ELECTRIC FIRES

contemporary

We want you to enjoy your new Cradle Mountain Electric Fire right from the start.

This truly stunning European range of Cradle Mountain Fireplaces will add that finishing touch to any contemporary home, apartment, resort, hotel, or reception! Ideal for the bedroom, living or dining area, these slimline electric units will furnish any room with a relaxing ambience while at the same time providing a direct source of hot air on that chilly evening or morning.

Our stunning range of European designed and made electric fires can be operated independently of heat, so you can indulge in the glowing flame effect any time of the year. All electric fires feature an innovative flame picture system which ingeniously captures the charm, warmth & cosiness of a traditional fuel fire. With an efficiency of 100%, units can be run at either 1kW or 2kW.

Installation advantages

The contemporary fires come with a bracket that is simply screwed into a wall. The fire is then mounted to the bracket. These fires do not require a flue. Simply plug the fire into a power point for an instant blast of 105°C air.

Brooklyn

Truly Glamorous
The stunning Brooklyn will add a touch of class to any modern designed room. The enhancing new and improved flame effect from this fire is a feature in itself.

Scenic

The Scenic's engaging wide screen flame effect is dramatically framed by its contrasting matt mocha and high gloss black glass fascia. These neutral tones make it easy to incorporate in any modern home. Operated by remote control, the fire has a heat output of 2.0kW or can be used without heat, just to create a cosy atmosphere.

Liberty

Break free from the norm with this ultra modern fire that creates a design statement in the most minimalist homes. The clean lines and cool sophisticated brushed steel finish adds to the impressive flame picture, to create a perfect ambience. Liberty also offers you all the convenience of a remote control, allowing 100% control at the touch of a button.

Metropolis

The Metropolis offers a super sleek look in black glass. Its single piece fascia features a subtle edge design and curved corners that gently soften the high tech look. The white pebble bed underscores the wide flame effect and continues to create interest even when the fire is no longer lit.

Glamour

Sleek and elegant. The Glamour will fit effortlessly in a modern designed room. The slimline wall mounted landscape fire features a chic, white pebble fuel bed, backed by a polished chrome rear reflector to really bring the warm glow to life. The fascia consists of two elements; a contemporary white 'floating' glass panel surrounded by a brushed chrome aluminium trim, which really adds the finishing touch.

Twilight

The stylish design of the Twilight electric fire is the ideal finishing touch for modern minimalistic interiors. Its stunning black glass front provides a dramatic contrast to the pure white of the pebble bed. The enhancing new and improved flame effect from this fire is a feature in itself.

Electric fire dimensions & specifications
