Cantaport

...new generation in carports, patios & alfresco living.

Your ideal solution..

"Every person that's seen our new Cantaport is blown away...! The WOW factor is amazing!"
- Private home owner.

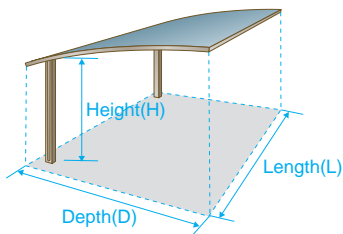

If you are looking for something a cut above the rest, this is it! It's a new style of cantilevered shade that **looks great** and can be used anywhere.

The compact, prefabricated kit makes it **very easy to install**, taking approx 4 hrs from start to finish.

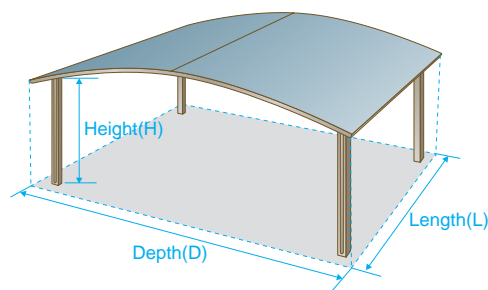

It has a **5 year warranty** and most importantly, it is also **engineered & certified** to Australian standards. Produced to the highest quality standards in Japan, this state of the art technology is sophisticated yet simple, and above all, an affordable alternative.

Designed to withstand any weather conditions, the **Cantaport** surpasses any expectations you might have....**guaranteed!**

Sun protection!

The polycarbonated sheets have been designed to reduce heat by 75% and provide 99% UV protection.

Strong & Durable!

