Olivari Lama: Designed by Gio Ponti

FOR over 102 years Olivari has been manufacturing door handles entirely in their Italian factory, ensuring the highest product quality. SuperInox finishes will not rust, tarnish, pitted or lose their lustre, even if fully exposed to the strongest of sea air; and it's guaranteed for 30 years. Unlike 316 marine grade stainless steel; SuperInox will not T-stain or tarnish. This is why SuperInox is considered to be stronger than 316, marine grade stainless steel. SuperInox finished handles are ideal for all ocean front projects; large or small. Olivari SuperInox handles are being used today in large projects as well as small, from large 850 door apartment blocks to residential fit outs. 100% compatible with all Australian & European locks; Olivari is hard to overlook. Contact Bellevue Imports today for your new 2013 Olivari binder.
