cast iron.

PRO VAPOURISER

The Everdure Pro vapouriser has two functions: it allows for a more even heat dispersion and also reduces flare ups. It measures 371 x 437mm and is made from high quality vitreous enamel and cast iron.

PRO ROASTING DISH

The Everdure Pro roasting dish allows you to roast meats and vegetables with the convenience of serving on a tray. The baking dish measures 320 x 483mm and is made from high quality vitreous enamel and cast iron.

SS GRILL PLATE

The Everdure SS grill plate measures 400 x 480mm, composed of high quality 6mm diameter stainless steel rods to give you that restaurant style grill mark on meats. A small SS grill plate is also available (320 x 483mm) for use on the 6 burner barbecues.

SS HOT PLATE

Made from high quality stainless steel, the Everdure SS hot plate measures 400 x 480mm.

## ROTISSERIES

The Everdure rotisserie is a full stainless steel rod with adjustable stainless steel forks. The forks can be locked into place to secure the food items being spit roasted. The 240 volt motor has an optimal rotation speed to allow even cooking and self basting (which guarantees tender and succulent meals every time). Models are available to suit the Australian Classics and Neo ranges.

## WEATHERPROOF COVER

A weatherproof cover is an essential accessory for your Everdure barbecue, especially with the harsh Australian climate. Our barbecue covers are made using CIBATEX APS treatment, a special agent that reduces photodegradation to offer the best protection against the elements. The covers are 100% waterproof and are UV stable. Available in 4 burner, 6 burner and built-in sizes. A cover for the outdoor modular kitchen (Fitzroy) is also available.
