SUPACOUSTIC NCK

Noise Control Kit

A comprehensive range of floating acoustic feature panels supplied as a complete system to create and conceal the airgap required for acoustic performance.

Key Benefits

Attractive Aesthetics

- Full range of high quality finishes and creative acoustic patterns.
- Durable and easy to clean for lasting good looks.
- Mix and match Kit options for a textured look.
- Use several size panels to create a random pattern.

Acoustic Requirements

- 5 Kit options of varying air gaps and the option of additional bulk insulation means all requirements and frequencies are catered to.
- (Request our Full SUPACOUSTIC NCK test data).

Affordable

- Facilitates the use of reduced quantity of acoustic panelling.
- Match your budget – just order the quantity you can afford now.

Adaptable to suit any site conditions

- Available in ESD, Wet sealed and Fire Group 1 options.
- Suits & enhances both small & large spaces.

Simple Installation

- Excellent for retrofit applications.
- Install over existing surfaces and between existing lights and fixtures.
- No requirement for precise site measurements.
- No sanding, cutting or fine dust generated on site.
- All framing, returns and special screws are included in the kit saving the installer time.
- Simple 4 step installation instructions.
- Can be installed by carpenter, maintenance person, or DIY enthusiast.
- Each panel is self sufficient, so installation can be staged, or completed after hours and over weekends.
