V5000 Suite - Aluminium Shutter Systems

The best looking residential Aluminium Shutter System on the market today.

01

02

- The Volla™ V5000 Aluminium Shutter System has an enviable range of aerofoil blades in 55, 68, 90 and 115mm.
- This system can be fixed horizontal or vertical.
- V5000 Aluminium Shutters can be either Top Hung or Bottom Slide, on a straight, curved or bent track.
- The operable blades are adjustable to 180° both up and down.
- Systems available in Fixed, Sliding, Hinged, Bifold, 'Slide and Stack' and 'Stack and Hide'.

01. Anodised 90mm Operable Blades mix well in the front yard of this Edwardian property in Adelaide SA.

02. Volla™ V5000 Shutters were chosen here for reliability and ease of use in a curved track.

"You're strong"

V1000 Suite - Mono Skinned Louvre Systems

The Volla™ V1000 Suite offers our largest range of Blade profiles including 40, 50, 60, 80 and 100mm. They can be installed fixed either vertically or horizontally and are available in a flat, curved or splayed style. Further, our Fixed Privacy range offers a 90mm Aerofoil, Half Aerofoil, Batten, Half Batten and 'S' Blade and is ideal for fixed louvre shading where good looks at an economical price are important.

V5000 Suite - Aluminium Shutter Systems

Designed in Australia, for Australia's harsh conditions.

01. V5000 115mm Operable Shutters feature in this 'Stack and Hide' project by the ocean at Kingscliff NSW. Our 60x40mm Heavy Duty Stile was used in this high wind area by the ocean.

02. The inset pic shows the shutters being stacked out of sight behind a wall. At the other end the shutters stack neatly into a 200mm cavity.

03. Bottom Slide V5000 90mm Operable Blades were used on this residence for privacy from the neighbours without losing their river views.

"You're versatile"

V2000 Suite - Window Louvre Systems

The Volla™ V2000 Suite was developed to provide a healthy alternative to energy-hungry air conditioning. Louvre Blades are available in widths of 102 and 152mm in clear glass, obscure glass, powder coated, anodised or powder coated wood grain aluminium. Supported with a security bar system providing peace of mind when the Louvres are in the open position. Ask us about our Volla™ Balustrade System.

V5000 Suite - Aluminium Shutter Systems

The best looking residential Aluminium Shutter System on the market today.

"You're secure"

- 01. Special wood grain powder coated Volly™ V5000 Shutters set off this Spanish inspired home. Central Coast NSW.
- 02. These narrow bifold Volly™ shutters open up the walls in this home in Kellyville NSW.
- 03. Volly™ Aluminium Shutters™ are perfect for wet areas such as this holiday home kitchen in South Australia.

V3000 Suite - Concealed Blade Systems

The Volly™ V3000 Suite has been developed to provide an aluminium shutter range with blades that are completely concealed within the stile. The perfect choice when a carefree sliding system is required, especially if privacy is paramount as it minimises the light passing between the sliding panels. This system is available in Aerofoil Blade sizes of 55, 68, 90 and 150mm.

V5000 Suite - Aluminium Shutter Systems

Vollay™ guarantee the quality, so ask for them by name.

03

02

01. V5000 Cross Rail in a wood grain powder coat was used to construct this attractive fence in Sydney NSW.
02. The use of V5000 90mm Bladed Shutters here allowed the addition of a complete living area underneath this stilted home on the Central Coast NSW.
03. Sliding V5000 Shutters keep the harsh summer sun off these open plan apartments in Western Sydney NSW.

"You're motorised"

V6000 Suite - Automation and Motorisation

The Vollay™ V6000 Suite has been sourced to automate Vollay's wide range of Shutters and Louvre Systems. The V6000 Sensors are high quality and will interface with other products. The V6000 Electric Motors are manufactured in Europe and are dust and water resistant and enclosed in a two piece aluminium box section to further enhance their IP66 Rating.

V5000 Suite - Aluminium Shutter Systems

The best looking residential Aluminium Shutter System on the market today.

01. This beautiful 'dayroom' has been built using V5000 90mm Operable Louvres to keep out the sun and the rain.
02. Dramatic black V5000 Louvre Doors were chosen here to shade the living areas and creating an entrance/exit to this beautiful home in North Adelaide SA.
03. The custom colour shutters in this pool-side living room keep out the elements while maintaining the views. Sanctuary Cove QLD.

"You're 10 Year Warranted"

V7000 Suite - Opening Roof Systems

The Volly™ V7000 Suite was designed to provide a water resistant alfresco roofing system. There are 2 blade options available, Aerofoil and Shingle (for roofs exceeding 6° pitch). Motorisation is by way of IP66 Rated European Electric Motors and should a sun louvre only be required then our V9000 blade options open up a range of possibilities. The gutter and provision for steel structural frame is now integrated into the motor housing.

V5000 Suite - Aluminium Shutter Systems

The green solution. Turn the sun on and off before it hits your living space.

01

> The V5000 Suite allows span widths of up to 1,500mm, that is twice the span of most timber and plastic alternatives.
> The V5000 Shutter System has been designed to be installed both externally and internally. It has the dimensions and the 'good looks' to fit with any internal decor.

02

"You're quality"

01. V5000 90mm Operable Shutters feature in this apartment complex in West Sydney.

02. V5000 Bifold Operable Shutters separate and give privacy to this alfresco living area in Adelaide South Australia.

V8000 Suite - External Venetian Systems

The Volla™ V8000 Suite was designed to provide an operable aluminium screening system to cover large balconies, hard to reach windows, stairwells and glass roofing areas. There are 2 systems, Non Retractable, available in 90mm and 150mm blades and the Tilt and Retract System available in 80 and 150mm blades. This system is built to last using extruded aluminium gear racks and bracket clamping systems.

"You're brilliant"

V9000 Suite - Aluminium Louvre Systems

The Volly™ V9000 Aerofoil Blade profiles are the largest in our range and are available in aerofoil 150, 200, 300, 400, 600 and 900mm. They can be installed either vertically or horizontally, fixed, manually operated or motorised using our IP66 Rated European Electric Motors. A complete range of brackets, end caps and assorted components are available.

All Volly™ products comply with the same stringent specifications and standards.

- > Extruded from aluminium alloy 6063 and tempered to T6 as per Australian Standard AS1866:1997.
- > All powder coated surface finishing is applied to a minimum of 60microns and complies with Australian Standard AS3715-2002.
- > All anodised finishes are applied to a minimum of 20microns to comply with Australian Standard AS1231-2000.
- > All finishes conform to corrosion resistance standards as per Australian Standard AS1580.457.1:1996.
- > All fixings, springs and assembly components are manufactured from stainless steel and all plastic components are protected with UV inhibitors.
- > The Volly™ Aluminium Shutter is available in the following standard colours - Gloss White, Satin White, Alabaster, Natural Anodised, Satin Black, Light Cedar and Dark Cedar.
- > A full range of Interpon and Dulux Powder Coat Colours are also available.
- > We offer cutting edge in-house 2D and 3D CAD software design and support
- > The Volly™ Suites are supported with a full range of both written specifications and technical drawings and are available as PDF's on our website or upon request from our office.
- > Electric motors are IP66 Rated - This means that our motors are protected against the ingress of dust, high pressure water jets from any direction and tested to 10,000 cycles.
- > Volly™ Aluminium Shutters and Louvres are supported with a 10 Year Warranty against twisting, warping, sagging and surface finish failure. Further, all fixings and moulded componentry will maintain a functional level of operation for the life of the Warranty.
