Where
innovation
comes to
light.

Sylvania Lighting Australasia (SLA) is an Australian owned and operated, vertically integrated designer, manufacturer and distributor of high quality lighting systems.

SLA operates a fully equipped manufacturing, distribution, product development and NATA accredited laboratory testing facility from its head office located in Gosford, on the Central Coast of New South Wales, and is committed to quality and innovation.

Locally, SLA markets the internationally respected brands: Concord, Sylvania, CSE-Ex, Lumiance and Siteco. With an extensive range of luminaires to suit a wide range of applications, along with highly skilled and technically sound sales teams in every state of Australia, SLA is well equipped to design and deliver a highly professional, tailored solution to satisfy our clients needs.

For high end Architectural applications, our Concord, Lumiance and Siteco brands offer superior products, styled by leading international designers, which are purpose built for easy installation, use and maintenance.

For Industrial, Commercial, Sports, Area, Amenity, Road and Tunnel lighting requirements, SLA offers the extensive range of environmentally responsible products under the Sylvania and Siteco brands.

For hazardous and arduous applications, SLA markets the CSE-Ex brand, leaders in their field.

Next time you enjoy shopping in a well-lit shopping centre, watch a sports event under lights, drive along a well-lit road at night or work in an efficient, fatigue-free, well-lit workspace, chances are you are enjoying the end-product of SLA's design innovation, technical expertise and manufacturing excellence.

Concord

Concord Lighting is internationally recognised as a company at the forefront of lighting design and technology. Superior products, styled by leading designers, and an unrivalled commitment to innovation, have culminated in a long standing reputation of excellence for quality and performance.

Reflecting our commitment to providing complete architectural solutions for our clients, SLA also markets the internationally recognised Lumiance and Siteco brands.

