## Carekit™ – Practical Solutions For Public Accessible Toilets

THE Carekit™ range provides complete accessible toilet solutions which comply with AS 1428.1-2009 Amdt 1-2010 and the Building Code of Australia, on a 'deemed to satisfy' basis for builders, architects, designers, facility managers and those with the responsibility to meet the provisions of the Premises Standard.

We have combined the necessary elements for an accessible public facility into kits for ease of ordering and to eliminate the hassle of ordering separate items from various suppliers running the risk of non-compliance.

Each of the Carekit™ elements is designed to address Premises Standard requirements. We have done the hard work for you and made sure they will satisfy AS1428.1-2009 and 2010 amendments.

Register to receive information on our solutions to assist you with specifying compliant toilets.
