

Rubber Flooring

Durable - hard wearing and impact resistant

Environmentally Friendly - **GECA (Good Environmental Choice Accredited)** range available. Novaplas rubber flooring does not release V.O.C.'s at ambient temperature.

Sound Absorbent - Acoustic insulation of approximately three times greater than vinyl floorcoverings

Flexible and Resilient - Tough, impact resistance and has the ability to accommodate some structural movement.

Colour & Design - A wide range of styles, textures, patterns and colours to allow for design creativity.

Easy to Install & Maintenance - no costly coating, sealing or polishing required. Welding is not required for joins.

Thermal Insulation - Superior thermal insulation for increased comfort and energy efficiency.

Low Life Cycle Cost - Economically proven long-life and low cost maintenance.

Quality Tested - Manufactured and tested to European and Australian standards for both fire and slip resistance.
