NATURAL DURABILITY

Test results prove EziTrim
has the best resistance
to termite attack

In a scientifically conducted field exposure trial, CSIRO test results clearly demonstrated the high natural resistance of EziTrim to termite attack. (*C. acinaciformis*).

Easily worked - cut and drill

Easily painted - priming system ready to top-coat

Natural resistance to termites and decay

Light yet strong and stable

Wide range of profiles and dimensions

TEST CONDITION OF SPECIMENS

EziTrim, Cypress pine

Sugar Gum*

Yellow Gum*

Messmate*

Radiata pine

*standard CSIRO test species, used as test benchmark

ready to topcoat, pre-primed timber mouldings for a premium finish