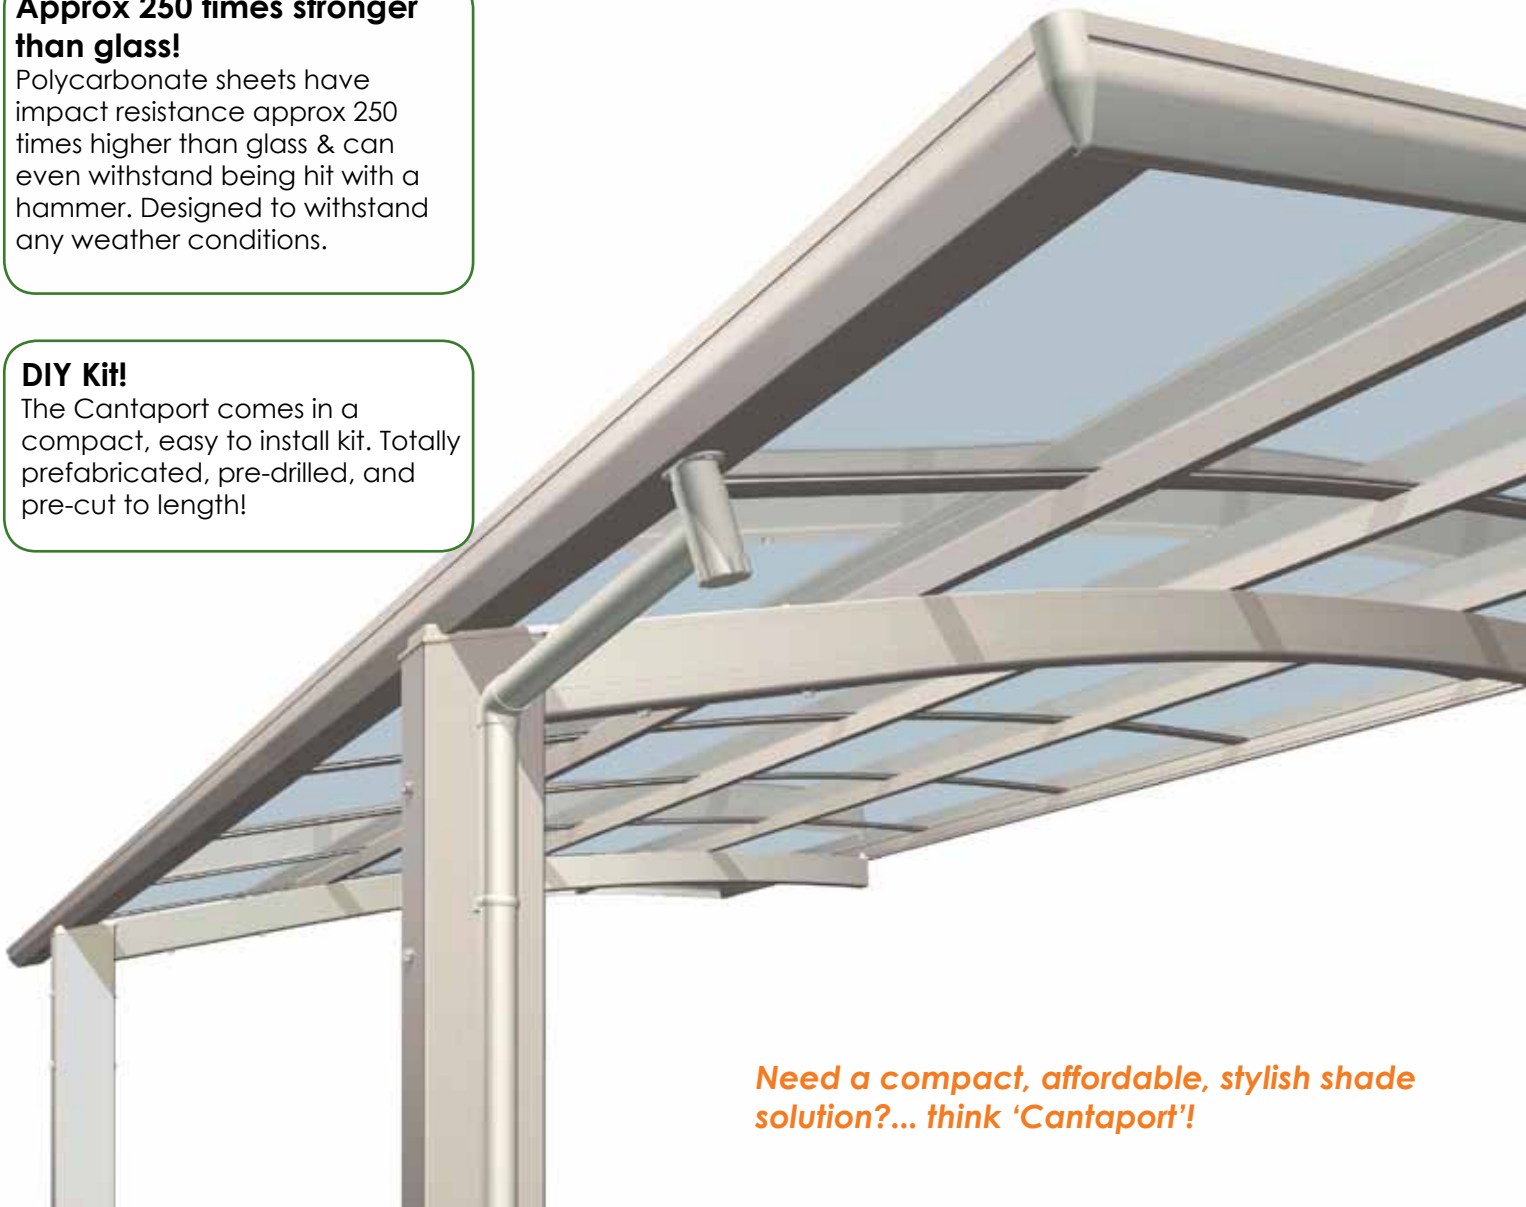

Frame work is made from high quality anodised aluminium with built-in gutters and rainwater downpipes. This ensures a corrosion free, long lasting shade system.

Approx 250 times stronger than glass!

Polycarbonate sheets have impact resistance approx 250 times higher than glass & can even withstand being hit with a hammer. Designed to withstand any weather conditions.

DIY Kit!

The Cantaport comes in a compact, easy to install kit. Totally prefabricated, pre-drilled, and pre-cut to length!

Need a compact, affordable, stylish shade solution?... think 'Cantaport'!
