lockfast

easy to lay less to pay!

Laying stone for floors, walls, cobbles and pillars has never been easier or more cost effective. Introducing the unique lock**fast** patented, interlocking systems. A revolutionary breakthrough in the creation of beautiful exterior and interior stone surfaces!

What makes the lock**fast** system so unique?

Stoneazy's lock**fast** floor system has revolutionised the way natural stone is laid. But revolutions don't happen overnight. 20 years of dedication and persistence have been invested in the development of the heart and soul of the lock**fast** range.

The revolutionary qualities of the lock**fast** system include:

- ✓ Stoneazy lock**fast** is quick and easy to install, with minimal labour required.
- ✓ The quality and finish is equal to that of the most experienced stonemason.
- ✓ Stoneazy lock**fast** is hand cut and placed. No panel is the same.
- ✓ Stoneazy lock**fast** saves up to 30% waste, with no mess involved.
- ✓ Most off cuts can be re-used on site.
- ✓ UngROUTED panels allow for choices of colour and textured grout.
- ✓ Any colour or textured stone can be adapted to the lock**fast** system.
- ✓ The Stoneazy lock**fast** system is not a mosaic. It's unique strength allows for flexibility of use with no restriction in material type, shape, size or thickness.
- ✓ Stoneazy lock**fast** products give 100% bond in any weather – guaranteed.
- ✓ Stoneazy lock**fast** can be laid by a tiler, tradesman, or home handyman.
- ✓ Stoneazy lock**fast** interlocks in multiple directions – there is no set grid.
- ✓ All sandstone products are pre-sealed at the Stoneazy factory.
- ✓ Modern factory assembly line with strict quality assurance – no need for costly inspectors.
- ✓ Stoneazy lock**fast** floor, wall, pillar and cobble is made to fit with a natural interlocking edge.
- ✓ Cutting is required only at the top and bottom.
- ✓ Stoneazy lock**fast** can also custom create an exclusive variety of sandblasted designer panels.

lock**fast**
easy to lay less to pay!

Laying the lock**fast** system is as easy as 1,2,3!

Nothing is as simple as laying Stoneazy's lock**fast** systems. Just follow these three easy steps for the most economical and versatile natural stone finish ever.

1 GLUE Simply apply Stoneazy's special surface bonding glue to the back of the lock**fast** product, as you would on tiles or any other surface laying material.

2 LOCK Now lock in the lock**fast** product in any of the many interlocking options available from the patented lock**fast** floor system. Refer to the easy-to-use instructions provided for more detailed information.

3 GROUT Finish off by grouting the product in your preferred colour or textured grout.

Other lock**fast** products!

"Our patented lock**fast** system is simply the most exciting breakthrough in laying stone this century. Previously, stonework was the sole domain of highly specialised and expensive stonemasons. Stoneazy now makes it possible for anyone from the home handyman to the professional tradesman to lay quality stonework for a fraction of the cost, without compromising on the quality of finish. Stoneazy lock**fast** is truly a product for the new millennium."

Brian Boserio, Manufacturing Technical Chief

The unique Stoneazy lock**fast** patented system has been ingeniously applied to a stunning range of interlocking natural stone products that will also save you time and money.

The lock**fast** cobble range.

The lock**fast** wall range.

The lock**fast** pillar range.

Ask us about our spectacular designer panels Stoneazy has developed an ingenious method of sandblasting designs onto the surface of the stone cobbles. These cost-effective designer panels are exclusive to the lock**fast** range. Stoneazy can also supply a choice of coloured and textured grout, as well as a long-lasting adhesive that has been specially developed to complement the lock**fast** range – allowing us to guarantee our finished product for 15 years. Give the experienced team at Stoneazy a call to find out how they can turn your ideas into reality.

The lock**fast** floor, wall, pillar and cobble!

Take a look at the fabulous lock**fast** floor, wall, pillar and cobble range. As well as a choice of either granite or sandstone, we offer a range of basalt and marble including a host of colours as wide and varied as the spectacular Australian landscape.

Stoneazy's lock**fast** sandstone colour range includes Kimberley Red, Outback Dust, Ironbark Grey, Kakadu Mist, Savannah Gold, Bendigo Ash and Heron Green.

Outback Dust Heron Green Savannah Gold Kakadu Mist Kimberley Red Bendigo Ash Ironbark Grey

There's also a host of stone patterns to increase your options in the lock**fast** floor, wall, pillar and cobble range. Choose from natural "Pebble" stone shapes featuring smaller sized stone, to the popular larger sized, "Random" option. Otherwise you can select the timeless appeal of the "Ashlar" pattern, comprising of uniformly shaped stone of various size.

Pebble pattern Random Pattern Ashlar pattern

You can choose between two stunning grades of texture. Tumbled will give your floor a natural earthy look and feel. For an authentic aged appearance, you might prefer our unique Old World antique texture, which is produced using an exclusive sandblasting method developed by Stoneazy. Any stone material can be adapted to the lockfast systems. The team at Stoneazy can also work with your preferred stone type, pattern or specific colours.
