ECHOHUSH  
 ) ) ) ) )

Echohush products blend aesthetic and acoustic performance to control and enhance sound quality in a visually dramatic and durable form

# profile

Profiled panels are cut from combustion modified acoustic foam which is then treated and painted to your desired Echohush profile colour choice

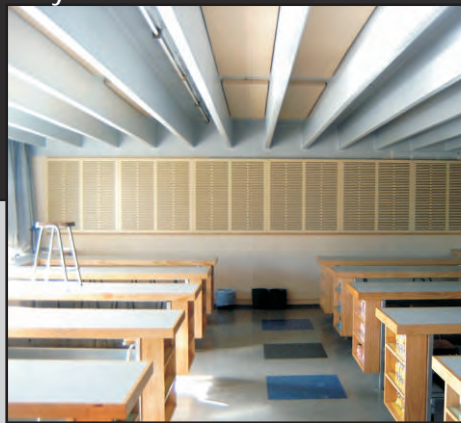

Echoshush is designed to achieve stylish room acoustics

# COSMO

Aesthetically pleasing metal panels are available in a range of designs with a framed cavity absorber and finished with your desired colour choice

Tested and proven

Ranges of finishes and designs to suit the most stylish fit out

A more robust option for sports halls and public areas

# profile

Echohush Profile (foam based panels) and Echohush Cosmo (metal based panels).

Echohush solves room acoustic noise problems and provides acoustic solutions in many applications such as:

- restaurants • theatres • lecture rooms
  - schools • sports halls • auditoriums
  - recording studios • hallways • showrooms
  - home theatres • office receptions • open plan offices
  - bars • church halls • call centres • music lesson fitouts • nightclubs
- public spaces or where enhanced privacy and acoustics is needed....

Echohush Metro (timber based panels) are also available on request. Minimum order quantities apply.
