Stainless Steel Fixing System

THE stainless steel fixing system from FIX Systems Architectural Hardware is the modular solution with limitless applications for the construction and installation industries.

Applications include: shop fit-outs, residential and commercial balustrading, foyer entrances and information panels, museums, glass and acrylic signage.

Each style of Head and Body are interchangeable, offering a great variety of solutions where the durable finish and high quality of manufacture will stand the test of time in all environments.

This proudly Australian made product remains the first choice of designers and builders. To maintain genuine product satisfaction & competitive pricing, we no longer use distributors.
