

# Promenade LED

A solid and elegant range of bollard and parapet luminaires equipped with LED's to light and create coloured ambiances for pathways, entrances, business centres and parks.

Promenade's new and unique optical system optimises the light output uniformity. High powered white LEDs enable this stylish bollard/parapet luminaire to efficiently light pedestrian areas.

## Key features include:

- Elegant design for easy integration in a variety of applications
- Robust and vandal resistant die-cast aluminium (LM6) body
- Options of Base plate, buried (via accessory) or parapet mounting
- Expresses safety, strength and harmony in urban amenity lighting applications
- Polycarbonate diffuser with sand-blasted anti-glare band
- Optimised output ensures no obtrusive light
- Low voltage LEDs for energy savings, long life and reduced maintenance
- A removable accessory allows either the whole upper part or just the top cone to be lit in colour depending on the required effect
- RGB dynamic colour change version available on request
