# Bathroom Renovation – Dual Tap Converter

**Permanent Fix**  
Even for damaged in-wall recessed pipe

QUOSS, an Australian-owned company, spent eight years of extensive research and development inventing and designing simple and affordable bathroom solutions to suit the Australian lifestyle.

They have patented a world first new technology, RENO TRANSFORMER SERIES that solves age-old plumbing problems.

The Reno Transformer Patented Fitting Technology can be instantly retrofitted to any two tap system in Australia without construction. This innovative transformation is not only easy and cost effective but eliminates leaking showers and taps permanently.

Many hotels, motels and serviced apartments are installing the units as they can be installed in normal room cleaning time. It takes care of their leaking taps, no loss to business revenue and big savings on maintenance and utility bills.

**From old to new in just a few minutes**
