# RMAX Orange Board – Now BRAC Approved

THE Building Regulations Advisory Committee (BRAC) has accredited the RMAX Orange Board® external polystyrene insulated cladding system as suitable for use as a wall cladding system in Class 1 and associated Class 10 buildings. Building professionals can now install and recommend RMAX Orange Board® with absolute confidence. RMAX is the first manufacturer to receive certification from BRAC for a plain, non pre-coated EPS panel system – another demonstration of RMAX innovation at work.

### A complete system

The RMAX Orange Board® System has been specifically designed as a complete system to provide building professionals with a fully compliant EIFS cladding system that can be specified with confidence.

The system comprises a selection of high quality fully integrated components specifically designed to complement each other at every stage of construction to produce outstanding results.

RMAX Orange Board™ is a good example of RMAX Innovation at work in the development of expanded polystyrene products for the building and construction industry. If your next project requires a unique insulation solution, contact RMAX and talk to one of our specialists or visit our website.
