

LED's & brightness control for workspace solutions

OfficeLED

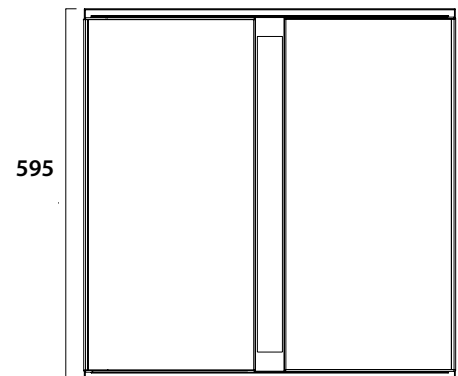

OfficeLED is a recessed LED luminaire designed to create brighter office spaces, eliminating the traditional gloom associated with louvres. Leading edge LED's from Samsung provide quality and quantity of light, surpassing traditional fluorescent performance, allowing easy compliance with the BCA.

OfficeLED is available in non-dim, dimmable, with RGB colour central panel, and with a variety of motion and daylight sensors, for true intelligent lighting solutions.

OfficeLED 600

Recessed Modular

- Samsung LED inside
- High performance LED and optics offers superior performance to T5 equivalents
- Standard electronic and dimmable versions
- RGB and sensor options
- Recessed lay-in
- Ceiling frame accessories for plasterboard installation
- Separate surface mounting box
- Exceptionally low glare, under 1500 cd/m² at and above 65°
- Unique patented design incorporating satin prismatic wings and a Conical De-glaring Prism (CDP) centre panel
- IP40 for reduced dust ingress
- Slot-in wing design allows for quick and simple installation, maintenance and cleaning

ELECTRICAL CHARACTERISTICS	
Voltage	230/240V
Wattage	46W
Power Factor	0.95
Life (70%)	50,000

OPTICAL	
Lumen Output	2800lms
Colour Temp (CCT)	4000K
Colour Rendering	83
