

PREMIUM QUALITY
Strand Woven Bamboo Flooring

Australia's only eco-certified bamboo flooring.

Environmentally friendly Style® flooring is made from rapidly renewable Moso bamboo. It is the only bamboo flooring with the tick of approval from Good Environmental Choice Australia (GECA).

GECA's independent certification scheme is a whole of life program that scientifically audits all facets of the manufacturing cycle including sustainable resource procurement, eco-sensitive manufacturing practices and occupational safety and welfare for employees and the community. This ensures environmentally ethical products are delivered into the market place.

Manufactured using a patented strand woven bamboo process, Style flooring has been created to provide the look and feel of traditional timber flooring whilst combining excellent performance characteristics and resource efficiency.

The Style flooring range is only available from recognised reseller outlets throughout Australia and New Zealand. Before you purchase be sure to verify your Style flooring is genuine. For peace of mind simply contact our market support team.

Style Bamboo Flooring Fact:
Naturally self-generating, bamboo grows to maturity within five years compared with commercially grown hardwood which can take 70+ years.

Remember, consider the environment, only specify genuine Style bamboo products endorsed by GECA.

Lic: STY-2007

Good Environmental Choice Australia certified contributing to Green Star rating

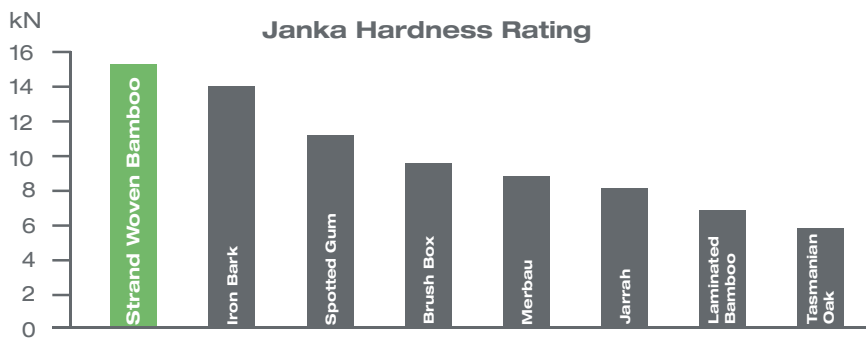

Style Bamboo Flooring Colour Range

Style Bamboo Flooring is pre-finished with six scratch resistant UV coatings and requires no further sanding or finishing. The range includes three naturally occurring colours along with five exciting new stained colours that greatly enhance design options. The colours draw their inspiration from traditional native and imported hardwood species.

Tough and durable

Style Bamboo Floors are incredibly durable and even stronger than many of the traditional popular hardwood species including Jarrah, Spotted Gum and Brush Box. Strand Woven Bamboo has a Janka hardness rating of 14.8kN for Natural and 15.3kN for Coffee, Suede and stained colours - almost twice the average hardwood.

Installation

Style Bamboo Flooring comes in traditional tongue & groove or floating floor options and is quick and easy to install. Style Tongue & Groove: Glue down is recommended with Sika T55 adhesive with an appropriate moisture barrier applied first. Style Solid Lock: Float with an approved underlay which has a moisture barrier. Installation instructions are available on request.

Note: Colours indicative only and are subject to natural variation. This variation in colour reflects the character and individuality of the product.

Flint

Hardness: 15.3kN
Description:
Dark liquorice similar to Ebony or Wenge.

Natural

Hardness: 14.8kN
Description:
Straw to honey blonde, similar to Blackbutt or Ponderosa Pine.

Gunstock

Hardness: 15.3kN
Description:
Versatile golden brown colour similar to Brown Oak, Ipe or Sapele.

Coffee

Hardness: 15.3kN