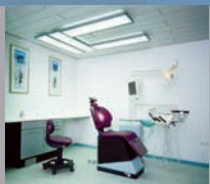

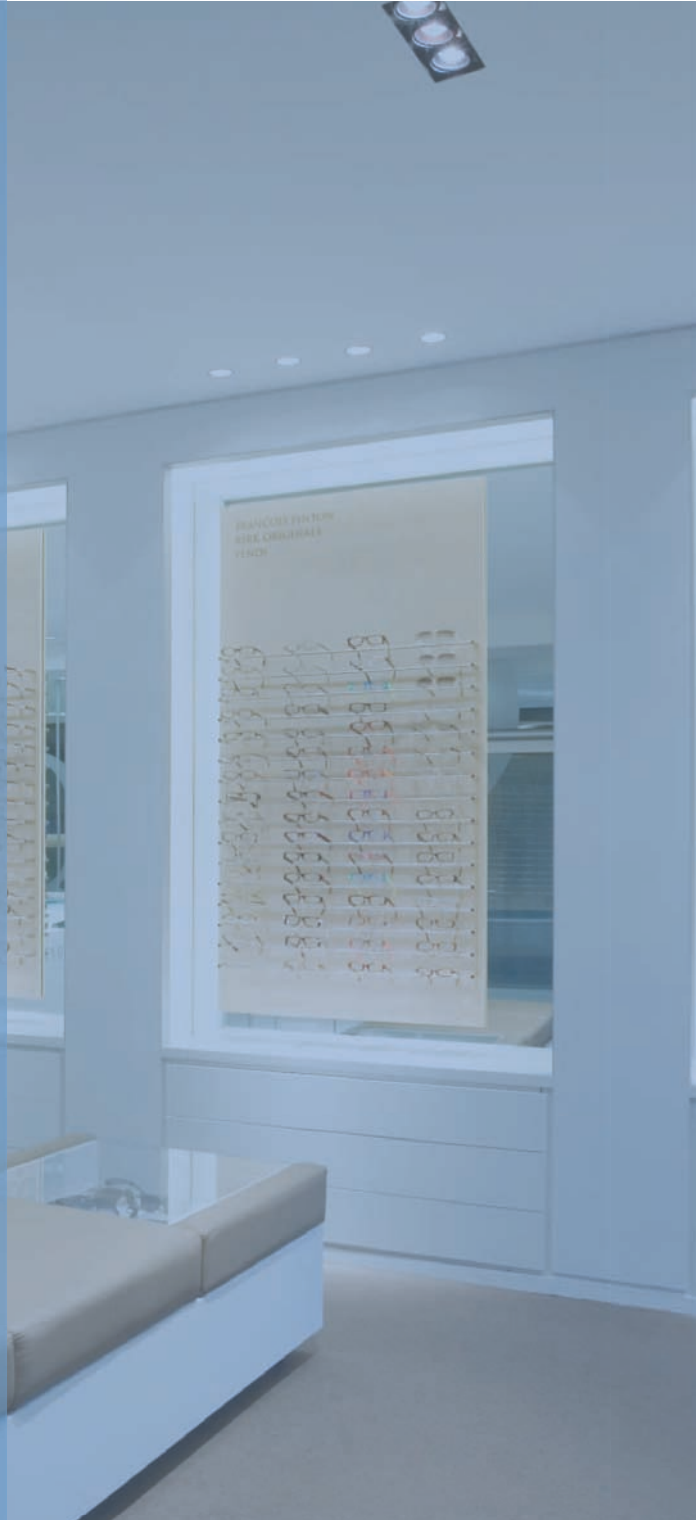

Lumiance

The name Lumiance is derived from the French words *lumière* (light) and *ambiance* (atmosphere). The products are well-known for their durability, safety, quality, reliability, easy to mount, functionality and contemporary design.

siteco

German brand Siteco (formerly Siemens Lighting), is one of the leading suppliers and manufacturers of technical interior and exterior lighting as well as customer-specific solutions. As an industry leader, Siteco is widely known for innovation, quality and service within the lighting industry.

Architecture and design are central to the origin of even the simplest product, ensuring well designed luminaires are easy to install, use and maintain, each sympathetic to its surroundings. This approach has resulted in prestigious international and local design awards, which acknowledge Concord, Lumiance and Siteco's commitment to quality and innovation.

SYLVANIA

SLA develops, manufactures and markets a comprehensive selection of Sylvania floodlight, roadway, tunnel, highbay and professional outdoor architectural lighting equipment, for the Australasian markets from our national distribution centre located in Gosford NSW.

With a unique access to the diverse international lamp markets for LED, fluorescent, compact fluorescent, HID, halogen, miniature incandescent and special lamp sources, SLA is able to bring leading edge technology efficiently to market, providing the highest level of quality, innovation and customer service to our clients. Through these relationships with key international partners and access to leading edge lamp technology, SLA is well equipped to create unique lighting solutions for our clients.

Our inhouse technical design team develops our world class lighting systems with state of the art CAD and optical design technology, leveraging SLA's access to innovative and comprehensive lamp development programs.

Sylvania is one of the few lighting companies in the world that produces both lamps and luminaires. Our local manufacturing facilities have won ISO9001 and ISO14001 recognition for Environmental excellence, with the design and development team being supported by our NATA accredited photometric laboratory, extending our total quality commitment to cover every function of our company.

CSE Ex has been at the forefront of design and manufacturing of electrical equipment for Hazardous and Arduous locations in Australia since 1994. CSE was the first Australian manufacturer in its field to obtain QA Accreditation to ISO 9001.2000 and the first in Australia to obtain product certification to the ICEX scheme which is now recognised worldwide. During this time many changes have evolved within the manufacturing and certification of products for use in Electrical Hazardous location, through which CSE has remained, and continues to be, the leader in its field.

2008 saw the CSE brand become affiliated with Sylvania Lighting Australasia. SLA's extensive luminaire range within the SYLVANIA Brand, coupled with its ongoing commitment to quality, innovation and customer service will both complement and enhance CSE's success in providing customised, complete package solutions for your Hazardous or Arduous environment requirements. SLA and CSE are proud Australian Manufacturers, with all CSE products being manufactured in their fully equipped manufacturing facility in New South Wales. This control allows CSE to ensure the highest quality products are delivered every time.
