

STEPLIFT 1000

The Terry
STEPLIFT 1000
is the ideal solution
to wheelchair
access problems.

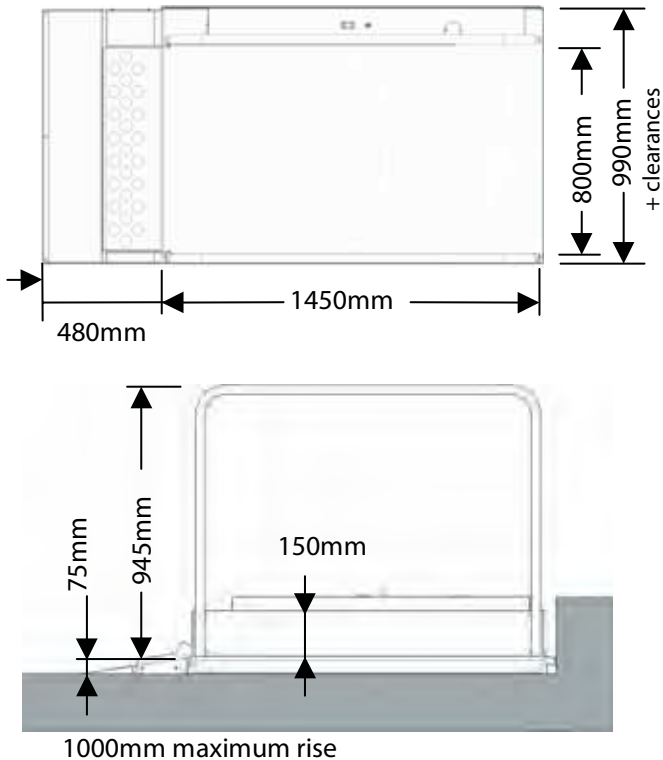

General Specifications

- Designed to comply with AS1735 Part 14
- Safe working load – 250kg
- Closed height – 75mm
- Maximum rise – 1 metre
- Ramp which doubles as a security device for wheelchair
- Silent, smooth operation
- Dedicated power supply not required

Safety Features

- Arrestor mechanism incorporated into ramp
- Full platform safe edge as standard
- Scissor mechanism fully enclosed by bellows
- Low voltage operation (24 VDC)
- Full battery back up as standard

Terry Lifts' policy is one of continuous product development and the company reserves the right to change specifications, including standard colours without notice.

Terry STEPLIFT 1000

- Practical – provides both wheelchair and pedestrian access
- Reliable – battery back up provides normal operation in case of mains power failure (30 cycles)
- Durable – Stainless steel/aluminium finish as standard – suitable for outdoor use
- Low Maintenance – annual servicing recommended. Maintenance contract available
- Easy to Use – has conveniently situated controls and shallow approach ramp
- Unobtrusive – blends into its surroundings
- Versatile – up to 1 metre rise. Upper level side access & indoor pit models available
- Safe – built to comply with AS1735 part 14 by a company with 25 years design experience in access for disabled
- Cost Effective – often cheaper than a ramp and can be re-sited
